BIG HOUSING PLAN FOR NEW YORK CITY

Money From Insurance Companies and Contractors to Build 1,500 Apartment Houses at Cost.

NEW YORK, Jan. 26.—Success of Samuel Entenryer's \$100,000,000 home-building program virtually was assured yesterday by an offer of the Thompson-Starrett Co., general contractors, to undertake the work at cost and the acceptance by the building trades' council of a dollar a day a man saving in labor cost. Insurance companies, under the leadership of the Metropolitan Life, have agreed to furnish the money as soon as the law is amended to permit their investment in tenements. The plan calls for immediate erection of 1,500 apartment houses capable of housing 45,000 families, 225,000 persons.

The offer was the result of an invitation from Mr. Entenryer following his address before the Free Synagogue last Sunday in which, as counsel for the Lockwood housing committee, he outlined a method of meeting the present home shortage. Mr. Entenryer said he had received a letter from a large manufacturer of painters' supplies volunteering to furnish goods at cost and another from a window glass manufacturer expressing his approval of the plan and offering to provide window glass at factory cost. He has not heard from the brick, lime, cement and sand dealers, but even if they do not cooperate he said he could find other means of obtaining those materials.

CANADA TO AID ITS UNEMPLOYED

Dominion Government Will Finance Provincial and Municipal Authorities.

OTTAWA, Jan. 26.—The dominion government approved last night sweeping measures for the relief of unemployment throughout Canada. The plan, to be financed through issuance of federal warrants, makes special provision for Canadian and British war veterans and will be in force until March 31, the end of the fiscal year.

The new legislation binds the federal government to reimburse municipal authorities to the extent of one-half of their outlay for unemployment relief in the case of ex-soldiers, provincial and municipal authorities to assume the other half.

In the case of public work undertaken to provide employment, it is stipulated that the municipality must pay the normal cost plus one-sixth of the extra cost, the federal government paying three-sixths of the extra cost and the provincial government two-sixths. This grant is conditional upon the province agreeing to bear its share of the burden and also upon approval of cost estimates for work receiving the approval of the federal department of public works.

Where work cannot be provided, and conditional upon co-operation by the provincial government, the federal government agrees to refund to municipalities one-third of disbursements for unemployment relief. In rural districts the federal government agrees to reimburse provincial governments for one-half of their outlay for relief work.

HARDING INTERVENES

Asks China to Accept Japan's Terms on Shantung.

WASHINGTON, Jan. 26.—The aid of President Harding has been enlisted by the arms delegates to bring Japan and China into agreement on Shantung. Taking a direct hand in the Washington negotiations for the first time, the President yesterday urged the Chinese to accept the latest compromise offer and thus remove from the field of controversy a subject which has become a serious barrier to the progress of the whole conference.

Whether the move is to succeed appears to rest largely with Peking. The Japanese already have indicated informally their willingness to make the principal concessions proposed, and the President approached the Chinese only after the Japanese ambassador had informed the state department that his government was ready to accept a tender of good offices.

The settlement plan sponsored by Mr. Harding deals only with the return of the Tsingtao-Sinanin Railroad, substantially all other questions having been agreed upon in the separate exchanges between the Japanese and Chinese. Under the proposal, Japan would abandon her proposition for a loan to China, and the latter would purchase the road with treasury notes payable at option five to 15 years hence. China would receive possession within five years, but would withdraw her opposition to retention of a Japanese traffic manager and chief accountant during the period of payment.

POPE BENEDICT'S BODY ENTOMBED

Enclosed In Three Caskets It Rests Under Basilica of St. Peter's

ONLY FEW PERSONS WITNESS CEREMONY

Public Cut Off from Viewing Body at Noon—Guards and Papal Gendarmes Escort Body—Major Dignitaries of Church in Procession.

ROME, Jan. 26 (Associated Press).—Pope Benedict XV was entombed with solemn and impressive ceremony this afternoon. His body, enclosed in three caskets and dressed in the pontifical robes, lies in a crypt under the great basilica of St. Peter's to the right of the entrance. The historic and beautiful ritual was witnessed only by members of the sacred college, members of the pontifical household and the papal nobility and diplomats accredited to the Vatican.

The great bronze doors of St. Peter's had been closed at noon, cutting off the stream of humanity which for more than three days had been passing before the catastrophe where the body lay in state. The ceremony began with the removal of the body from the chapel of the choir. It rested upon a bier which was borne upon the shoulders of the red-robed ushers whose usual functions are to carry the pope in the papal chair in pontifical processions.

The funeral cortege was headed by the Vatican clergy bearing torches and chanting the anthem, Exaltabunt Dominum. On either side of the bier strode members of the Swiss guards, Palatine guards and the papal gendarmes. As the procession moved the choir of the chapel Julia in flowing robes of purple sang the Miserere. Noble guards in dazzling full dress uniform formed an escort of honor and the pontiff's bier was covered with a tapestry of red damask, upon which the body had rested while lying in state in the basilica.

Then followed major dignitaries of the church and the high officers of the armed forces of the Vatican. Meanwhile the members of the sacred college entered the chapel of the choir. As the strains of the Miserere ended the pontiff's body was carried in. Then the solemn ceremony of absolution took place and the choir sang. While the last anthem was being sung the body was deposited in the cypress coffin and the major dome of the Vatican covered the face of the pope with a veil of white silk.

Cardinal Caglieri covered the body with a large red veil fringed with gold and placed at the feet a brass cylinder upon which was inscribed a succinct history of the life and pontificate of the late pope. The coffin was sealed and the cover removed down. The burial act was then read.

The cypress coffin in which the body rested was placed in a lead casket and both were deposited in a hardwood casket. The casket was then transferred to the crypt in the left lateral nave near the right entrance to St. Peter's. Last absolution was given and Benedict XV was left to his rest beneath the flagstones which are trod by thousands of pilgrims annually.

M'NIDER SAYS BONUS WILL HELP INDUSTRY

Legion Head Calls Mellon too Pessimistic - Doesn't Care How Money Is Raised.

NEW YORK, Jan. 26.—The national commander of the American Legion, Col. Hanford MacNider, discussing here yesterday Secretary Mellon's conclusion that the United States treasury cannot stand up under the burden of a soldiers' bonus, said he thought the secretary of the treasury was much too pessimistic.

"He naturally looks at the situation as one would expect a watch dog of the treasury to look at it," Col. MacNider said. "But that does not make his conclusions accurate. Instead of weakening industrial conditions by putting an unbearable burden on the treasury, a bonus would do more to strengthen the economic fabric of the nation than any other thing that can be done at the present time."

"The Legion doesn't care how the money is raised. That's the business of Congress. Instead of weakening industrial conditions by putting an unbearable burden on the treasury, a bonus would do more to strengthen the economic fabric of the nation than any other thing that can be done at the present time."

SEIZE \$250,000 LIQUOR

Federal Officers Make Big Haul in Boston Hotel.

BOSTON, Jan. 26.—Federal Prohibition Director Elihu C. Porter directed an unusual raid yesterday, when a squad from his office seized choice pre-war liquor valued at \$250,000 on the premises of a hotel at Dartmouth and Columbus avenues, of which Con Keefe and Dennis J. Keefe are the proprietors. More than 100 Potters' men worked nearly all night removing the spirits from the cellar where it was stored. Late last night 12 truckloads had been carted away, and it was estimated there believe more liquor was hidden in the hotel.

No warrant for the arrest of the Keefes was issued last night, as the complete report on the amount of liquor seized had not been made. The search warrant was issued by United States Commissioner Nelson, who issued that for the celebrated Quinny House raid.

PROUD OF GRAY HAIR AT 30

But Judge Doubts Woman's Claim, Sends Her to Psychopathic Ward.

CHICAGO, Jan. 26.—When a woman of 30 whose hair has turned in places to gray says she is proud of her silver locks, Judge Samuel H. Trade believes she should be examined at the psychopathic laboratory. Miss Delta Gallery appeared in Judge Trade's court yesterday. She had had a back-fence altercation with a neighbor. She testified in court that her neighbor had taunted her about her gray hair.

"I'm proud of my gray hair," Miss Gallery told the judge.

The judge scratched his head, which is topped with a mass of gray hair.

"I can't understand it," he said. "We will have to send you to the psychopathic ward for observation. Your case will be continued for one week."

UNITED STATES FAVORS MORE TIME

Does Not Want European Economic Conference at Genoa Meeting

EUROPE SHOULD BE MORE STABILIZED

United States Would Look With Favor on Conference at That Time—Thinks More Satisfactory Results Could Be Obtained Later.

WASHINGTON, Jan. 26 (Associated Press).—Indications were given in official circles today that the United States is adverse to participation in a general European economic conference, should such a meeting be held at the time set for the Genoa gathering, but would look with more favor on a conference to be held at a later date.

The Genoa meeting, it was asserted, would be in position to obtain more satisfactory results in the opinion of some government officials if more time were given for conditions in Europe to stabilize.

LECTURE ON CHINA FOLLOWS SUPPER

Congregational Brotherhood Enjoys Clam Chowder and Illustrated Talk by Rev. H. P. Woodin.

The two main features of the regular meeting of the Congregational Brotherhood held in the Centre church chapel last evening were a fine clam chowder supper and an interesting illustrated lecture on China, Laurence G. Sherman, the new president of the Brotherhood, presided at the meeting.

The illustrated lecture on China was given by Rev. H. P. Woodin. The 60 slides showed pictures of Chinese idols, prominent Chinese men, new Chinese buildings and typical people of that country. About 35 were present at the supper and lecture that followed.

UNEMPLOYMENT CUT HALF

Government Predicts It Will Be Over By Spring.

WASHINGTON, Jan. 26.—Unemployment has been reduced nearly 50 per cent, largely as a result of the national unemployment conference called by President Harding.

Not more than 4,500,000 persons are without more or less regular work at present, officials believe. A year ago 5,000,000 persons were jobless, according to a report transmitted to congress by Secretary Davis. In normal times between 1,000,000 and 1,500,000 workers are idle.

By spring, or at latest summer, unemployment will have ceased to exist as a national problem, it is predicted.

EGGS AND BUTTER HIGHER

Cold Wave Increases Cost of These Food Products.

NEW YORK, Jan. 26.—The price of eggs moved upward yesterday, the rise being three cents a dozen wholesale to 53 cents, which was 10 cents more than last Saturday's quotations. The cold spell is blamed for an increase in all grades.

Butter went up also, creamery extras selling for 39 cents, and for the same reason—too much cold weather. So much Dutch, Argentine and New Zealand butter is coming in that the price is not expected to advance much more.

DOW ENTITLED TO RECOVER DAMAGES

Awarded \$85 by Judge Stowe for Act of Rous in Not Allowing Him to Harvest His Crops.

In findings of fact in the Townsend case of Warren H. Dow against Moise Rous, Judge Frank D. E. Stowe of the municipal court finds that in the spring of 1920 the plaintiff leased a piece of land of the defendant which the defendant had in his possession, for the purpose of raising crops, agreeing to deliver to Rous 10 bushels of potatoes as rent.

In the fall when Dow began to dig the potatoes, Rous assaulted him and drove him from the field and would not allow him to gather his crops. The court finds that the plaintiff was damaged to the amount of \$85 for the loss of his crops, and judgment has been entered for that amount. Attorney A. V. D. Piper is counsel for Dow. Attorney E. W. Gibson, counsel for Rous, has given notice of an appeal to the supreme court.

In Windham county court Dow brought an action for personal damages, claiming that Rous kicked him and that as he put one hand behind him one finger was broken by the kick. The plaintiff was awarded \$25, and an appeal is pending in that case.

THEATRE OPENS THIS AFTERNOON

Princess on Elliot Street Completely Done Over Since Fire

NEW SEATS, DROP CURTAINS, DRAPERIES

Business Suspended More Than Four Weeks Because of Heavy Fire Damage in Mincer Building—Mary Pickford in Opening Attraction.

After being closed more than four weeks for repairs made necessary by a fire which caused damage of about \$75,000 to the Mincer building in which it is located, the Princess opening picture theatre on Elliot street opened again for business this afternoon with Mary Pickford in "Through the Back Door" and Tony Sarg's novelty comedy, "The First Dentist."

A new steel ceiling has been put in and the interior of the theatre has been entirely re-finished, new fixtures and new furnishings have been installed and as soon as the fans are received a new ventilating system will be put in. It also was necessary to buy a new piano.

The side walls and ceiling are finished in paneling of light with pearl white border. There are nine wall lights with old rose shades and 10 overhead semi-indirect lights with translucent half bowls in Adam design. There are three electric fans on either side wall. The castings and 350 new seats are in mahogany finish.

Curtain carpeting has been laid in the aisles, on the stairs and on the stage back of the seats. Solid brass stair rods are used on the stairs. Rose draperies are hung at the stage entrances, a rose curtain is hung between the audience room and the orchestra pit. The drop curtain also has been done over in rose. Twenty-four lobby display frames about 12 by 16 inches are arranged attractively on a background of old rose hairpin.

As soon as the ventilating system is sufficiently to allow the work to be done the theatre front will be re-decorated. The ventilating system to be installed will consist of two of the best model exhaust fans, which will change the air of the theatre every 10 minutes. Everything is in readiness for these to be put in as soon as they arrive.

The theatre is owned by the Blackcroft. Mrs. E. C. Farrington, who continues as manager, said today that the same pictures would be shown as had been booked previous to the fire, with one exception.

TO CANVASS FROM HOUSE TO HOUSE

Community Service Membership Campaign Already On in Industries—From 2,000 to 3,000 Hoped For.

The Community Service membership campaign which has been started this week in various local industrial establishments will be concluded with a house-to-house canvass. It was decided at a meeting of the directors of the organization yesterday afternoon. To accomplish this work as quickly and thoroughly as possible each director will become responsible for one section of the town, selecting as many assistants as he wishes to assist in making the canvass.

There will be a meeting of the directors and their emissaries in the board of trade rooms Friday evening and the actual work of solicitation will be done Saturday, Sunday and Monday.

Membership work already done indicates that the public in general is familiar with the aims of Community Service and ready to give it support, and it is hoped to secure between 2,000 and 3,000 actual members by Monday night.
