

### Household Bookkeeping

It is bothersome to keep accurate records of household and personal expenses for food, light, fuel, clothing, travel, recreation and sundry needs. If you pay by check, the bank will automatically keep these records for you.

You pay for your purchases by check, the merchant deposits this check in the bank and it is charged to your account. Periodically these cancelled checks are returned to you with a statement of account. You then have a record of how much you have paid to the different tradesmen. Try it and you will be surprised to find how convenient it is.

### HELEN LYNCH

Popular Helen Lynch, who has been seen in some of the excellent pictures, and who is a prime "movie" star, was born in Montana eighteen years ago. She is blonde and blue eyed, and professes to like "thrilly" stories. Her ambition is to do dramatic parts, but her appearance is that of a delightful ingenue.

THE MILE.

THE Roman unit of long measure was 1,000 paces, called a "milli," Latin for 1,000. The distance was, of course, only approximate, but the word, shortened to "mile," persisted and all the modern units are derived from it. One minute of Earth's equator was chosen as the geographical mile. There are 10 recognized standard miles, varying from 1 to 6.64 times our statute mile of 5,280 feet, which was defined in Queen Elizabeth's time. (Copyright.)

### AS TO THE GALLERY.

I care not if they say of me I play unto the gallery. For in those places up on high Where wealth and fashion seldom fly, I find that many a fellow sits With solid mind and nimble wits, Who hath a soul as full of glow As any sitting down below. While 'mongst the more exclusive oft I've found a head that's mighty soft, With naught for its location fit Except the cash to pay for it. (Copyright.)

### WINDHAM.

**Lost in Woods Over Night.** Edward Walsh, who since last July has lived at Waldo J. Smith's, where his daughter, Mrs. Margaret Walsh, is housekeeper, spent an uncomfortable night Saturday.

He and Mr. Smith went for a load of hay from the Converse place and Mr. Walsh started to walk back over the hill road from Stowell corner. He was not familiar with the road and in the dark became confused at the Dimick place and went out into the fields. Seeing a light at Henry Rhoades's he tried to make his way there across lots, but the light went out. He did not know how to come to a road and so spent the night under some spruce trees in Mr. Rhoades's pasture. It rained about three hours in the night and Mr. Walsh took cold, but had suffered no serious ill effects from his exposure at last reports.

Mr. Smith and Mrs. Walsh did not start a search for him as they thought he might stay over night at some house on the way.
