

## The Merriest Christmas Ever

There is no reason why you and your family should not enjoy the Merriest Christmas ever.

There are two requisites and they are Health and Happiness.

During the last twelve months alone so many people all around you have been restored to Health by Chiropractic that you have become half converted yourself. Be wholly converted.

Be sure that your spine is normal. You can do this by consulting a competent chiropractor, who will give you a Spinal Analysis.

If he tells you that there is nerve pressure somewhere, thus impeding the Life Force from flowing uninterruptedly to the various organs, take some Chiropractic Vertebral Adjustments, which will be given with the bare hands alone.

They will do you good and will restore you to Health.

Do this at once and make sure that the Christmas of 1922 will be the Merriest one you have ever spent.

We are here to help you, and, if only given a chance, will help you.

There is not the slightest reason why Health and Happiness should not reign supreme in your home this coming Christmas.

Take time by the forelock and consult your chiropractor today.

Consultation and Spinal Analysis Free.

### NEWPORT MAY HOUSE 1000 BUICK CARS

#### May Construct Vast Shed to Protect Big Fleet of Motors

Newport may house this winter a thousand Buick automobiles if storage room can be provided for them.

Messrs. Bradley and Fairbrother yesterday received a wire from the Naves-Buick Co., New England distributors of the Buick car, asking if it would be possible for them to store a thousand cars for the winter. They will be shipped east via the Canadian Pacific railway to Newport, to await delivery in the spring by the Boston and Maine railroad. This would mean seven or eight train loads of between forty and fifty cars each. The flat cars on which autos are shipped will carry at least three cars.

This proposition was a poser to the new firm, but they are already making plans to put this large shipment under cover. There is a rumor that an immense shed will be constructed on the trotting park or some other available place for the purpose.

#### Concord

The following committee from the Ladies Benevolent Society have been appointed to serve the coming year. December, Dewey Smith, Jack Ralston, T. H. Osgood, Sidney Harding, Francis Lillierap, William Remnick, Thaddeus Wheaton, January, Mrs. O. W. Baker, Mrs. Francis Lillierap, Mrs. Henry Lee, February, Mrs. Dewey Smith, Mrs. Eloise Gray, Mrs. T. #### EDITORIAL

**The Philosophy of Toys**  
The children's toys which are distributed in such profusion at Christmas are more than mere playthings. Parents will find it interesting to study their effect on child nature.

The primary motive for toy giving is the desire of loving parents to make their children happy. Also they have a useful effect, in diverting the attention of the kid element from their troubles. Innumerable generations of yelling youngsters have been silenced by diverting their attention through some toy. These playthings are a wonderful help to the busy mother, who uses them to occupy the minds of her restless offspring while she attends to other duties.

But the toy does more than keep peace in the house. It is the child's first tool, and his use of it is his first introduction to the vast equipment of machinery and industrial devices that has been handed down from previous generations. A child without toys is not merely likely to be unhappy, but he is like a man cast out into the world without tools of manual or mental labor with which to use his powers and accomplish his ends.

Toys incite children to use their hands and play they are doing real work, lay the foundation for industry and mechanical skill. Millions of children got their first conception of tools from building blocks and similar playthings.

Toys give the child his first little glimpse into the vast world of invention, and make him curious to know more of the triumph of man's ingenuity. Children should be taught to care for their toys and to use them in the most skillful way. The boy who handles his little tin spade effectively today, will soon use carpenter's tools well and some day may be handling or operating a marvelous mechanical invention.

#### New Ideas

It is a difficult matter to draw the golden mean between conservatism and radicalism.

Many people begin to hurrah for every new idea suggested for political and economic reform. The theoretical arguments for such innovations look plausible to them, and they never think of possible objections. They agitate violently for such ideas, and condemn politicians and parties if their proposals are not promptly accepted.

Other people go to the opposite extreme. They regard the world as a pretty comfortable place as it is, and view new ideas with hostility.

Both attitudes are wrong. The country is full of evils that need reform. People must examine suggestions with a hopeful and open mind. But before rushing to the support of every new idea, it is well to ask how they have worked in practice, and how they fit in with ordinary human nature.

The kids are always willing to attend Sunday School if a popular athlete is made their teacher.

#### SUNNY SQUIRELETS

Formerly the cannibals used to skin people alive, but now this practice is restricted to the stock markets.

There is a movement to establish public game refuges and the hunted bachelors certainly need them.

Business is urged to adopt a code of ethics, but schedules of jail terms might be more effective.

#### Many Like This In St. Johnsbury

Similar Cases Being Published In Each Issue

The following case is but one of many occurring daily in St. Johnsbury. It is an easy matter to verify it. Ask your neighbor. You cannot ask for better proof.

G. H. Webster, 3 Garden St., St. Johnsbury, says: "About a year ago I was troubled with a case of very lame back and it would hurt me to do any lifting or bending. I was very lame upon arising in the morning. The kidney secretions were highly colored and contained sediment. I used one box of Doan's Kidney Pills which I got at Landry's Drug Store and they relieved every condition and I have had no trouble since." Statement given October 27, 1916.

On May 19, 1920, Mr. Webster said: "The cure I received from Doan's Kidney Pills is permanent. I am glad to again say a few words in praise of them and to confirm my former statement."

## War Savings Stamps

of the 1918 Issue mature January 1, 1923

We have arrangements whereby we can send in to the Federal Reserve Bank of Boston all War Savings Stamps which are not registered and by forwarding well ahead of January 1, payment will be made to us promptly. This will obviate delay in receiving funds as might prove true, due to congestion of business, if settlement is attempted through the local post office.

Funds will thus be received, we expect, in season to start interest on any deposit from January first.

We have already given attention to those we hold for safe-keeping for our customers but if you have any not yet presented to us, please bring in at once and we will collect, free of any expense to you.
