WILL HELP THEIR EMPLOYEES OWN THEIR OWN HOMES

E. & T. Fairbanks & Co. Announce a Plan to Relieve Housing Conditions

The following announcement has been posted at the scale factory by the management:

The question has been asked as to whether or not this company would help to finance home-building by our employees.

Announcement is hereby made that the company will be glad to help in such an undertaking by making arrangements that will allow employees to pay for their homes by monthly instalments, thereby permitting payments in lieu of rent, to go toward paying for the home.

Employees will select their own lots and decide upon plans, the company only stipulating an advance payment of ten per cent on the total cost of the lots and buildings.

The company will sell lots on its property at a nominal price, but will lend its assistance just the same, if lots are purchased elsewhere.

Employees interested in this matter will confer with J. C. Clark, Secretary.

E. and T. Fairbanks and Company St. Johnsbury, Vt., July 15, 1920.

This announcement will be well received by many of the employees of the corporation who have tried in vain to find homes for themselves and their families. This is in line with the policy of other corporations throughout the United States to finance building operations for their employees and which has been adopted by the American Woolen Company, the various subsidiaries of the United States Steel Co., many of the Akron corporations and elsewhere. At the Beloit factory of Fairbanks, Morse and Co., the employees have already purchased 200 houses on the instalment plan and an addition to

TURKEY GIVEN TEN DAYS TO SIGN PEACE TREATY

LONDON, July 17.—A threat to drive the Turks from Europe "once and for all" is contained in the Allied reply to the Turkish objection to the peace treaty made public here today. Such action might follow if Turkey fails to sign the treaty. The time limit for Turkey to make known her decision expires at midnight July 27. Word comes from Constantinople that stormy cabinet meetings were held both Wednesday and Thursday during which the Grand Vizier urged the signing of the peace treaty as a lesser evil than the consequences of a refusal to sign. Other members of the cabinet urged a refusal. A Crown Council has been called for Monday to make a final decision.

The Allies have arranged to deliver their reply which takes the form of an ultimatum to the Turkish peace delegation in Paris Saturday afternoon. The Turks are informed that they must signify their willingness to sign the peace treaty within 10 days, failing which the Allied powers will take such action as they may consider necessary in the circumstances.

Almost Loses Right Leg

On Thursday afternoon, Louise Remick, seven year old daughter of Mr. and Mrs. H. E. Remick of Waterford, narrowly escaped the loss of her right leg. She was brought to St. Johnsbury where her injury was dressed.

ATTEMPTS A MIDNIGHT MURDER

Ben Thornton Strikes Hired Man on Forehead With Iron Bar

At about 1.30 o'clock on Friday morning, Ben Thornton, a resident of Hardwick Center in the Cobb district, struck one of his farm hands, Forrest Gilman, on the forehead with a long iron bar. Thornton, who is an old man, stole upon Gilman in the dead of the night when the latter was in bed and fast asleep, and inflicted a very serious wound. Mrs. Gilman, sleeping in the same room, was awakened by the assault and with her small child, fled and gave the alarm.

The local authorities of Hardwick went to the farm and took Thornton into custody, putting him in the Hardwick lockup. It is expected that he will be brought to St. Johnsbury where Judge of Probate Wesley will be requested to place him in the Waterbury hospital. Judge Wesley recently appointed a guardian for the old man, whose mental faculties were not adequate to the management of his business, and the papers of guardianship were received only Thursday night by C. A. Stanford of Hardwick. That he was mentally unbalanced had been evident for some time, but it was not thought that he was dangerously "crazy."

THE BENT OIL PLANT BURNED AT SOUTH BOSTON

BOSTON, July 17.—The oil plant of James F. Bent Co. in the South Boston district was destroyed by fire early today at an estimated loss of \$50,000. Three alarms were sounded and the firemen prevented the flames from spreading to four large oil tanks adjoining.

Second Race Postponed Until Afternoon Because Sailing Winds Fail

(By the Associated Press)

The second international cup race of 1920 was postponed at 11.30 o'clock until later in the day by order of the regatta committee. No sign of wind was observed in any quarter. The skippers who have handled coast-

toward the Jersey shore and another reach to the finish. The Resolute dropped her moorings at 10.21 and took a tow from a tug for the starting line. The race is being sailed under conditions which promise little more than a drifting match. At 10.30, it was flat calm at the lightship with no breeze in sight from any direction. At 11, the two yachts in tow, and accompanied by an excursion fleet were running out to the lightship. Weather continued to be lifeless. The regatta committee announced at 11.30 that the time allowance which the Shamrock must give the Resolute would remain at 6 minutes and 40 seconds for the 30 mile course.

SANDY HOOK, N. J., July 17—

A wind of three knots' strength was blowing from the northeast at 8 o'clock this morning when the crews of the Shamrock and Resolute began to prepare for today's international cup race. At 9.22, Shamrock moved slowly out past the Sandy Hook point. The wind was very light and she made but little headway as she headed seaward. Resolute still at her moorings. Capt. Burton rounded the Hook Point. Capt. Burton hoisted his big club topsail and got underway. At 9.52, the Resolute had hoisted a big topsail, and prepared to drop her mooring in the horseshoe. Capt. Burton finally abandoned the effort to reach the lightship on his own sail, and at 10.07 took a tow from a tug. At 10.15 the air was clearer, and the weather prophets predicted more wind from the eastward at noon which would give the yachts a reach
