To Remove Ink Stains.

Ink can be taken from white goods with tomatoes if applied freely. Cold milk is good when the stains are fresh, changing the milk as often as necessary. Fresh butter is even a better solvent.

If very obstinate and the material will stand hot water, the stain should be covered with melted tallow, then washed in the usual way.

Oxalic acid will remove any very obstinate stains, but can be used only on white goods, as it will destroy the color. The crystals are dissolved in boiling water and the liquid is applied to the stain. A thorough rinsing in clear water afterward is imperative.

Another Method.

In dyeing and cleaning shops ether is used almost exclusively for removing ink from fabrics. It is a powerful cleansing agent, but will destroy materials unless they are well rinsed. Ether will remove perspiration stains, but should be mixed with ammonia and water. One-fourth ether, one-fourth ammonia and one-half water is a good mixture. Rinse and place in the sun.

A bottle of cologne is a most useful article, for it will take away smears if rubbed on as soon as they appear. It can be used alike on white or colored fabrics, cotton or woolen, without the slightest injury.

Ice cream makes a very bad stain because it has both grease and sugar in its make-up. To remove stains of it from silk, sponge the stained parts with gasoline or chloroform, placing a pad of absorbent cotton or blotting paper under the spots. When dry, sponge with tepid water and a good soap, and then rub with a flannel cloth until dry. This work must be done

away from the fire or artificial light. Use plain strong coffee to remove the stains of ice cream or milk from black clothing. Dip a cloth in the coffee and rub it over the spot. If the coffee is applied as soon as the stain has been made, so much the better.

Umbrellas Are Fancy.

The umbrella manufacturers have found a welcome demand in the business supplied by fancy makes. The colored silks and matched handles and tips have proved quite popular with buyers, who not only placed appreciative orders for such goods when they bought but have put in a good duplicate business. The manufacturers have so fashioned their product now that they have made umbrellas a dress accessory, and this has done more than anything else, it is said, to encourage sales.

Chenille Embroidery.

Embroidery in chenille in matching tone is used on black and beige costumes, and the chenille matches the material. Sometimes on black satin or taffeta frocks the embroideries take their pattern from lace, Alencon or Chantilly. English embroidery on taffeta is a new trimming detail this season. This is especially noted on garden frocks.

Uses for Ribbon.

For dress trimming purposes, gir- dies, fringes, tassels and spungles are in favor. Wide plain ribbons are in demand for sashes.

RED CROSS

Thru its Home Service Section, of which Miss Lora A. Varney is executive secretary, the Caledonia county chapter of the American Red Cross has rendered assistance during the past month to 92 families, 45 were the families of disabled soldiers and the nature of the assistance consisted largely in following their claims for compensation, training and medical treatment, 24 discharged soldier's families were assisted in making the readjustment to civilian life. Information service was rendered to 7 applicants and 16 civilian family problems received consideration. The office of the Chapter is in the Armory at St. Johnsbury, telephone 845-W, and Miss Varney will be glad to talk with all discharged soldiers who wish any assistance or information which the Red Cross can render.

Women Senators of Old.

Home, as early as the year 218 A. D., recognized a senate of women. This senate, though, differed from most others by confining its considerations and its discussions to matters of etiquette and dress. The senate had the approval of Blagolius and held its meetings in the Quibrial. Cruelty, extravagance and vice were the outstanding characteristics of the reign of Blagolius. Hence, the necessity of having conferences of the sort.
