PROCTOR IS RATIFIED.

To Incorporate Central Vermont Railroad

OTHER BILLS INTRODUCED.

Montpelier, Vt., Oct. 19.—Yesterday's session was an important one. The most important bill introduced was one to reorganize the Central Vermont Railroad. It was introduced by request by W. B. Viall, of Randolph. It can be stated that the majority of the stock is given Grand Trunk, which in return guarantees the interest on \$12,000,000 first mortgage four per cent. twenty-one year gold bonds.

These bonds are to be exchanged with holders of the present first and second mortgage and American Trust and Loan Company's certificates at par value which will give these bond holders, Smith & Tate, Dr. Webb, and others a satisfactory amount of bonds of the road under reorganization. Unpaid interest on these bonds from February 1 to October 1 will be paid in cash and bond holders will receive capital stock to pay interest due on these bonds before that date.

In fact, this bill seems to provide for all secured indebtedness but leaves out all provision for unsecured or floating indebtedness of which there is a large amount. The company formed under this new bill stands ready to buy the road as soon as the court decrees it shall be sold and take the road and operate it.

A meeting has been called of the bond-holders Oct. 26 in Boston to vote on the acceptance or rejection of the plan of reorganization. Nineteen bills were introduced in the House during the forenoon session, the most important ones being H 50 by Ballard of Georgia in relation of examination of teachers. Teachers having received one first grade certificate or three second grade is entitled to five year certificate without examination. By Butterfield of Derby creating the office of Attorney General and one by Dodge of Sheldon to equalize taxation.

In the afternoon the only important one of the three bills introduced was the relating to C. V. reorganization. A bill relating to Notaries Public was killed. Two bills were passed the only important one being one to provide instruction to deaf, dumb, blind and idiotic.

At 2-30 the House proceeded to vote for a U. S. Senator to succeed Hon. Redfield Procter. He was nominated to succeed himself by Higbee of Procter seconded by general. He had 179 votes and Thomas W. Maloney 40.

The business in the Senate in the forenoon was as follows Several minor resolutions. Third reading of bill relating to investing to investment of money by trustees of public money.

Four bills were introduced, the only one of any importance being the one by Smith of Chittenden creating office of Attorney General. In the afternoon the Senate proceeded to vote for U. S. Senator. Senator Partridge nominated Hon. Redfield Procter and he was unanimously elected. It takes two days to elect a U. S. Senator and today both houses satisfied yesterday's proceedings and Procter is duly elected. The only important bill in the Senate yesterday afternoon was the C. V. reorganization bill.

A joint session was held at 2.30 to hear the report of the joint canvassing committee for the vote for congressmen. The report gives H. Henry Powers 12,316 majority in the first district and William W. Grout 11,704 majority in the second district.

Hot Stuff, a beer mug filled with best French Mustard for 10 cents. L. M. Averill.

Meeting Postponed.

Paris, Oct. 19.—At the request of the Spanish commissioners the joint meeting of the Peace commission which was fixed for today has been postponed until Friday.

Looks Like War.

Despite the semi-official denial the Echo De Paris asserts today that the embarkation of war material and supplies continues at Toulon and that extraordinary activity reigns at the arsenal there. Three more cruisers are getting ready for immediate service and two transports are being prepared. All naval officers who are away on leave of absence have been ordered to return to their vessels.

Emperor in Danger.

London, Oct. 19.—The Globe this afternoon says that Prince Henry, of Prussia, has been ordered to return to Pekin and demand an audience with the Emperor.

The dispatch adds that a British resident of Pekin affirms that although not dead the Emperor is in great danger and urges immediate action to suppress the Dowager Empress faction and clear the way for the substantial progress and reestablishment of British prestige.

Roundhouse Burned.

Vanceboro, Me., Oct. 19.—A dispatch from Fredericton says that the roundhouse of the Canada Eastern railroad, at Gibson, N. B., was burned. Four locomotives were destroyed. The loss is estimated at \$60,000. The cause of the fire is unknown.

A NEW BUSINESS FIRM.

We learn from a reliable source that Richard Veal and Henry Knight, now both employed by Homer Fitts, are to open a dry goods store of their own in Currier's new block before long. Both young men are well known and their many friends will wish them success in their new enterprise.

Magazine Notes.

Ralph Waldo Emerson's son, Dr. Edward Emerson, himself a boy when Louisa Alcott was a girl in Concord, has written an article on "When Louisa Alcott was a Girl," which The Ladies' Home Journal is about to publish. Dr. Emerson gives a new view of the author of "Little Men"—as a mimic, and as the central figure of every dance and merry-making in old Concord.

The late Spanish-American War receives due attention in the November number of Harper's Magazine. Lieutenant J. C. Fremont, commanding the "Torpedo Boat Service," in which he treats of the character and value of torpedo boat service, and gives striking instances of heroic adventure; and Frank Remington uses his knowledge and his skill in depicting the soldiers of the Fifth Corps as he saw them in their first battle against a European Army. Other special features are: "Eastward Expansion of the United States," by Archibald R. Colquhoun; "Bismarck," by Sidney Whitman; "Our Seaboard Islands on the Pacific," by John E. Bennet; and "Some Recent Explorations," by J. Scott Keltie, Secretary Royal Geographical Society, which together with the usual number of short stories and serials make an interesting number.

Just elegant, those Kipped Herring 18 cents a can. L. M. Averill.

When a clerk has now watch, or even one that is not reliable, his employer often has to report impunctuality. The clerk who wins the TELEGRAMS prize watch will not be troubled that way.

Board of Aldermen.

A regular meeting of the Board of Aldermen was held last evening. A petition for an electric light at the corner of Eastern Avenue and Elm streets was referred to the committee on lights. A petition for a sidewalk on the north side of 3rd street was referred to the street commissioners. E. E. Smailie was granted a sewer permit.

The inspector of buildings reported and recommended the following permits:

N. M. Nelson to remodel barn, Samuel Carswell to reshingle, Sarah A. Mower to reshingle, Bianchi by J. Smith to add story to building on Granite street, H. R. Sulham to move small store from corner of N. Main and Silver streets to corner of N. Main and Beckley, A. H. Buzzel to build addition to lunch room, Geo. W. Dix to build house and ell on Brook street, James C. Allen to build a new house near Prospect street, Israel Wood to build dwelling on Orange street. The above were all granted. Warren Howland's petition for a permit to build a house at the corner of Railroad and Cambria streets was adversely reported. A petition by Geo. W. Dix asking for permission to build a stone dam on Gunner Brook was referred to the supply committee.

The following resolutions were adopted:

That the city engineer is hereby authorized to connect the new city hall with the sewer and the river.

That as the main pipe of the Spring and Fountain Water Co. has sprung a leak on South Main St. thereby causing water to stand and flow on said street and cause inconvenience, the said company be granted permission to open the street for the purpose of repairing the leak.

That the petition of B. B. Howes and others to lay out and establish a highway from Cambria street to Blackwell street is hereby referred to the street commissioners who may act as they see fit in this matter.

The \$2000 is hereby appropriated as a payment to Mason & Co. on account of the contract for the new city hall. The Mayor is hereby directed to draw his warrant and the treasurer to pay this sum.

That authority is given to the City Engineer to set for the City Council in inspecting and superintending the new city hall excepting when otherwise ordered by the council.

That the street commissioners are authorized to lay out and establish highways on the land of the French estate according to certain plans of the City Engineer which are hereby referred to. The resolution ordering \$100 placed in the hands of the Supt. of Streets so as to enable him to pay small bills was read once and ordered for final action next meeting.

The city officials show their good judgment in laying out these streets on the French estate for by so doing they will get just what they want and where they want it and save serious complications in the future when the estate is sold and divided into lots owned by different parties. The meeting adjourned at 11.45.

MASS MEETING.

The mass meeting to hear and act on the committees report of proposed charter amendments will be held in the city court room tonight at 7 o'clock. Everybody interested is earnestly requested to be present.

Proposals for Heating and Plumbing.

The City Council of the City of Barre, Vt., will receive sealed bids for heating and plumbing the new City Hall until six o'clock p. m. October 31, 1898, according to the plans and specifications of George G. Adams, Architect, and now on exhibition at the office of said architect, Lawrence, Mass., and at the office of C. S. Currier, City Engineer, Barre, Vt., the bids are to be marked "Proposals for Heating and Plumbing," and addressed to the City Treasurer, Barre, Vt. The right is hereby reserved to reject any or all bids.
City of Barre, Vt., October 19, 1898.
BURT H. WELLS,
City Treasurer.

GODDARD VICTORIOUS.

Second Team Scores
A Victory

OVER M. S. SECOND.

Score 21 to 5.

The Goddard second eleven lined up against the Montpelier Seminary second eleven on Goddard campus at 4-15 yesterday afternoon.

On the opening kick off by Montpelier, Cook caught the ball on Goddards 45 yard line and rushed down the field right through the whole aggregation for a touchdown. Chase kicked the goal. Montpelier kicked off again and this time Booth secured the ball but made only a slight gain. Goddard by short steady rushes carried the ball down to within 25 yards of Montpelier's goal but were held there for downs. Cook soon got the ball again however, on a fumble and made a phenomenal run, and being tackled three or four times before he was finally stopped. Chase by a 30 yard dash made a touchdown but failed at goal. The first half closed with the ball in Goddards possession at the center of the field.

Beginning the second half Goddard kicked to Montpelier's quarterback who was stopped by Booth without much gain. Montpelier then began bucking the line for three yard gain. They tried the old cross play but Cole was through and downed his man with a three yard loss. Montpelier threatened to get around the end but Talcott tackled the man and he dropped the ball. Clough was on hand and rushed in 30 yards down the field for a touchdown. Booth missed the goal.

Montpelier kicked to Booth who caught it and made a fair gain. Whitman went around the end for five yards and Goddard kept making steady gains. Goodwin went through the line and dropped the ball. In the moles that followed Bushnell crawled out of the pile with the ball and was away for 40 yards gain, he was stopped 10 yards from the goal line. Chase tried to go around left end but lost five yards. Clough was then sent around right, and in spite of a Montpelier citizen who tried to get in his way made a touchdown. Booth failed to kick a goal.

Montpelier kicked to Bushnell this time, who by good dodging gained ten yards. Goddard made short gains but was finally held for downs. Montpelier made good gains through the line and during the last minute of the half sent a man around left end. Aided by darkness and the crowd he succeeded in eluding the Goddard men and crossed the goal line. They failed at goal.

The two teams were very evenly matched for weight, and both teams put up a fairly good game. Montpelier did not seem to be "onto" the game very well. For Goddard every man was right in the game, Cook, Chase, Clough, Booth and Whitman being especially good. Montpelier had some very good individual players among them being Maxham and Slayton.

The line up of the two elevens was as follows.—

GODDARD		M. S.	
Clough	1 e	Maxham	
Talcott	1 t	Haines	
Lawson	1 g	Wells	
Cook	c	Corliss	
Cutler	r g	Hamilton	
Bushnell	r t	Shumway	
Cole	r e	Tower	
Booth	q b	Bushnell	
Whitman	1 h b	Fletcher	
Chase	r h b	Slayton	
Goodwin	f b	Baldwin

WE PUT IN THE BEST OF MATERIAL AND ALL WORK GUARANTEED SATISFACTORY.

We have a first class Furnace man and can put in the best Hot Air Furnace that is made; THE GLENWOOD (also Hot Air and Hot Water Combination.)

G. J. REYNOLDS & SON,
HARDWARE,
BARRE, - - - VERMONT

TO WHOM IT MAY CONCERN:

From a personal knowledge I can testify that D. D. HALEY, the tailor, is an artist in his line.

During the past year he has made three suits of clothes for me, every one of which has fitted to perfection. He possesses the intuitive art of cutting, and his many years of experience in this line of work have made of him an artist of the front rank. His material and workmanship are of the best and his prices are very reasonable.
