Clark Shephard has in his possession
probably the most remarkable cat in
Barre. She is ten years old and like
her master she is very fond of hunting.
Only a few days ago she returned from
one of her rambles in the forest with a
fat young partridge which she left on
the kitchen floor. The bird was unin-
jured and he was found flying about the
room in frantic efforts to regain his
freedom. Mr. Shephard took him to
the granary where an attempt will be
made to tame him.

A fact perhaps not generally under-
stood, has made itself apparent in the
course of a most profitable investment to
Barre Citizens. Eli's Book and Music
store has recently inaugurated the plan
of paying the street car fares to pur-
chasers at their beautiful art and sta-
tionery store in Montpelier when goods
up to one-dollar worth are purchased.
The facilities offered in this store are
so varied in the lines of Musical Instru-
ments and Novelties, that prospective
buyers find themselves bewildered in
making their selection. Though early
for the approaching Holiday season the
stock has already arrived in some de-
partments and a timely investigation
will prove a good investment.

She has been before Barre audiences be-
fore and her excellence is well known.

singers in New England and lovers of
music cannot afford to miss hearing
Miss Parulis in her rendering upon the
piano.

An Illustrated History of our War With Spain.

By Hon. H. B. Russell, Senator Proctor,
and Senator Thurston.

This magnificent illustrated, richly
filled, and scholarly volume gives a
complete and authentic history of the
Spanish-American War from its begin-
ning to its close. Its authors are three
widely-known men, Hon. Henry B. Rus-
sell, the distinguished historian, Hon.
Redfield Proctor, Senator from Vermont
and ex-Secretary of War, and Hon.
John M. Thurston, Senator from Ne-
braska.

The subject naturally divides itself
into two parts: I. How we got into the
war with Spain; and II. How we got
out of it and with what results.
This volume tells the whole story,
makes clear all the causes of action that
led up to and culminated in the conflict,
gives pen pictures of those who figured
in it, and relates many exciting inci-
dents, brave deeds, and thrilling adven-
tures connected with the struggle. The
mutterings of the distant war cloud, the
indignation and uprising of the whole
people, North and South, when the vet-
erans of the Blue and the veterans of
the Gray took their places side by side
behind the same flag, the departure of
fleets of powerful modern warships, the
march of hostile armies, the strife and
carnage of battle on land and sea, the
deeds of valor and heroic sufferings of
our gallant soldiers and sailors in field
and hospital, all are portrayed with con-
summate skill.

Every event is placed in chronological
order, and the fullest and most author-
itative statistics are given. As might
be expected from the high positions
filled by its distinguished authors, the
war and navy departments and other
branches of the government extended
every possible aid to make this volume
not only a standard and official history
of the war, but the most complete, well-
rounded, and elaborate record of the
struggle that will probably ever be
written. No three living American
writers could more fitly assume this re-
sponsible task or produce a more hon-
est, truthful, and impartial book. Their
entire familiarity with the political his-
tory of the country, their fund of statisti-
cal information, their independence
and fearlessness, all guarantee that this
work is one of more than ordinary val-
ue. It presents a deeper, broader,
more exhaustive exhibit of the long train
of causes which culminated in the con-
flict than can be found in any other work.

It is the most ample, brilliant, and read-
able book that the war has called forth.
It is not only rich in historical informa-
tion, but as instructive in its method of
presentation as it is fascinating in nar-
rative. It is, in our opinion, the only
book that rises to the dignity of a real
history of the Spanish-American conflict.
It needs no better introduction to the
eighty millions of American freemen
than the names of its three illustrious
authors.

The magnificent illustrations include
a series of seven superb steel-plate por-
traits of President McKinley (from a
photograph approved by himself), Gen-
eral Miles, Shafter, and Merritt, and
Admiral Dewey, Sampson, and Schley.
It is worthy of note that these are the
only steel-plate portraits of these famous
men ever published. It also contains
colored and elaborate maps, showing in
great detail Cuba, the Philippines, Por-
to Rico, the Hawaiian Islands, etc.
There are, besides a large number of
maps and diagrams inserted in the text
to illustrate battles, campaigns, naval
operations etc. There is also 32 magni-
ficent full-page illustrations. In the
preparation of these maps, steel-plates
and illustrations no expense or pains
have been spared to make them all that
art, skill and talent could produce. In
no other history of the war can anything
even approaching them be found.

It is worth more than all other books
and manuals on this subject, for in none
of them nor in them all combined can
be found so much solid information as
this thoroughly standard high-class
book contains, which has, in addition,
many beautiful illustrations and the in-
estimable value of being truthful. If
we speak warmly of this book, it is be-
cause it is richly worth all the praise
that can be bestowed upon it.

The book is sold only by agents, and
is published by the old and reliable firm
of A. D. Worthington & Co., Hartford,
Conn., whose imprint is sufficient guar-
antee of the excellence of this first class
volume. Mrs. Walter LeBaron of
South Barre, is the agent for this local-
ity.
