HARDING GOES HOME JULY 3

Republican Candidate Is Clearing Up His Business in Washington

MARION PREPARES BIG RECEPTION

Ohio Republicans Send Him a Message of Congratulation

Washington, D. C., July 1.—Senator Harding, the Republican choice for the presidency, buckled down to-day to the work of clearing away pending matters preparatory to his departure early Saturday for his home in Marion, O.

An indication of the reception awaiting him in Marion was given to the nominee to-day in a telegram from the state convention of Ohio, Republicans. The telegram bore to the senator the greetings and congratulations of Ohio Republicans and added:

"In pledge of our support of a united and militant party in your native and home state our enthusiastic support until your triumphant election in November. We congratulate the nation that with your inauguration as president on March 4 next, there will be a return to popular and constitutional government. We congratulate the party upon the fact that with your succession to the presidency will begin another Republican administration instead of a personal autocratic government—and an administration that will give help and confidence to the people of this country that will bring peace to America and will re-establish the government of this nation as conceived by the founders."

TO HOLD CUBAN SUGAR FOR 24 CENTS A POUND

Growers, Mill Owners and Brokers Combine to Force Up the Price

Havana, June 30.—Cuban cane growers, sugar mill owners and brokers claiming to control the sale of 2,160,000 sacks of unsold sugar were on record to-day as definitely pledged not to offer any more sugar for sale until the price had reached 24 cents a pound, the level reached during the last half of May.

This decision was made at a mass meeting held last night at which a committee of 12 was selected to act as the exclusive selling agency of those represented at the meeting.

The amount of unsold Cuban sugar was estimated by a member of the selling committee at 2,330,000 sacks, their holdings of 2,180,000 leaving only 1,750,000 sacks under outside control. Efforts are being made to bring these into the pool.

AIRPLANE ELECTIONEERING

Will Be Conducted in the Province of Manitoba

Winnipeg, Manitoba, July 1.—Airplanes, used for advertising purposes, will feature the election campaign of the members of the Manitoba government who will seek re-election under the leadership of Premier Norris this summer. This unique method of conducting electioneering is new and is claimed by officials of the Norris government to be the first attempt to use it in the world. Edward Brown, provincial treasurer in the present cabinet, recently took a flight over Winnipeg and expressed himself as highly delighted with the possibilities of airplanes in the campaign.

Two machines are already engaged in the enterprise. They will touch at least one town in every constituency. Campaign literature will be dropped from the airplanes as it circles over the town. After landing, the government supporter in the machine will address the crowd that gathers to meet it. Supporters of Premier Norris are enthusiastic over the scheme.

The machines at present engaged display an appeal urging voters to support the present government.

Paris, July 1.—To-day's session of the international congress of chambers of commerce was presided over by Senator Ricci of Italy. Resolutions were voted continuing the questions of protection and distribution, raw materials and disloyal competition. The delegates also heard the report of Charles Laurent, newly appointed French ambassador to Germany, on conditions in the war devastated regions.

The congress then selected an executive committee composed of Etienne Clementel, formerly French minister of commerce; Baron Empan, Belgian railway magnate; Albert J. Hobson, of Great Britain; Senator Rolando Ricci of Italy, and A. C. Bedford, president of the Standard Oil Co. of New Jersey.

On the board of permanent directors three representatives were chosen from each country. The United States will be represented by Edward A. Filene and John H. Fahy of Boston and Wilbur H. Booth of New York.

WASHINGTON, PA., INTERESTED

In the Election of Senator Harding as President
Washington, Pa., July 1.—If Warren G. Harding is elected president of the United States, this pretty little university city in the hills of western Pennsylvania will be bound up closer than ever with the White House, for not only did Senator Harding's ancestors live here but the father of President Wilson also was a resident of Washington.
Senator Harding's great grandfather, William Van Kirk, was one of the early settlers of Franklin township, and he and his wife are buried in the family graveyard on the Charles Van Kirk farm near Point Lookout. Senator Harding is honorary president of the Van Kirk family society and frequently has attended the annual reunion here.

President Wilson's father, Rev. Joseph Ruggles Wilson, was born at Greenville, O., not far from here and in 1848 became pastor of the Hills Presbyterian church at Onondaga, near Washington. Here the family remained

MORE than two million Diamond Tires are in use—now, almost one for every third car in the United States.

The reason that hundreds of thousands of motorists are buying Diamond Tires is because Diamonds are delivering the service.

Small wonder that motorists buy more Diamonds than any other tire not sold to car manufacturers for original equipment.

Article 1.—Expecting a Little Arrival?

Each year nearly a quarter of a million babies die in the United States, a large number of which would now be alive if they had had proper care. This tragic waste of life can be very greatly reduced if mothers will acquaint themselves with the important facts of baby care.

A baby is such a precious thing that no mother willfully neglects it. Not neglect, but ignorance, is what kills most of these helpless little ones.

Uncle Sam does not want to lose any of his infant citizens, and through the U. S. public health service is now trying to teach mothers how to care for their babies. Arrangements have been made with the Barre Daily Times to publish a series of instructive articles constituting, when completed, an entire course on baby hygiene and care of the child up to six or seven years old. Mothers are urged to read the articles as published, and cut them out for future reference. The information has been prepared by physicians who have made the welfare of the child a life study.

Knoxville, Tenn.—"My back hurt me all the time. I was all run down, could not eat and my head bothered me, all caused by female trouble. I was three years with these troubles and doctors did me no good. Your medicine helped my sister so she advised me to take it. I took Lydia E.
