

DOCTOR COULD NOT HELP HER

But Lydia E. Pinkham's Vegetable Compound Saved Her from a Serious Operation.

Brooklyn, N. Y.—"I suffered something dreadful from a displacement and two very bad attacks of inflammation. My doctor said he could do nothing more for me and I would have to go to the hospital for an operation, but Lydia E. Pinkham's Vegetable Compound and Sanative Wash have entirely cured me of my troubles and I am now in good health. I am willing you should use my testimonial and hope to benefit other suffering women by so doing."—Mrs. F. PLATT, 9 Woodbine St., Brooklyn, N. Y.

VERMONT THRIFT CLUB WAR SAVINGS STAMPS

\$20-\$1000

Table with columns for month (1918) and cost. Rows include JANUARY (\$4.12), FEBRUARY (4.13), MARCH (4.14), APRIL (4.15), MAY (4.16), JUNE (4.17), JULY (4.18), AUGUST (4.19), SEPTEMBER (4.20), OCTOBER (4.21), NOVEMBER (4.22), DECEMBER (4.23). Includes maturity value \$5.00 and interest 4 percent compounded quarterly.

Recognizing the need of the Government and the advantage to the Country of a National Thrift Education, we the undersigned, Federal and State Officials and Employees of the State of Vermont, individually agree to purchase during the year ending December 31, 1918, War Savings Stamps of a Maturity Value of not less than Twenty Dollars, nor more than One Thousand Dollars.

Table with three columns for names of subscribers. Includes names like John H. Watson, George M. Jones, and many others.

The Vermont Thrift Club, organized to purchase War Savings and Thrift Stamps, is probably the most distinguished and at the same time the most democratic organization ever formed in Vermont. It is intended to enlist in its membership all the Federal and State officers and employees in Vermont and will thus have a membership of several thousand, and will include on equal terms all persons, whatever the nature of their service—ranging from janitor to chief justice—serving the State or the United States or acting under Federal or State commission in Vermont.

perhaps, than ever have appeared before on a single Vermont document. The first line across the top shows the familiar autographs of Governor Graham, who is President of the Club, Chief Justice Watson and Senator Dillingham, while below appear the hands of many State officers, Senator Page and Congressman Greene and Dale, Federal Judge Howe, Judges of the Supreme Court, Superior Judges, Postmasters, members of the Legislature, Sheriffs, and others well known and less known. The endorsement by these men of the War Savings movement is the strongest possible evidence of its importance and of the interest that all Vermonters should exhibit in thrift and savings during the war and in seeing that Vermont buys its quota of \$7,365,200 of War Savings Stamps before December 31, 1918.

VERMONT WOMEN FOOD CONSERVERS

In Addition Members of Various Clubs Have Been Active in Raising Money for War Causes.

Food conservation is the line of war effort in which Vermont women have particularly shown. The Green Mountain state was one of the first to adopt wheatless days. Sixty-two per cent of Vermont women signed the Hoover pledge. Public speakers and press publicity have been wisely and widely used. The women's committee, the State Federation, the Red Cross, the D. A. R. and the Colonial Dames have all been active. A splendid record was made in the sale of Liberty bonds. There are 69 clubs in the federation, headed by Mrs. Gilbert F. Davis of Windsor, with a membership of about 5,000. These have raised thousands of dollars for Liberty bonds, war libraries, Red Cross, Y. M. C. A., Knights of Columbus, Armenian, Belgian and Polish relief. The Athena club of Burlington or-

ganized and financed a Girls' Welfare league, the members of which assist at the hostess house at Fort Ethan Allen.

The extension service of the University of Vermont has aided the women of the state by sending out country agents to give demonstrations and instruction in preparing substitute foods. Miss Bertha M. Terrill, head of the department of home economics at the university, has been a prominent conservation worker.

At the Vermont state hospital for the insane, of which Dr. Watson L. Wasson is superintendent, women patients—as well as some of the men—in the convalescent ward have been permitted to make knitted garments for the soldiers, and they contributed a considerable portion of the quota provided by the Waterbury Red Cross chapter. This large hospital was the first in the country to be placed on a 50-50 diet basis, as to flour, with distinct advantages to the health of the patients, and an annual saving of more than 500 barrels annually. The food experts at Washington subjected the diet slips to a rigid analysis and gave their approval.

The Athena club of Burlington organized and financed a Girls' Welfare league, the members of which assist at the hostess house at Fort Ethan Allen.

HOW TO GROW EGGPLANT

The seed for eggplant should be sown in the hotbed about six weeks before the time to set plants in the open. The eggplant is a heat-loving plant and cannot be successfully planted until the ground has become warm and the weather settled. The soil best adapted to the eggplant is a rich, sandy loam, well drained. The plants should be set in rows 3 feet apart with the plants 2 feet apart in the rows. Cultivation should be frequent and thorough. Fresh manure should not be used on eggplant, but well rotted manure may be applied freely. In fact, there is little danger of getting the ground too rich. Eggplants may be used as soon as large enough and cannot be kept for any length of time.—U. S. Department of Agriculture.

101 GERMAN LIES NAILED.

Kaiserite Busy in America Spreading German Propaganda. WASHINGTON, D. C., April 15.—German propagandists have been busy since the entry of the United States into the war. Falshoods of every character have been spread over every section of the country with the idea of abusing the confidence of the American people. So persistent has been the circulation of these carefully moulded pro-German lies that an official exposure of them has been issued as a pamphlet entitled The Kaiserite in America, by the Committee on Public Information, 8 Jackson Place, Washington, D. C. A copy of this pamphlet may be had free if inquiry will be directed to the committee. Tales have been current about interned German prisoners being fed five meals a day, about Red Cross supplies being sold to shopkeepers by dishonest officials, by criminal waste of food at training camps and many other like falshoods either designed to discourage volunteer Red Cross work and the loyal efforts of housekeepers to save food or
