'CAP' STUBBS

Just think of all the meny different animals...

The elephant stands on his feet all day...

O look at the baby rinosseriss...

The monkeys jump up the bars of their cage...

Because they have no trees to climb...

But you cant enjoy feeling sorry for them...

Because they have sutch a wonderfull time...

We stay there bravely as the lion roars...

And shows all the teeth he can show...

And yet on the other hand if he ever broak loose...

We'd be the first ones to go.

Schoolmasters' Club Enjoys Annual Banquet

Continued from Page 1

pointed by the chairman Clowse, consisting of L. C. Hunt of Burlington...

The first speaker introduced was M. D. Chittenden of Burlington...

When Commissioner Dempsey was presented to speak, the entire assembly rose to do him honor...

Dr. Wallace W. Atwood, president of Clark University...

Dr. Atwood discussed present day educational problems in an intensely interesting way...

present conditions have not come about by chance and that they are not wholly the result of the war...

The war simply brought certain matters to a head and the results are made apparent more forcibly...

He called attention to the different attitude of educational problems today...

that have grown out of our increased population and the rapid taking up of public lands and resources...

An individual of a nation can no longer move the boundary line without infringing upon the property rights of others...

In our industrial and economic discussions we must learn to really listen to the other fellow whether it be employer or employe...

The idea of individual and nation to listen to the arguments of the other fellow must give way to a real get-together spirit...

and we must have the strength of character and christian purpose to do this and meet our modern problems squarely and fairly...

The last speaker was Supt. William McAndrew of New York City...

whose splendid vigorous address earlier in the day had been one of the outstanding features of the great convention...

He emphasized the fact that teachers have a big job to perform. No where can the modern spirit of team work be more successfully impressed upon the rising generation...

than in the schools. Honest American manhood as a basis of our economic life and success must be emphasized. Schools were established as a part of the American idea of independence...

The importance of good team work must be given its broader responsibility. Generosity is the American ideal. Teach human virtues which make modern life more effective...

Chairman Clowse thanked those who had delivered the excellent speeches for "the successful way the team had carried the ball and won the game"...

and all present voted the evening an unqualified success.

A Talk To Mothers-- Not Frivolous, But Thoughtful Mothers.

Each winter season brings coughs, colds, catarrh, pneumonia, "flu", and tuberculosis. Loving mothers dread the onslaught of these diseases.

Thoughtful mothers often provide against the danger of colds and coughs. Such mothers spend less money and have fewer hours of anxiety and sleepless vigil watching at the bedside of a loved one.

Some mothers, inexperienced do not know how to provide in advance for the colds and coughs that are bound to appear.

Here is a simple inexpensive way—practiced by over 300,000 mothers during the past twelve years, as a great volume of testimony proves. They make up a full pint of home made cough and cold medicine—using 2 1/2 oz. of the pure Eucalypti Menthio-Laxene, mixed with home made sugar syrup or honey. Costs less than \$1.00.

Menthio-Laxene is so pure—contains no chloroform, opium or narcotic drugs—that it is given to infants without harm. Children and adults like its delicious flavor—and its marvelous quick action in stopping colds and coughs before the dangerous complications set in.

There is nothing sold so pure, so prompt, so inexpensive.

Resolve to be a "Thoughtful Mother." Get Essence Mentho-Laxene today and drive the cold and cough away. Best ever sold for cough and cold. Send a cent for sample. The Blackburn Products Co., Dayton, Ohio.
