Bilious, Remittent, and Other. Fevers.

GENERALLY begin with yawning, stretching, pain in the bones, languor, giddiness, a swelling about the region of the stomach, and many other unpleasant symtoms.

DR. PHELPS' COMPOUND TOMATO PILLS, are one of the best medicines in the world for the cure of Fevers, because they purge from the body those morbid humors which are the cause of every malady incident to man. In all cases of fever, four to six of the TOMATO PILLS should be taken every night, or if the symtoms are violent, night and morning. This plan, if properly carried out, will in a short time, subdue the most violent attack; at the same time the digestive organs will be restored to a healthy tone, and the blood so completely purified, that FEVERS, as well as every other disease, will be driven from the body, and health and vigor will be given to the whole frame.

THE

Patent Lace.

INVENTED BY E. P. BANNING M.D.

OF PITTSBURGH PENNSYLVANIA,

Will be kept constantly on hand by Dr. W. P. RUSSEL, of Middlebury, he having purchased of the Original Patentee the *exclusive* right to *make and vend* the same within and for the County of Addison, Vt., and in Essex County State of New York.

The *Patent Lace* has now been before the public for a number of months—hundreds have been applied in different parts of the country, and with a success never before equalled by any remidial agent. Numerous well authenticated certificates of its beneficial influence in the removal of diseases of long standing, might be furnished from this immediate vicinity—in addition to the statement of cases and cirtificates of cures furnished by Dr. Banning and others. But this is not deemed necessary, as at the present time reference can be given to individuals wearing the *Lace* in nearly every Town in the County.

Phisicians have long felt the necessity of a supporter differently constructed and more perfect in its adaptation to the human form than any that had been presented to the public. The invention of Dr Banning's meets with their general approbation, as it is designed to relieve symptoms, and to remedy a class of physical maladies which *can not* be reached by medicines alone.

The decent or displacement of the vicera from relaxation of the *abdominal muscles* or other causes tends to alter and derange the function of every organ in the human system, and in many cases this deviation from the natural healthy position of parts is the sole cause of general debility in Males & Females of *Dyspepsia,* affections of the *Stomach and Liver Palpitation of the Heart, Spinal Irritation, Hysteric Hypocondria, Piles, Prolapsus Uteri, Suppression of Urine.* The *Bronchitis* of public speakers, and *incipient Consumption*—all of which will be much relieved if not entirely removed by the use of the *Patent Lace,* when their existence is caused by Physical derangement and a mechanical displacement of parts which can be readily ascertained by observing the *form* and *symptoms* of the person affected.

This instrument has been examined by Drs. Mott, Rogers, Frances and Griscomb of New York, the Faculty of Pittsburgh, Hartford and New Haven and has obtained their favorable testimony.

Application for the Lace can be made at the house of the subscriber, two doors south of the Court House. Patients at a distance will be visited at their residence if required.

A specimen of the Lace together with various kinds of the most approved Trusses now in use can at any time be examined at the Druggist store of Russel & Gridley first door south of the Post Office.

Wright's

INDIAN VEGETABLE PILLS;

—OR—

Indian Purgative.

THOUGH many medicines have been before the public for a much longer period than *Wright's Indian Vegetable Pills,* yet none stands now in higher repute, or has more rapidly attained a firm hold upon popular estimation. The THOUSANDS that have used them throughout the length and breadth of the republic, all bear cheerful testimony to their *thorough efficacy* and mild operation when employed in the most distressing disorders which flest is heir to."

The theory of disease on which Wright's Indian Vegetable Pills are founded is this, viz: *that there is only one primary cause,* of all the disorders that afflict the human family, and that is corrupt humors; or, in other words—*impurity of Blood.* This principle is now so generally admitted that it may in fact be said to be sustained by an universality of opinion, the few dissenters constituting but a very feeble minority. It is useless, therefore, to discuss the soundness of this theory in this place and connexion.

The one disease principle being admitted, the mode of attack professed by all practitioners becomes the same—namely PURGATION. But many of the so-called specifics now before the public, produce only one form of purgation: they are either Sudorific, cathartic, Diuets or expectorant.—Wright's Indian Vegetable Pills combine all these properties, & are therefore calculated to attack thee lements of disease at all points, and by a harmonious and combined operation to expel it radically from the system. Their effect is almost magical, and is no less astonishing for its mildnes than its efficacy. Both sexes, and all ages may employ them, according to the directions, without fear, for while they are certain to cure all diseases that are remediable, they never inflict an injury upon the system

The perfect safety of the medicine is another all important quality, and one which has contributed more than anything else to its extension and popularity.

In a word, this medicine commends itself strongly to the patronage of the public, and its use bids fair to become before long, almost universal.

CAUTION.

The citizens of New England are pectfully informed that in consequence of the great popularity which Wright's Indian Vegetable Pills have earned by their astonishing goodness, a gang of Counterfeiters are now industriously engaged in palming on the unsuspecting, a valueless and perhaps dangerous medicine, under the name of Indian Vegetable Pills.

This is to inform the public, that the genuine medicine has on the boxes,

"Wright's Indian Vegetable Pills

(Indian Purgative)

OF THE NORTH AMERICAN COLLEGE OF HEALTH."

And also around the border of the label will be found in small type,—"Entered according to the Act of Congress, in the year 1840, by William Wright, in the Clerk's office, of the district Court of the eastern district of Pennsylvania.

The public will also remember that all who sell the genuine Indian Vegetable Pills are provided with a certificate of agency signed by—

William Wright, Vice President

OF THE NORTH AMERICAN COLLEGE OF HEALTH,

and that pedlers are never in any case allowed to sell the genuine medicine. All travelling Agents will be provided with a certificate of Agency as above described, and those who cannot show one will be known as base imposters.

The following highly respectable persons have been appointed agents for the sale of the above named.

CONTAGIOUS DISEASES,

and changes of Temperament.

WATER must be adapted to the flesh, or there will be no propagation of the species.—The soil must be adapted to the seed, or there will be no increase. The climate must have those matters in it which which will unite and keep alive epidemical or contagious poisons, or they will become extinguished, as a lamp that is unsupplied with oil. So likewise with the Human frame; It cannot be materially affected by epidemical or contagious maladies unless there be those matters floating in the circulation which offer the appropriate soil. By purifying our bodies with the BRANDRETH PILLS, which have affinity with those impurities upon which contagion feeds, we may always feel secure whatever diseases may rage around us. True, we, may have it, but it will be the affair of a day or two, while those who have been too wise to use this simple and excellent remedy, either die, or have weeks, perhaps months of sickness.

Sudden changes from hot to chilly weather are unfavorable to health, and it is a fact universally admitted, that heat and moisture are powerful agents in producing disease, and that constant DRY and constant WET weather are both favorable to its generation: it does not signify WHAT we call it: it may be ague; it may be dysentary; bilious fever; it may be bronchitis; it may be cholic; it may be consumption of the bowels; it may be inflammation of the bowels, it may be inflammation of the stomach; it may be nervous affection; but still it is disease, and a disease curable by Brandreth Pills, because they remove all impurities from the body—all that can in any manner feed the further progress of the malady no matter how called; thus these pills are not only the most proper medicine, but generally the only medicine that need or ought to be used. At the present time it is every man's duty who wishes to secure his health to use them, it is the duty of every one who knows anything of their health restoring powers, to make it known in his immediate circle. For there are some alarming signs, which tell of the approach of diseases. The sudden changes of temperament are more to be feared and guarded against than any contagious malady

THE INFLUENZA has left many in such a state of weakness that there is in them a great susceptibility to be affected by these changes of the atmosphere and contagious maladies; but by the timely use of Brandreth's Pills even now this susceptibility can be in a great measure removed, and power given to the system to resist these morbid poisons, and the sudden changes in the weather with which it may be brought in contact during the next 50 days. Nature has formed the bowels for the evacuation of all unhealthy humors, and if man would but use common sense, he would take care they performed this office faithfully. If the bowels are out of order if too slow or to fast, a few doses of Brandreth's Pills will bring them to order. Ask the man who was dying from constipated bowels what cured him he tells you, Brandreth's Pill. Ask him who had had dysentary for six months and every remedy had failed; he will also tell you the Brandreth Pills cured him in a week.—So with other diseases. Twelve Brandreth Pills, rubbed down in half a pint of molasses, cured a little boy of an ulcer of the face which a dozen doctors had tried to cure, but could not; the poor parents would have given half they were worth to have had it cured, but every thing they tried did no good, until they gave it a teaspoonfull of molasses every day, in 1-2 a pint of which they had rubbed down 12 Brandreth pills; before the whole of the molasses was taken the ulcer was cured. And yet some foolish people call Brandreth's pills quack medicine. It would be well if there were a few more such quack medinines. Will all your pretended Sarsaparilla Compounds cure like the Brandreth's pills? Can they send you to persons cured as Dr. Brandreth can? Can they point out to you people who had been helpless for years from Epilipsy and St. Vitas' Dance who have been cured by their remedies? If they cannot, Dr. Brandreth can Can they point out to you a person who for twenty years had never had a stool without having used medicide or medicinal means, and whom the Brandpills cured, in a month, and gave him as healthy evacuations, as he had when he was a child.—If they cannot, Dr. Brandreth can.

The BRANDRETH PILLS not only cure, all curable diseases, but it can be demonstrated, that by their timely use, they must infallibly cure, In a very short time, Dr Brandreth will bring before the public a concentration of the virtues of the Brandreth pills, both in the from of pills, and in the fluid and then he will explain the reason of the cures that must necessarily be the result of using BRANDRETHIAN REMEDIES, whether they be internal or external or external. I have just received the case of a medical gentleman, who resides in Sherbrook, Canada, who for twenty years was sorely afflicted with a disease, which came out in blotches and scabs all over his body This gentleman so far forgot his prejudices which too often curse his profession, as to apply personally to Dr. Brandreth, and his course proved a happy one. Within six months he was entirely cured of his miserable and tormenting disease by the use of the Brandreth pills. This valuable medicine is for sale at Dr BRANDRETH'S Office, 241 Broadway, and 276 Bowery, and 189 1 2 Hudson street, at 25cts per box, with full directions Be careful you get the genuine; observe six signatures of Dr. Brandreth on each box—three B. Brannreth and three Benjamin Brandreth.

17,500 Boxes of Dr. Rush's

INFALLIBLE

Health Pills.

HAVE been sold during the month of Dec, so great has been their popularity, in consequence of the numerous cures they have effected. Every person who uses these Pills recommends them to others as the BEST MEDICINE they have ever taken—so gentle in their operation, and so sure in giving relief.

It is now conceded by the most eminent of the medical faculty, that the stomach is the seat or fountain of all disease; that it is, as it were, the centre from which proceed all the evils produced by foreign or irritating causes and which from thence spread to every part of the animal system.

The proper mode of cure, therefore, is to attack the citadel in which the disease entrenches itself, and no combination of medical agents has yet been discovered so efficacious for this purpose as the preparation of the late Dr Rush and which, from the universal success attending their administration, during a practice of nearly half a century, were styled his "Infallible Health Pill." Their great virtue is that they arrest disease in its first approach. They are preventives as well as remedies and we will venture to say, that if taken by persons when they are first affected with symptoms of illness, many and many a case that is either serious or fatal, might be avoided.

ONLY 12½ cents a box, the cheapest and the best medicine ever known.—Sold at the principal office 30 Ann st. New York.

Moffat's Celebrated Life Pill

AND PHŒNIX BITTERS.

These powerful purifiers and restoratives are as mild and as agreeable in their operation as the gentlest medicine known in medical practice, yet as complete and prompt in their effects as the most suffering patient could desire. They thoroughly cleanse the whole system, stomach, liver, intestins, kidneys and bladder, leaving not all impurity behind to poison the channels of life. Yet they never prostrate even the most debilitated, but invigorate almost from the commencement. No medicines in the union have acquired a higher, a firmer, or more extensive reputation among the intelligent and respectable families of the United States and none will maintain it longer. There is no quackery whatsoever about them, for they are composed of the best vegitable medicines known to medical science and of the best quality that money can procure from any country. Hence it is that the proprietor has received, and is constantly receiving, such an immense number of certificates to their astonishing efficacy. These certificates prove that they rapidly and completely cure all derangements of the DIGESTIVE and BILLIOUS FUNCTIONS, COSTIVENESS, PILES, dyspepsia, acute and chronic rheumatism, asthma, bronchitis, jaundice, billious and serous loosness, loss of appetite, flesh, and spirits, eruptive and scorfulous diseases, salt rheum, erysipelas, scurvy, dropsy, fever and ague, head-ache, fullness of blood in the head, palpitation of the heart, worms, rheumatic colds, general distress and debility, night sweats, quinsy, sore throat, settled pains in the back, joints, side and limbs, and even the most complicated maledies in very advanced stages, and of inveterate obstinacy.—Their price puts them within the reach of the afflicted of all classes, and being purely vegitable, they require neither confinement nor change of diet. Every family and individual should keep them ready for use. Prepared and sold, wholesale and retail, by Dr. W. B. MOFFAT. 335 Broadway N. Y.
