Miss Gertrude Dale, a telephone operator of the local exchange, stopped a runaway horse yesterday in a most singular manner and probably prevented a serious mishap or injury to the horse and light pleasure sleigh to which he was attached. Miss Dale was crossing Main street near the switch of the electric railway when the animal, which had been standing near the F. D. Ladd Co. store, started to run away. In crossing the railway tracks it was compelled to stop carefully and was just getting a start when passing the young lady. Miss Dale judged correctly that she could catch the reins and possibly prevent the runaway, since the reins were dangling at the animal's side. This she did, and in doing so pulled the animal's bridle completely off, so that he stopped in amazement at the sudden divestment. Nelson D. Phelps happened to be nearby and immediately went to the young lady's assistance, gained control of the unclaimed animal and led it to a lively stable to await its owner.

Although Ward & Son have been unable as yet to derive any advantage from the crop of ice now forming on the mill pond near South Barre, many local winter sport seekers who have not taken their skates off the shelf for the past two or three years, have been tempted in the last few days to journey to the pond in search of recreation. Since the latter part of the week the natural ice rink has presented a busy scene both in the daytime and evening. It is practically the only available place in the city for skating. A small rink has been kept up in North Barre near Third street, patronized for the most part by north-end youngsters and certain individuals of Gospel village are promoting the erection of a rink, as in years gone by, near the Lincoln school.

On Saturday afternoon, Jan. 8, Vice-Regent Mrs. C. H. Heaton opened her spacious, hospitable home to the Marquis de Lafayette chapter, D. A. R., and a delightful afternoon was enjoyed by 70 members and guests. The rooms were fragrant with the odor of roses, a gift to the hostess from ex-Governor Clement. The committee in charge were Mrs. Ferrin, Mrs. Heaton, Mrs. Smilie, Mrs. Fifield, Mrs. McCuen, Mrs. Squire, Miss Dewey, Mrs. Hanson, Mrs. Horton, Mrs. Moulton, Mrs. Deering, Mrs. Hodgson, Mrs. H. Hodgson, and Miss Ellis. Following routine business a letter from little Paulette, a French orphan, whom the chapter is helping to support, was read and the chairman of the patriotic education committee reported that Rev. C. O. Jenkins of Glens Falls had been engaged to lecture in Montpelier Feb. 17. Tickets for the advance sale were distributed among the members. The chairman, Mrs. A. W. Ferrin, presented ex-Lieutenant-Governor Mason S. Stone who gave an intensely interesting address on "Unwritten Vermont History." If the proof of true merit in an address is to arouse a spirit of research in its hearers, Mr. Stone's effort on this occasion may certainly be counted a success. Aside from the poetry inspired by the grandeur and environment of our Green mountain state, the speaker called attention to the romances that may be traced, one of which he related in a most happy manner. The democratic spirit and sturdy character of the Vermonters, the unexampled sacrifices made by Ira Allen, and the important, if at some times violent part, taken by Matthew Lyon in the early history of our state were dwelt upon and it reflects no discredit upon the audience to say that many facts concerning these hardly known persons in our history to many present. The chapter showed its appreciation of Mr. Stone's kindness by extending him a vote of thanks. Refreshments were served in the dining room. Mrs. Horton and Miss Dewey pouring, other members of the committee assisting. Mrs. Hartness, Mrs. Foote and other guests were present.

The total number of male adult residents of Montpelier who died during the past year was 50, with an average age of 58 years. Four were veterans of the Civil war. There were six accidental deaths and seven suicides. Thirty-two men were husbands, nine were widowers and eight were single. Eleven were between 70 and 80 years of age; four between 80 and 90 and the oldest was 93½ years. The total number of female adult residents who died was 65, with an average age of 63 years. Eighteen were wives and 12 were widows and ten were single. Fourteen were between 70 and 80 years of age; 14 were between 80 and 90 and three were over 90, the oldest being 95½ years. One of the deaths was from an accident.

W. C. Colton is repainting the old capital hall. He will remove the stairway that has led to the second floor in the center of the building, placing it in one side, and will then make a new entrance to the first floor of the building. He will open that up for a garage business next spring and will conduct the Vehicle and Supply company's business on the second floor, as it has been done for several days.

C. H. Stearns of Johnson, who has given considerable publicity to his program on educational matters, called upon C. B. Dempsey, the commissioner of education, Monday afternoon and from the general appearance when Mr. Stearns left the room the most friendly feeling exists between them. The state board of education will hold a meeting this afternoon relative to different matters.

William Wright, who was arrested by H. C. Lawson, deputy sheriff, last Saturday at Marshfield, pleaded guilty in Montpelier city court Monday afternoon to the charge of breach of peace and went to jail for 30 days. Wright left this section over a year ago after a little escapade and while Mr. Lawson was at Marshfield he saw the man, taking him in custody and bringing him to the jail to await his hearing as stated above.

The Montpelier Industrial corporation will hold its annual meeting in the city court room Jan. 19.

Christmas Weather Proverbs. J. L. R. sends us a few timely proverbs as follows: A warm Christmas, a cold Easter. A wind on Christmas day, trees will bring forth much fruit. If ice will bear a man before Christmas it will not bear a man after.

If that last one is true we ought to have a mild winter.—Boston Transcript.
