

MONTPELIER HAD EASY TIME

Defeated Attleboro, Mass., Team at Montpelier Armory

EACH TEAM SHOWED LACK OF ENERGY

Many Fouls Called and Visitors Seemed to Take It as Joke

The Montpelier American Legion played what is now expected to be the last game of the season at Montpelier, when, Saturday evening, it met the fast Attleboro, Mass., basketball team and won by a score of 20 to 11 in a weakly played game that gave indications that both teams were stale from over-playing. There seemed to be a lack of pep in each team. The visitors fouled frequently and did not seem to take it seriously when these were called, smiling as though it was a good joke to have a foul called.

At one time Referee Cullen had to hold his watch on the opposing team because they thought they were entitled to a basket instead of a foul, claiming that the foul was not called properly relative to the ball going into the basket. There was not much team work shown by either team. Chapman and J. Kenney have played at Montpelier before, so that the home folks had quite a lot of sport chiding them about their lazy style of playing.

The line-up was:
Montpelier: Allison Clark, f., "Smith" Walker, c., L. Kenney F. Laird, g., J. Kenney J. Laird, g., Walden Score, Montpelier 20, Attleboro 11;

baskets from the floor, Walker 4, F. Laird 2, Clark, Gross 1, Allison 2, L. and J. Kenney 1; from fouls, F. Laird 3, Clark, Allison 2, L. Kenney 1; referee: Cullen; timer: Smith; scorer: Shepard; time, three 15-minute periods.

SPRING DEBILITY

Loss of Appetite, That Tired Feeling and Sometimes Eruptions. Thousands take Hood's Sarsaparilla as a spring medicine for that tired feeling, nervous weakness, impure blood and say it makes them feel better, eat and sleep better, and "makes food taste good." Spring debility is a condition in which it is especially hard to combat disease germs which invade the system here, there and everywhere. The white blood corpuscles, sometimes called "the little soldiers in the blood," because it is their duty to fight disease germs, are too weak to do good service. Hood's Sarsaparilla strengthens the "little soldiers" and enables them to repel germs of grip, influenza, fevers and other ailments; relieves catarrh and rheumatism. It has given satisfaction to three generations. Get it today and for a laxative take Hood's Pills.

STATE TITLE IS SPRINGFIELD'S

Southern Vermont High School Defeated Spaulding Again, 23 to 21.

BARRE TEAM LED MOST OF THE GAME

But Was Nosed Out at the Finish—Game Played at Springfield

Springfield high school gained all claims to the state championship in high school basketball Saturday evening when it defeated Spaulding high's team on the Springfield court in the last half minute of play by tossing in two baskets and ending the game ahead of its opponent, Springfield then having 23 points and Spaulding 21.

The first period ended with the score tied 11 to 11, then at the opening of the second it looked very much like a Spaulding victory, three baskets and a foul coming in quick succession. The score stood 18 to 11 in Spaulding's favor for considerable time before Currie "broke the ice" for Springfield and tossed in a basket. Clark made the second and Currie another. Five minutes after the period had begun Brady, of the Springfield left forward, was expelled from the game, having committed four personal fouls, and his place was filled by Whitcomb, who shot the deciding basket.

As already stated Spaulding had the lead until the last half minute of play, the score then being 21 to 19. In this short period of time Clark, the center, made a nice shot from the floor, and on the next tap-off from center he knocked the ball to Whitcomb, then right under the basket, who scored the deciding two points easily.

The game was one of the best ever seen in Springfield, both teams showing excellent teamwork and making some clever shots. The Spaulding team played vigorously from the very start and continued at their best till the last whistle ended the game. The referee, Mr. Thompson of the Springfield Y. M. C. A. college, who was unable to be in Barre to officiate at the first game of the series, referred this contest to the complete satisfaction of all concerned.

The lineups: Springfield 23 Spaulding 21 Brady, f.rg. Brown Currie, f.lg. O'Leary Clark, c.c. Slayton LaFontaine, lg.lf. Douglas Horneck, rg.lf. Tierney

Substitutes: Whitcomb for Brady. Baskets shot by Douglas 4, Brady 3, Tierney 3, Brown 2, Currie 2, Clark 2, LaFontaine, Whitcomb. Fouls shot by Brown 7, six being scored; by Clark 11, five being scored; by Douglas 3, one being scored. Time, 20-minute periods.

Liver and Bowels Right—Always Feel Fine

Mrs. Robert O. Reynolds

"I have actually gained twenty-five pounds and I just think Tanlac is the grandest medicine in the world," said Mrs. Robert O. Reynolds, 127 North Denver street, Kansas City, Mo.

"For ten long years I suffered from a very bad form of rheumatism, stomach and nervous troubles. My appetite was very poor. What little I did eat soured on my stomach and I suffered the most severe pains in my back, hips and shoulders. My rheumatism was so bad that I could not raise my hands to comb my hair and my arms hurt me to my finger tips. I became so weak and run down that I lost all my energy and life had become almost a burden. I tried many things but nothing helped me.

"I had only taken my first bottle of Tanlac when I noticed my appetite was improving and I could sleep better at night. I have taken three bottles and the way it has helped me and built me up is really astonishing. I can eat anything and everything with out the slightest disagreeable after-effects. I sleep just fine at night and am in better health than I have been for years. I am glad to give this statement, hoping that any who are suffering as I did may experience the same wonderful results, which I believe they will if they give Tanlac a fair trial."

Tanlac is sold in Barre by Cummings & Lewis, and by the leading druggist in every town.—Adv.

This Is Contribution Week In Vermont In Aid Of The Suffering Children and Women of Ireland

Every Vermont can help some—some more than others—but every contribution will be welcome and every penny of every contribution will go to Ireland and be used to relieve the hunger and distress of the children and the women who are without homes, without work, without food only in a most meager way, and have no place to turn for succor.

This movement in America for Relief in Ireland is non-political and non-sectarian. It is For Humanity and nothing else

Many of the greatest men and women of the country have affiliated with this movement, including Governor Hartness, the governors of several states, because it is right and just, and because they as well as you, can assist in alleviating the suffering of women and children.

Make your contributions early and be as liberal as your purse will permit.

The Universal Daily Habit!

EVERY man, woman or child in this city who can read, reads some daily newspaper every day.

It is as much a habit with them as eating, or talking, or walking.

The newspaper is their point of contact with the outside world and with each other.

In every other city of any size, other newspapers are printed and other people read them in the same intensive way. In the great stretches of rural communities the newspapers from the cities radiate out through the mail boxes.

North America is literally bound together and welded into a continent with common knowledge and common impulses—by its 30,000,000 daily newspaper circulation.

Newspaper readers have come to look on the daily advertising as part of the news. They turn to their newspaper when they want to buy, just as they turn to it for the ball score or the latest developments across the sea.

Local merchants know this and they know they can build a larger volume of business at less cost through the newspaper than through any other means of contact with possible customers.

Manufacturers and distributors of trade-marked goods are also coming to learn that North America is a series of markets—each differing from the other in opportunities to sell goods.

Each good market can be reached by newspaper advertising at low cost and without wasted effort in barren localities.

For this reason the newspaper has become the greatest medium for national advertising, just as it has always been the greatest medium for local advertising.

The national advertiser can best cover this market or any market through the newspapers.

Manufacturers and distributors are invited to write for a copy of the book, "National Advertising and the Newspapers," to the Bureau of Advertising, 806 World Building, New York
