A Perfect Treatment For This Distressing Complaint. 'I had an attack of Weeping Eczema; so bad that my clothes would be wet through at times. I suffered terribly. GREENSBORO

Ruth Williams is assisting in the post office. Charles Goodrich, Miss Merle Hartson, Robert Willey and Dorothy Willey made a trip to the White Mountains, Wednesday.

Mrs. Mary Gillis died at her home in Greensboro Bend Tuesday. Mrs. Gillis has been a sufferer for many years and the end has been expected for some time past. She has been a lifelong resident of this place and will be greatly missed by her many friends and relatives here.

The Liberty Loan quota for this town is \$20,400 and it looks as though the full quota would be raised before the end of the drive. The bad weather has hindered the committee in making a canvass of the town. Two names have been added to the committee as first announced by the chairman, G. E. Colby, and the new committee is as follows: R. A. Ritchie, Hiram Calderwood, Roland Thornton, Irwin Wilson, J. H. Barrington, George Davis, N. H. Kaiser, Albert Young, Frank Amsten, Elwin Esdon and A. E. Jackson. All necessary papers and information may be gotten from any one of the committee.

The work which the Red Cross has been waiting for has now arrived and there is plenty of work for all who come to the regular meetings Tuesday afternoons. Bernie Cate, who sold his goods at auction a short time ago, is soon to move to West Acton, Mass., where he has a position. There were no services at the United Presbyterian church Sunday, owing to the failure of the preacher to arrive. The Sunday school held a rally day service.

Mrs. Lansing Collins and little son left last week for their home in Princeton, N. J., after spending the summer at their cottage here. Prof. Collins went several weeks ago. Rev. E. C. Hayes gave a talk on the Liberty Loan at the morning service last Sunday. The communion of the Lord's Supper will be observed at the Congregational church Sunday morning.

Miss Grace Fairbanks is at the home of her father, A. B. Fairbanks, her school in Craftsbury being closed because of the prevalence of influenza.

Roy O. Buchanan and family left last Tuesday for their home in Burlington after spending the summer here, where Mr. Buchanan has been in charge of the Caspian Lake garage. Alfred Shute left last Monday for Yonkers, N. Y., where he has a position with Dr. Birney, who spends his summers here.

*All who have old clothes to contribute to the French and Belgian Relief will bring them not later than Saturday of this week to the home of Mrs. Will Bates. A special request has come to the Red Cross asking them to collect or buy if necessary all tin foil, pewter and platinum possible. Will not those who get these articles or have them in their homes bring them at once to the Red Cross president, Mrs. G. E. Colby. All tin foil such as comes on yeast cakes, or paste tubes should be saved. Every little helps.

Mr. and Mrs. Edward Bancroft, who have been occupying their cottage on Birch Point the past summer, left Saturday for their home in Brooklyn, N. Y.

Now It's Bottomless Pie. When is a pie not a pie? Is a question which will tax the wits of some wartime Solomon to solve in squarely facing the issue of "bottomless pies" as a measure of war saving of foodstuffs in the latest Hooverized innovation of baking for the nation. The movement to remove the bottom crust from pies is being taken hold of by housewives and bakers generally, and is gaining wide support. New York is a pie-eating city. It is estimated that an entire pie is eaten between 15 persons daily, or a total consumption of 500,000 pies each day in the metropolitan district. In one year the collective stomachs of New York's pie-eaters absorb 182,000,000 of the dainties. Some one with a penchant for large figures has gone so far even to state that the bottom crust of those pieces, if rolled out with a large rolling pin across a 40-acre lot, would in a week cover the surface of the field and lap over the fence posts. On the basis of 4,000,000 pies eaten by the entire nation each day, at the end of the year the bottom crust of the pies would form a strip of crust nine yards wide and long enough to encircle the globe at the equator. Some crust.

Brave Milk Girls of Reims. The little milk girls of Reims are given high rank by Paul Dramas of that martyred city, in an article he has written praising the heroism displayed by the women of Reims. "The little milk girls," he writes, "will never be forgotten at Reims. Milk was a necessity for the children, the aged and the sick. Thanks to the little milk girls they never went without. The tinkling of their little bells announced their arrival and for 44 months they traversed all the streets of the city. Many a time they were taken by surprise by a storm of shells. Three of them had to be carried away on stretchers, yet the others continued on their route so that the children and sick should have their milk all the same. On February 28 we heard the tinkling of their bells for the last time. The little milk girls were sent out of the city. They had filed their mission to the very end, for after that there were no longer in Reims either children, aged or sick. All had left."
