THE LITTLE SHROUD.

She put on him a snow-white shroud,
A chaplet on his head;
And gathered early primroses
To scatter o'er the dead.

MY UNCLE'S PLUM PUDDING.

Reader, I believe I must tell you a story about my Uncle's plum pudding. This was a dish that Uncle Samuel's numerous family were very fond of.

was thrown into the pan in ad libitum quantities—raisins by handfuls—and eggs dropped in by the dozen; as each one cracked a shell upon the edge of the pan.

GREECE.

Athena, June 24.—We had the American Ambassador at Paris, Mr. Cass, here for a few days; it was first thought that he came to make a treaty of commerce with this Government.

CAUTION.

Nutmeg, in large doses, is a virulent poison.—The writer has witnessed the effects of it in two instances.

AWFUL STEAMBOAT ACCIDENT.

We have again to record a most melancholy accident upon one of our steamboats. About 3 o'clock on the morning of the 15th of August, the steamboat Dubuque, Captain Smoker, on her passage from St. Louis to Galena, collapsed the flue of her larboard boiler.

sided, and it was possible to make their way to the after part of the boiler deck, an examination was made, when it was found that the whole had been literally cleared of freight and every thing which stood in the way.

DR. BRANDRETH
Wants no College institution, no monopoly, no charter, he being quite satisfied to rest on the patronage of the public for the success of his grandfather's Vegetable Universal Pills.

THESE celebrated Vegetable Pills of which EIGHTY THOUSAND BOXES have been sold in New York since July, 1835, are now recommended by thousands of persons whom they have cured of Consumption, Influenza, Dyspepsia, Headache, Pains and a sense of fullness in the back part of the Head, usually the symptoms of Apoplexy, Jaundice, Fever and Ague, Biliousness, Scarcity, Typhus, Yellow, and common Fevers of all kinds, Asthma, Gout, Rheumatism, Nervous diseases, Liver complaint, Pleurisy, Inward Weakness, Depression of the Spirit, Ruptures, Inflammation, Sore Eyes, Fins, Palsy, Dropsy, Small Pox, Measles, Croup, Coughs, Whooping Cough, Quinzy, Cholera Morbus, Gravel, Worms, Dysentery, Deafness, Ringing Noises in the Head, Kings Evil, Scrofula, Erysipelas, or St. Anthony's Fire, Salt Rheum, White Swellings, Ulcers, Swelled Feet and Legs, Piles, Costiveness, all eruptions of the skin, Frightful Dreams, Female complaints of every kind, especially obstructions, relaxations, &c.: 7500 testimonials have been received from individuals of the highest respectability.—They in fact prove, by the cures they make, that there is no necessity for any other medicine.

Although Dr. B. has enumerated by name the above diseases, he is nevertheless of opinion with his Grandfather, the late celebrated Dr. Wm. Brandreth, that there is only one disease, an impurity of the blood, which by impeding the circulation, brings on inflammation and consequent derangement in the organ or part where such impurity of the blood settles; and that it is the different appearances which this inflammation or derangement put on, that have caused medical men to designate such appearances by various names, but which are in fact, on the same disease, with more or less virulence. Dr. Wm. Brandreth was so fully convinced of the truth of the above simple theory, that he spent 30 years in experiment and laborious research into the medicinal properties of the numerous plants composing the Vegetable Kingdom; his object being to compose a medicine which should at once purify, and produce by specific action, a removal of all bad humors from the blood by the stomach and bowels, as by the continuation of the use of such a medicine, such humors are sure to be carried off, and the blood assume a state of purity; and whoever takes these Pills, and perseveres with them, will be satisfied that Dr. Wm. Brandreth fully attained his philanthropic object. It is now an absolute and well known fact, that every disease, whether it be in the head or feet, in the brain or meanest member; whether it be an outward ulcer, or an inward abscess, are all, though arising from many causes, reducible to this one grand effect, namely, impurity of blood.

In all cases they will be found a safe and simple remedy, yet all powerful for the removal of disease, whether chronic or recent, infectious or otherwise; and what makes them particularly adapted to this country, is that there is not the slightest liability to cold when taking them, indeed the system is absolutely less susceptible of cold when under their influence, than at any other time—therefore in this climate they are invaluable. Neither do they require change of diet or care of any kind.—In England these Pills have been the only medicine of many families for periods varying from forty to sixty years and have always proved effectual in restoring health whenever an aberration from it has occurred.
