[An important error was committed in the printing of yesterday's Journal. The clause, "the amendment of Mr Stacy was adopted," should not have been inserted, and was not so reported. Also, the sentence, "Mr Stacy wished to accommodate himself and obviate the objections which had been made," should have read, "Mr Stacy wished to accommodate himself to and obviate the objections," &c.]—*Reporter.*

[To all which the printer begs leave to plead guilty, and to observe, that he could not conceive how Mr Stacy could move "a reconsideration of the vote adopting his amendment," *if no such vote had ever been taken.* The printer *guessed*, therefore, that the Reporter had omitted to state that the amendment had been adopted.]—*The Printer.*

GREAT CURE FOR DYPEPSIA!

ANOTHER SCIENTIFIC WONDER

Dr. J. S. Houghton's

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE!

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia, Pa.

PEPSIN is a truly wonderful remedy for INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY. Curing after Nature's own method, by Nature's own Agents, the Gastric Juices.

One Half a teaspoonful of PEPSIN, reduced to water, with Sugar or Brandy, *Five Pounds of Roast Beef* in about two hours, out of the stomach.

PEPSIN in the form of Aliment, or Gastric Digesting Principle of the Gastric Juice, aids the Solvent of the Food, the Peptogen, Preserving, and Stimulating Agent of the Stomach and Intestines. It is obtained from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, eminently fitted to Digest Food in the Chemical and process, and furnishing a COMPLETE and PERFECT SUBSTITUTE for it. By means of this preparation, the pains and evils of INDIGESTION and DYSPEPSIA are removed, just as they are produced, by digesting the food before it enters the stomach. For Promoting, curing Fever and DEBILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, combined to act on the cause of the ageny. The Scientific Evidence upon which it is based, is of the highest degree of proof, as will be seen below.

Scientific Evidence!

BARON LIEBIG, in the celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice may be readily procured from the mucous membrane of the stomach of the calf, in which the mucous membrane of the stomach of the hog, sheep, goat, and probably of other animals, is also soluble."

DR. PEREIRA, of the London treatise on "Food and Diet," says: "Pepsin is prepared from the mucous membrane of the stomach of the hog, sheep, calf, &c., in the same manner as rennet, and possesses the same properties."

DR. COMBE, in his work on the "Principles of Digestion," says: "I have succeeded in procuring the Gastric Juice of the Human Stomach, and have found it to be identical with that of the lower animals. Having every reason to feel well satisfied with the Pepsine prepared by you, I have much pleasure in recommending it to the Gastric Juice, and to the notice of the profession."

DR. GRAHAM, author of the celebrated work on "Vegetable Diet," says: "I am a convert to Pepsine, and find the stomach of animals answerable in every respect to the description contained in your pamphlet. I have used it in my own case, and in that of my family, with the most decided benefit, and have prescribed it in numerous cases of Dyspepsia, with the most satisfactory results."

DR. CHILTON, of the Medical Department of the University of Pennsylvania, says: "I have witnessed the effects of Pepsine in numerous cases of Dyspepsia, and am satisfied that it is a valuable remedy."

DR. CARPENTER, author of Principles of Physiology, says: "I have used Pepsine in my own case, and in that of my family, with the most decided benefit, and have prescribed it in numerous cases of Dyspepsia, with the most satisfactory results."

DR. JOHN W. DRAPER, Professor of Chemistry in the University of New York, in an article in the New York Review, says: "Pepsine is the active principle of the Gastric Juice, and is the solvent of the food in digestion."
