

BRITISH WILL NEED TO SPEED

Oxford-Cambridge to Meet Best of American College Athletes

IN TWO DAYS' EVENTS AT PHILADELPHIA

Scores of Athletes Arrive for Events of Friday and Saturday

Philadelphia, April 29.—Scores of college athletes from the east and middle west arrived here today to compete in the University of Pennsylvania relay carnival on Friday and Saturday.

The entry list this year is one of the largest in the history of the games. It includes representatives from nearly all the leading schools and colleges in the country.

WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

AFTER "FLU," GRIP

Fevers and Other Prostrating Diseases that Exhaust the Blood. There is often that extreme tired feeling, loss of appetite, tendency to anemia, nerve exhaustion, inactive bowels, constipation and great danger of still further prostration and serious illness.

WATERBURY

The condition of A. H. Morse, who is ill at his home in Duxbury with pneumonia, following influenza, is more comfortable.

Friday evening Emerald Rebeck lodge, No. 33, celebrated her 25th anniversary by inviting Mentor lodge for supper and a social evening.

Rev. Edward C. Hayes officiated at the funeral of Raymond, the infant son of Mr. and Mrs. Burton Morse, Tuesday afternoon.

Mr. and Mrs. William Gilbert are to have their home with Mrs. D. D. Grout on Randall street.

The burial of Mrs. T. H. Wilfong of Woodstock took place in the local cemetery Tuesday, Rev. Edward C. Hayes officiating. The deceased was 27 years of age and died of tuberculosis.

Donald Harvey has rented the Abbott tenement and is moving into the same. Mr. Harvey moved from Richmond and is employed by the Magnesia Talc Co.

AN AMERICAN DECORATION

As Conferred on King and Queen of Belgium Presented To-day

FOR TRANSMITTAL TO BELGIUM

Grand Cross of the Order of American Cross of Honor

Washington, D. C., April 29.—The decoration of the Grand Cross of the Order of the American Cross of Honor, conferred upon the king and queen of Belgium, was presented today to Ambassador De Marchienne by Thomas H. Herndon, president of the organization, for transmittal to Brussels.

TANKERS GO TO UNITED STATES.

Vessels Were Formerly Operated by the Standard Oil Co.

London, April 28.—The eight tank steamers which have been the subject of a long discussion by the reparations commission of the peace conference as to what nation should receive them, have been awarded to the United States for temporary management.

1,000 QUARTS WHISKEY TAKEN.

Liquor Being Smuggled Across Canadian Border Seized. Caribou, Me., April 28.—More than 1,000 quarts of whiskey alleged to have been smuggled across the Canadian border, was seized at Van Buren yesterday by Custom Officer Reed.

NERVOUS SYSTEM SHATTERED

"Fruit-a-lives", or Fruit Liver Tablets Gave Relief

885 Grant St., Buffalo, N. Y.

"I have been paralyzed on the whole right side since April 20th. I referred the case to a physician who wrote me, advising the use of 'Fruit-a-lives'."

50c. a box, 6 for \$2.50, trial size 25c. At dealers or from FRUIT-A-LIVES Limited, OGDENSBURG, N. Y.

WAITSFIELD

Dr. Howard of St. Albans was in town visiting Gerald Stokes and calling on friends Saturday and Sunday.

Mrs. William Keley is in Heaton hospital for surgical treatment.

Mr. and Mrs. Charles Loveland are spending a few days at their home in Waitsfield.

Mrs. Fred Boyce was called to New York by the illness and death of her mother.

Mr. and Mrs. Roy Richardson are at home, after spending the winter in the South.

Miss Emily Maxwell has returned from Florida.

Miss Nellie Barton has finished work at P. B. Joslyn's and is at home.

Mrs. F. S. Kent has been called to Barre by the serious illness of her brother, who has pneumonia.

Mrs. Luke Savage and son, Merritt, arrived yesterday from Omaha, Neb. and are with Mr. and Mrs. E. S. Savage.

Charles Fiske left today for Bennington, N. H., where he has employment.

Prin. and Mrs. Billings have returned to town and school has reopened.

Word has been received from Mr. and Mrs. E. A. Fiske that they expect to leave Tennessee soon for Waitsfield.

A son, Delbert Carl, weighing seven and one-half pounds, was born Monday to Mr. and Mrs. Carl Lang.

NEW JERSEY TO SPLIT HER VOTE

Eleven District Delegates for Wood and Ten for Johnson

WHILE THREE OTHERS GO UNPLEGGED

Wood Was Still in the Lead To-day on Preferential Vote

Newark, N. J., April 29.—Major General Leonard Wood today had a lead of 612 votes over Senator Hiram W. Johnson of California in New Jersey's preferential presidential primary, with 84 election districts still missing.

The vote was: Wood, 51,402; Johnson, 50,790.

Seventy-four of the missing districts are in counties which have returned majorities for Wood in the incomplete returns.

The Republican "big four" delegation to the Chicago convention will be: Senators Walter E. Edge and Joseph E. Frelinghuysen, who are pledged to support the voters' choice, as expressed at the primary; Edward C. Stokes and William N. Kunyon, pledged to support Wood.

Incomplete returns indicate that Wood will have 11 district delegates and Johnson 10. Three delegates are unpledged.

WHERE THE SUGAR WENT.

Export Absorbed a Greater Quantity Than Usual.

When Austen Chamberlain, British chancellor of the exchequer, rose in the House of Commons a week ago and remarked that Americans had added to the miseries of the world by prohibition, because they wanted an immensely increased amount of sugar, he said something for which he ought to apologize to America.

Mr. Chamberlain was fooled by the statistics, which reported that the per capita consumption of sugar in this country last year was 10 pounds greater than the year before. Now these figures are not exactly what they seem, we are told, and it was not America, but Europe, that vastly increased its actual consumption of sugar last year.

The British chancellor, if he had examined British Board of Trade reports, must have known that England increased her own consumption of sugar by 511,000 tons, or 60 per cent, during 11 months of 1919, compared with the same period of 1918. He cannot offer the excuse of prohibition for this British indulgence. It seems to be, one way of saying, "Well, the war's over; let's have something." If sugar buying has added to the world's miseries—or happiness—Britain has had a big share in the matter.

America used 500,000 tons more sugar last year than in 1918. Used is the word rather than consumed. We did not eat all of this excess. Mr. Chamberlain may be surprised to know that we sent a large part of it to Europe under other names. What happened to our sugar supply in the last year is beginning to appear. A large part of it left the country in disguise, as preserved fruit and condensed milk.

In condensed and evaporated milk America has been satisfying an enormous demand from Europe. Our milk is feeding the babies of Europe. It has saved the lives of millions, who must otherwise have starved because the dairy herds of Europe were slaughtered for meat. We sent a hundred times as much out of the country last year as in 1914. The total of condensed and evaporated milk exports as reported by the department of commerce for 11 months was 850,000,000 pounds. In value these exports were near the top of the food list, close behind pork products. The total was \$851,000,000.

A very large part of this 850,000,000 pounds of condensed milk was composed of sugar. The amount varies with the grade of the milk. In some poorer grades it may reach 50 per cent, in others much less. It seems certain that at least 250,000,000 pounds, or 125,000 tons of sugar, went abroad in cans labelled condensed milk. America did not eat this sugar, although it appears in the statistical reports as "consumed" in this country. Its consumption consisted only of mixing it with milk at the creameries, and sealing it in the tin cans ready for shipment. The real consumer was not the American, but the foreign purchaser.

The buyers of about 600,000,000 pounds of milk were Europeans, as the government reports show. The others were scattered in many lands.

Sugar used in preserving milk was not all that Europe took from us without credit from the statisticians. From our consumption must be deducted the sugar that went abroad in canned and other preserved fruit. Of this first there was a tremendous increase in exports last year. The weight is not reported. The value as given by the customs officials was \$37,000,000 in 11 months, compared with only \$4,600,000 in 1918. A large part of these fruit preserves contained as high as 50 per cent sugar. The canned goods used much less. But, like the sugar sent abroad in condensed milk, it was eaten, not by Americans, but by foreigners, though figured in the American sugar consumption statistics that have deceived Mr. Chamberlain and many others.

There is a further indefinite deduction from our sugar consumption due to exports of fruit juices and extracts. These in value for 11 months were \$1,206,000, an increase of about \$265,000.

Mr. Chamberlain probably did not take the trouble to learn that America also sent abroad enormous shipments of grape sugar and glucose derived from corn. These exports were no less than 115,000 tons in 11 months, or more than four times as much as in the same period of 1918. This shipment of corn sugar and syrup, of course, was taken from our own food and confectionery industries, and probably replaced by an equal amount of cane sugar.

It will be seen from these figures that if any of the 500,000 tons of increase in sugar "consumption" went into American stomachs, instead of adding to the miseries of the world, this 500,000 tons was keeping alive the starving children of Europe.

FIFTY YEARS AGO

It was the custom of our grandparents when anything was the matter with their stomach, liver or kidneys, to take a remedy composed of the right kind of roots and herbs, and by so doing lived to a ripe old age. It is also true that the Shakers, who have always depended upon the life-giving juices of leaves, roots and herbs, are long-lived people. The roots and herbs of which SEVEN BARKS is principally composed were gathered by the Shakers for many, many years, then scientifically blended, and SEVEN BARKS has become famous as one of the most reliable remedies for indigestion, constipation, Liver, Kidney and Stomach disorders.

Dull pains in the back, often under the shoulder blades, poor digestion, heartburns or flatulences, some rashes, yellow skin mean liver troubles, and you should take SEVEN BARKS; it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

SEVEN BARKS is not a cure-all, but a very reliable remedy that will act on one set on the liver, stomach, bowels, sets them to right, tones and strengthens the general health.

If you want to get the greatest efficiency out of your body, enjoy and prolong your life, take SEVEN BARKS. At druggist's, 60 cents a bottle. Don't put it off; get it to-day.—Adv.

SEVEN BARKS is a... it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

SEVEN BARKS is a... it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

SEVEN BARKS is a... it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

SEVEN BARKS is a... it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

SEVEN BARKS is a... it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

SEVEN BARKS is a... it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

SEVEN BARKS is a... it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

SEVEN BARKS is a... it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

SEVEN BARKS is a... it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

SEVEN BARKS is a... it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

CABOT

Mr. and Mrs. Raymond Bolton are rejoicing over the birth of a son at Herkimer hospital April 25.

Mrs. Frank Howe of Millette, S. D., was a recent guest of Mrs. C. F. Mack.

Isaac Tabor of North Calais was in town Friday of last week, visiting relatives.

Next Saturday morning, May 1, the annual May day breakfast will be served in the Congregational vestry from 6 to 8 o'clock.

A son was born to Mr. and Mrs. Allan Smith April 26.

Rev. C. A. Adams of Danville is expected to deliver the Memorial day address on May 30, W. W. Reiden of Barton having, for several reasons, been obliged to withdraw from his engagement as speaker.

Mrs. Hazel Carr of Barre was a business visitor in town recently.

Mrs. Dr. Watt of Danville was a guest of Mrs. C. F. Mack Monday.

J. T. Dray is to move his family to the house now owned by Henry McAlister on Elm street.

Mrs. Lucius Cole visited her parents recently in West Danville.

Mrs. Donahue of Montpelier, a former housekeeper for O. P. Boyles, has returned to resume her duties as his housekeeper again.

Harold Wilson, who has been in Amherst, Mass., taking examinations for entrance to the governmental agricultural schools, was in town this week, awaiting return from Washington, D. C.

Wrennie Barnett has finished clerking for Rogers & Currier and is to take up a position at Springfield.

Eri Martin of Springfield spent a few days at the home of his parents recently.

NEWBURY

To the older girls' conference, which is to be held at Burlington May 7, 8 and 9 under the direction of the Young Woman's Christian association, the following girls will be sent as delegates:

Misses Helen and Florence Place, Lillian Amel, Isabel Hartwell, Jesse Flinders, Gertrude Smith, Patricia Smith and Blanch Downing. Mrs. D. S. Jones will accompany them.

Albert Lewis Gibson is the name of the young man who arrived Wednesday, April 29, in order that he might brighten up things in the home of Mr. and Mrs. George W. Gibson. The young man's fighting weight is just six and one-half pounds.

There are on exhibition at Hale's store some very fine specimens of Mrs. O. W. Brock's handwork in knitting and crochet. The articles are not for sale, but their exquisite workmanship is a reminder of what perseverance, coupled with skill, will accomplish. Look at them.

The sugar makers are gathering their buckets, the frost is out and it looks as if the sugar makers' work is done.

The first annual prize speaking will be held in Chadwick hall Friday evening. Charles Ross Taggart will assist with the program and the proceeds will go to buy records and a cabinet for the grammar.

The speakers have been selected from the junior, sophomore and freshman classes and a very attractive program will be offered. Following the program will be offered. Following the program will be offered.

HEADACHES FROM SLIGHT COLDS.

LAXATIVE BROMO QUININE TABLETS relieve the headache by curing the cold. A tonic laxative and germ destroyer. Look for signature E. W. GROVE on box. 30c.—Adv.

Fine Rain-coats

We want you to see the new coats we have here for your protection on the showery spring and summer days that are just ahead.

They are the real thing in wet, rainy weather—shed water like a duck.

Stylish, too. Some of the better kinds are coats you'd spot on the street as a high-grade top coat.

Better have a look at them; you'll want one.

Open Monday evenings as usual.

Moore & Owens

speaking, the boys of the junior high will give a gymnastic exhibition. The teachers and pupils solicit the support of the community.

Charles H. Denning of Montpelier was in town Wednesday.

Mrs. H. B. Hale and her son, Kenneth, are in St. Johnsbury.

Headaches from Slight Colds.

LAXATIVE BROMO QUININE TABLETS relieve the headache by curing the cold. A tonic laxative and germ destroyer. Look for signature E. W. GROVE on box. 30c.—Adv.

Andes Ranges give better cooking for less money. They save worry and time and unnecessary work because they cook right all the time. They help you obtain the best possible cooking results. The model illustrated is the "Palace" Andes fitted with hot water reservoir.

This is only one of the many models in the complete line of Andes Ranges. There is an Andes Range that exactly fits your kitchen and your cooking needs. A Double Andes burns both gas and coal, the same oven being heated by gas or coal separately or by gas and coal together.

Better and Better Cooking

The Andes proves that even a range can be good looking. In the end it is the most economical because of its greater efficiency in burning fuel and because of its more durable construction.

It is more than chance that makes the Andes such a good range. The Andes is good because it is made with just one object in mind—to give American women a range that helps them do better cooking for less money.

Only a range that is made of good materials, according to a highly perfected design, by expert workmen, can give such good cooking results. Quality counts in a range just as it does in clothes or anything else.

Cooking is an art, a gift to be proud of. And the range is the important tool with which you work. Just as a carpenter needs good tools, so a cook needs a good range. Let us show you an Andes.

ANDES RANGES

"Better Cooking for Less Money"

E. A. PRINDLE & CO. Barre, Vermont.

What's Bone Dry—What's Not?

Not every storage battery that is called "bone dry" is really shipped and stored in bone-dry condition.

Some have solution put in at the factory, and poured out again before shipment.

Some are shipped with plates dry, and insulation wet.

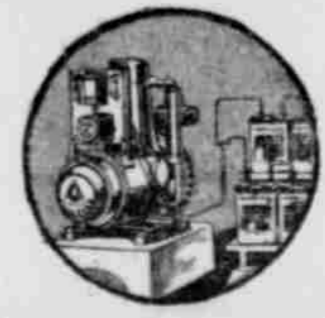

These batteries are not bone dry.

Come in and get straight from us the story of Willard Threaded Rubber Insulation, the only form of insulation that permits of bone-dry shipment and storage of automobile starting, lighting and ignition batteries.

WILLARD SERVICE STATION PALACE GARAGE 210 N. Main St., Arnhem & Dunbar, Props.
