WHAT 'D YOU MEAN, NORMAL?

"Not hard times coming. Just soft times going." This phrase has been used most effectively for some months past by a big national advertiser, and it fits. It would be hard to find another eight-word combination which serves better to describe the industrial, commercial and financial phenomena which the nation has been witnessing.

We may be loath to admit it, but the United States has had a rather easy time of it in the past half-dozen years. Of course, there have been sacrifices, and tremendous ones, sacrifices which cannot but command a world's respect.

If normal conditions mean such conditions as obtained in this country from 1915 to 1920, there should be a day of national fasting and prayer that they will never return.

CLOTHES OF BOTH SEXES.

Here is another angle to the question of women's clothes. A New York clothing salesman, whose vocation qualifies him to know exactly what women wear, says that talk about women keeping cool in hot weather through sheer willpower is nonsense—that their comfortable aspect, compared with men's, is due not to psychology but to clothes.

Duck!! Here Comes the Forty-Eight

year, whatever the truth may be in cold weather. And it is the same old fact that fair-minded men have been forced to admit for many years. The only difference is that this summer the women are even more sensible than usual, compared with the men.

GRATITUDE TO HAITI.

American opinion of the Haitians has been pretty rough lately, as a result of the disorder in their island which American marines have had to suppress and of the apparently unwarranted charges the natives have brought against the Americans.

How many Americans know that Haiti helped this country gain its independence? Not one in 1,000. It is not in the school histories, and if it is in the big histories it goes unnoticed.

It is never safe to be contemptuous of any nation, big or little, without a thorough knowledge of history; and the well-informed student is seldom contemptuous, because he finds things that command respect in the record of nearly every race.

Hot Weather Consolations.

There is nothing like taking things philosophically in a heated time like the present. If you are inclined to fume, think how much funnier you would feel if you were compelled to stay in hot Washington with the congressmen all summer.

Most of us have been inclined to pity Adam and Eve, but protracted altitudinosity of the mercury reminds us that even the Garden of Eden before the fig-leaf era had its compensations.

We should learn from the sartorial extremes to which the female of the species has already led or driven the race that we may later look back with longing to some of the present discomforts which will seem small in comparison with those of subsequent periods.

Avoidable Auto Accidents.

Statistics of automobile accidents are better kept than they used to be and show many interesting things. The most fatalities are due to automobiles getting in the way of trains. These accidents are not so many in number but fewer of those involved escape.

The Meddler

"If the coat fits you, put it on."

There seems little reason to doubt that Dr. A. I. Miller will receive re-election as a member of the prudential committee at the annual meeting of the incorporated school district next Tuesday evening.

The Meddler agrees with the attitude of the committee toward tuition pupils, which is that they should be encouraged to attend the incorporated district schools but should expect to pay tuition fees commensurate with the actual cost of their education.

As The Meddler remembers it, the last annual village meeting directed the commissioners to make a contract for the disposal of garbage and authorized "sufficient funds" for that purpose.

difficult problem to solve, but he feels safe in saying that they would not be going contrary to public opinion in spending almost any sum to get the work properly handled. Surely, "sufficient funds" which was the amount voted for the purpose, ought to be enough.

If there are any reports of dull business in Brattleboro they certainly do not come from the folks who are operating the ferry from the island to this side of the river.

Little Benny's Note Book

By LEE PAPE.

We was eating supper yesterday and ma kept on looking at pop funny and pop kept on looking as if he wished he knew what she was looking at him funny for, and after a while ma sed, Well Willyum, you appear to be forgotten wat day this is.

Not at all, on the contrary, sed pop, this is Wednesday and we were going to do something special today, we were going to take in a show, wasn't that it?

It was not, sed ma, and pop sed, We were going to call on your sister, wasn't that it? and ma sed Certenly not, we were not going to do anything, as a matter of fact we already did something, to make a long story short we got married and this is the eleventh anniversary of the day.

O, that! I mean, O, that, sed pop, I remembered, my certenly I remembered, if I didn't remember wats that packidge doing out on the hall rack?

Wat packidge? sed ma, O Willyum, you did remember and you braynt me a present and you're jest bin perending all along, you certenly are a case, Willyum, O I must run out and see it immedately.

And she quick got up and went out in the hall and called back, Willyum, there's no packidge out here, there's not a thing out here.

The doose you say, then its bin stolen. I thawt I herd the front door open a little while ago, did you heer anything? sed pop.

I did not, and Im not the only one that didn't, sed ma. Meaning pop didn't either, and he sed, My Pawlen, how can you say sutch a thing, I wish you no packidge out here, there's not a thing out here.

The lovely wat? sed ma, and pop sed, The lovely string of pearls, but of course Ill get you another string jest like it because it was my fault for leaving the packidge on the hall rack. Ill bring it home to-morrow.

My Willyum, I think you're perfectly wonderfull, I reely bleeve there was a packidge there after all, sed ma. And we kepp on eating supper, everybody looking as if they was still injoying it except pop.

THIN PEOPLE NEED BITRO-PHOSPHATE

All that most weak, nervous, thin, mentally-depressed people need is 10 grains of pure organic phosphate with each meal for a few weeks.

That's what nerve specialists in London, Paris and New York are prescribing with wonderful results.

It is natural food for nerve and brain cells and is known to such reliable pharmacists as the Brattleboro Drug Company as Bitro-Phosphate. Because of its power to help create healthy flesh and strengthen weak nerves, much of it is being sold to people who are lacking in vitality.

CAUTION: Although Bitro-Phosphate is an excellent aid in relieving weak, nervous conditions, its use is not advised unless increased weight is desired—Adv.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely.

It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles. Advertisement.
