COX CONFERRING WITH PARTY MEN

Has Some Publicity Suggestions in Mind But He is Against Professional "Press Agents."

Columbus, Ohio, Aug. 18.—A conference on national campaign plans with Senator Harrison of the national speakers' bureau was the principal political affair to-day before Governor Cox, the Democratic presidential candidate.

Relief of Governor Cox from direction of details of his speaking itinerary, such as train arrangements, schedule making and other affairs, was one of the subjects to be taken up.

Publicity affairs of the Democratic campaign, it was said, also were to be discussed. Governor Cox has tabooed professional "press agents" or personal "publicity directors," and it is understood that none will be attached to the governor's immediate personal staff. But the candidate has other publicity suggestions in mind.

Another innovation in the Cox campaign is suggestion for a personal aide to the governor. His advisers are urging that a big, bulky man be assigned to him if only as a human wedge for clearing paths through crowds.

Governor Cox will leave here to-night to fill a speaking engagement to-morrow night at South Bend, Ind., before the Indiana Democratic Editors' association.

HARDING AT PICNIC.

Was Guest of Lumbermen's Association in Marion District.

Marion, O., Aug. 18.—Senator Harding was the invited guest of the Lumbermen's association of the Marion district at a picnic held to-day in a park on the outskirts of the city. It was expected that late in the afternoon he would deliver a brief address, touching in a general way on campaign issues.

Most of the morning the nominee spent working on the address which he will deliver to-morrow to a front porch delegation made up of members and former members of the Ohio legislature. This speech, it had been indicated at Harding headquarters, will be one of the most important he has delivered this far in the campaign.

A feature of the day was a call on the senator by a group of members of the Society of American Indians, an organization founded several years ago at Ohio State university for the promotion of the interests of the Indian race.

To-morrow's speech to the Ohio legislature delegation probably will be the nominee's last during the present week.

H. V. GREENE CO. FILES.

Financial Statement Shows a Surplus of \$105,166 on Hand.

Boston, Aug. 18.—The H. V. Greene Co. of 25 Huntington avenue, doing an investment business with branches in various parts of the country, filed with the commissioner of corporations to-day a statement of its financial condition in compliance with a request from that official. The commissioner's notice sent several days ago, called attention to the company's alleged failure to comply with the law, calling for the statement. At the same time the commissioner reported the matter to Attorney General Allen, who later said that his office was "conferring" regarding the Green Co.

John Jacob Arnold, confidential secretary to H. V. Greene, president and treasurer of the company, explained that failure to file the report within 90 days after the annual meeting January 15, was due to a misunderstanding and that for the last four days certified public accountants had been working on the books preparing the statement. The last previous statement was filed December 31, 1918. The statement filed to-day was signed by Henry B. Greene as president, treasurer and director, and Edmund C. Campbell as clerk. The report showed the capital stock divided into 10,000 shares, par value \$10, of which 7,500 shares are preferred and 2,500 common. There had been issued and were outstanding on January 15, 1,980 shares of preferred and 2,500 of common. The statement showed a surplus on hand of \$105,166.

Mrs. Robert Powers has returned from an outing at Highgate Springs, and with Dora Hodgdon, she has resumed her work in the secretary of state's office, both having completed their vacation.

Nothing could be learned at the governor's office to-day whether the governor had gone to Boston for the conference which was called to be held in that city to-day on different matters, but he is understood to be in Rutland.

The crowd that attended the chaucouqua last evening was much pleased with the presentation of the play, "Nothing But the Truth," which was filled with laughter and brought forth much favorable comment.

The address of K. R. B. Flint, professor of Norwich university, upon "Community Planning" was one of the best of the kind ever heard in Montpelier, according to those who have followed the activities of the board of trade.

Mrs. Ryland Taisey has resumed her work in the commissioner of industries office after a vacation passed in part by traveling with Mr. Taisey.

tomobiles do and urging that action be taken against the motorcyclists. There are 855 of these registered in the state and from the noise they make one would think there were as many as there are automobiles, of which there are now 29,222 registered and 36,164 licensed operators. The total receipts in that department have increased to \$823,955.98.

Only a few automobile accident reports reached the secretary of state's office to-day. These include Caroline Office of Barre, who made the following report: "My car in garage and brakes on and the car went back and struck 25809, which stood in the driveway." In another place the report states that a fender was bent. Clifford Barrows of Morrisville reports that he had an accident in Hardwick the 3d of the month in which he suffered a sprained leg, but he gave no details of the accident.

The Mount Aeolus company of Dorset has filed with the secretary of state certificates to show that the company intended to issue \$5,000 in capital stock and that it had paid up that amount of stock. The Sherman Electric company of Williamsville has filed a similar report for the same amount of capital stock with the additional certificate that the public service commission has given its consent to the company to do business in the state.

A. N. Stratton of Montpelier, for the state forestry department, has commenced a cruise for the purpose of finding red pine and white spruce seed and making arrangements with farmers to allow the forestry department to gather it, the purpose being to secure some first-class seed for use in the nursery. If good seed is secured a better grade of nursery products can be distributed in Vermont. W. G. Hastings, the state forester, received this week an offer of seed at \$7 a pound, which is rather high, but if the quality is good it may be secured. Mr. Hastings was in Berlin Tuesday and cruised the Hobart property to give advice to planting next season. Mr. Hobart has done probably the largest amount of reforestation individually of any man in the state.
