commissioner, and also a fit person to be a collector. Such person shall, as far as practicable, be residents of some town near to such gores or unorganized towns, and they shall hold their office till others are appointed.

SEC. 2. Said commissioner, immediately after his appointment shall be sworn to the faithful discharge of his duty, a certificate of which oath shall be endorsed on his commission, which commission, with certificate thereon, he shall cause to be recorded in the office of the county clerk of the county where he resides. Such commissioner shall, and he is hereby authorized, on or immediately after the first day of April in each year, to take the lists of all persons in said gores or unorganized towns, whose polls, personal property and real estate are liable to taxation, and also the property, real and personal, of non-residents, in the same manner as listers of towns perform their duties in their respective towns. Such list shall, when completed, be deposited in the town clerk's office in the town in which such commissioner resides, and be subject to examination in the same manner and for the same purposes as lists of towns now are, and applications for abatements and corrections shall be made to such commissioner in the same manner as such applications are made to listers in towns. Such commissioners shall have the same power to act in the premises as listers and selectmen have, in like cases, in towns, and shall on or before tde first Thursday of October in each year return a copy of each list by him made to the Treasurer of the state. The first appraisal of the real estate made by the commissioner in making said list, and the appraisal so made at the expiration of each five years thereafter, shall be the basis of taxation, subject to such corrections and alterations by the commissioner, as listers of organized towns are authorized to make each year; and it shall not be required that said list should be revised or acted upon by the committee of listers or the committee of the Legislature to average the grand list.

SEC. 3. Whenever any state tax shall hereafter be assessed on the polls and rateable estate of the inhabitants of this state, the Treasurer shall make out a tax on the copies of the lists so returned to him by such commissioners, and shall immediately transmit to each of the collectors, appointed by virtue of this act, a bill on the list of all the gores or unorganized towns in their respective counties with his warrant attached thereto, commanding such collector to levy and collect such tax and pay the same into the treasury.

SEC. 4. It shall be the duty of every collector, appointed by virtue of this act, and he is hereby authorized to collect the State tax agreeably to the rate bill and warrant committed to him by the treasurer for collection, in the same manner and with the same powers that first constables have in organized towns, and be subject to the same penalties. Such collectors, before they shall proceed to the discharge of their duties, shall give a bond to the state for the faithful performance of the same, in the same manner as the first constables of towns are required to do in like cases to their respective towns, and in such sum as the Treasurer of the state shall prescribe, which bond shall be approved by the commissioner in the county in which he resides, which approval shall be endorsed on said bond, before any warrant for collection shall be placed in his hands by the treasurer; and the issuing by the Treasurer of such warrant to the collector shall be sufficient evidence of the approval and delivery of such bond to the treasurer as aforesaid. And in all cases where constables are now required by law in the collection of taxes to leave with the town clerk for record any advertisements, warrants, rate-bills, or lists of lands sold, or any other matter or thing, the same shall be left by the collectors provided for in this act, with the town clerk of the town wherein the commissioner of the county wherein such gore or unorganized town is situated, resides—and such town clerk is hereby authorized and required to record such advertisements and make certificate of the publication thereof, and record all such warrants, rate-bills, lists of lands sold, and any other matter or thing which may be left with him for record as aforesaid, and may receive redemption for lands sold, in case the collector shall die or remove from the town where he resided at the time of making such sale, and the record of such town clerk and his certificate of publication, and his certified copies of record, shall have the same force and effect as if made by town clerks of organized towns pursuant to the laws regulating the collection of taxes therein.

The Perfect

MELODEON!

Without an Equal.

ALMOST every mail from far and near brings to us some new evidence of the great favor and growing popularity of this beautiful instrument, and abundant testimonials are constantly reaching us, proving conclusively that no other Reed Instrument contains so many excellencies as the perfect Melodeon, with Base Damper and Harmonic Attachment. The Harmonic Attachment is the most valuable of modern improvements,—by it the power of the instrument is doubled without increasing its size or the number of reeds. Our newly invented

HARMONIC ORGAN,

for Churches, Concert and Lecture rooms, has greater capacity and power than any other Instrument made in the country, considering the price.

It is far more simple, and less liable to get out of order than other Reed Organs. It contains only half as many Reeds as other instruments of the same power, and consequently not half the expense to keep in tune. It has a fine powerful

Pedal Base,

with Reeds disconnected with the other part of the instrument. Another entire new feature in the Melodeon enterprise is the

PATENT HARP,

or Piano Attachment, to the Melodeon. This is precisely what its name indicates, a combination of the Melodeon and Piano Forte, and meets precisely the wants and desires of a large class who have long been anxious to see the two instruments combined in

Melodeon Size.

In this unique instrument the Melodeon or Piano may be played separately or combined, producing an effect unknown to any other instrument, and must be heard to be appreciated.

We have made arrangents with some of the best Piano Makers to receive from them regularly PIANOS of the very best quality, which well be sold at less than Boston prices. All instruments warented, and sent to any part of the country at our risk. ESTY & GREEN.

Brattleboro, Sept. 1st, 1862.

☞ The undersigned is authorized to act as agent for Esty & Green, in procuring for any who may desire it, one of their justly celebrated instruments. If any of our readers should want one of the best melodeons in the world, and will make known their wishes, they may rely on being served to their entire satisfaction.

MME. DEMOREST'S

RUNNING STITCH

SEWING MACHINE

Price, $5.

The embodiment of practical utility, and a marvel of simplicity; makes the running stitch very rapidly and perfect, uses a common needle, and will last a lifetime. At the New York State Fair, its simplicity, efficiency, and great practical utility, was confirmed by the award of the First Premium.

It will gather, ruffle, shirr, tuck, run up breadths, &c, with a single or double thread on any material adapted to the running stitch. The thinest, usually the most difficult to stitch by other sewing machines, being sewed the easiest. For ladies' children's apparel, and other articles made of light fabrics, it will therefore be found almost invaluable.

It is attached to the table like a sewing bird, and having no tension, and requiring no lubrication or change of stitch, is always ready for operation, and such a marvel of simplicity that a child of six or eight years can understand it, and use successfully.

It is not at all liable to get out of order.

Each machine is put in a neat box, accompanied with full and explicit directions, and twenty-five needles.

Sent to any address in the United States on receipt of an order, inclosing the amount, or may be collected by express on delivery of the machine.

When money is sent with the order and registered, we guarantee its safe receipt and the delivery of the machine, anywhere within 2000 miles, free of any express charges.

Very liberal arrangements for agencies.

See Mirror of Fashions, or for full particulars, specimen of sewing, &c., send a stamp for return postage. Address,

MME. DEMOREST,
473 Broadway, N. Y.

Every lady, mother, milliner and dressmaker, should have one of these valuable sewing machines. 1w8

THE IRON DUKE
CORN SHELLER!

J. B. RAND'S PATENT.

Patented August 13th, 1861.

In presenting this new invention to the agriculturists of our country, but little need be said to convince any intelligent man that this is the best machine for shelling Corn that has ever been in use, for several reasons:

1st. It shells all the kernels from the cob.
2d. It shells with great rapidity.
3d. There is a less number of pieces constituting the machine, consequently less liable to get out of order, and it costs less than any other Sheller in use which is suitable to shell corn with.

Below are a few names of Farmers and others who have seen this machine, and have expressed themselves satisfied that it is the best and really the cheapest machine in the market.

CONDITION POWDER.

For your Horses.

This Powder will cure the heaves, if given on the first appearance of the disease, and will prove a sure remedy in cases of Lung Fever, Horse Distemper, Common colds and Coughs.

And when from any cause, the horse is out of condition, it will prove a valuable assistant in restoring him to health. Any amount of certificates of its value, from individuals who have tested its virtues, might be given, but it is deemed unnecessary, as it will soon speak for itself. If your horse is out of health in any respect, if his appetite is not good, if his coat is rough, or if he is low spirited and wants something to put new life in him, get a box of this Powder, and feed it to him, and you will soon be satisfied that it is indeed a most valuable medicine.
