GREAT ENGLISH REMEDY
FOR
COUGHS, COLDS, ASTHMA, AND CONSUMPTION.

THE Great and only remedy for Colds, Coughs, Asthma, and Consumption, is the Hungarian Balsam of Life, discovered by the celebrated Dr Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the cure of Pulmonary diseases, warrants the American Agent in soliciting for treatment the WORST POSSIBLE CASES that can be found in the community—cases that seek relief in vain from many of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hugarian Balsam has cured and will cure the most desperate of cases. It is no quack nostrum, but a standard English medicine of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of colds, coughs, spitting of Blood, Pain in the side and chest, Irritation and soreness of the Lungs, Bronchitis, Difficulty of Breathing, Hectic Fever, Night Sweats, Emaciation and General Debility, Asthma, Influenza, Hooping cough, and Croup.

☞ Sold, in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merrits of this Great English Remedy, may be obtained of the Agents gratuitously.

DAVID F. BRADLEY, sole Agent for the United States 119 Court street, Boston.

TO ALL THE WORLD WHO USE
LEATHER IN ANY FORM.
OIL OF TANNIN, OR, LEATHER
RESTORER.
A New Chemical Discovery.

Most people know, that *skins* and *hides* are converted into *leather* by the use of Tannin extracted from certain barks &c.

When the force and strength of the Tannin is worn out, leather becomes *dead, hard, dry, brittle, cracked, covered with a crust, &c. THIS, ALL KNOW.* To restore then is *life, softness, moisture, strength, smoothness,* and remove all crust, fly, or blister—*restore the tannin.* This *substance* the leather never can receive the second time; but the whole *virtues* of it are in this article the OIL OF TANNIN—which penetrates the stiffest and hardest leather, if it has been twenty years in use; and if it tears easily with the fingers, it imparts at once a strength that is utterly incredible until seen. It *becomes like new leather,* in all respects, with a delightful softness and polish, and makes all leather *completely* and *perfectly impervious* to water—particularly boots, shoes, carriage-tops, harness, hose, trunks, and in fact *all things made of leather,* giving a splendid polish, even higher than new leather has, and *at least doubling* its wear and durability, in whatever manner the leather is used.—THESE ARE FACTS.

Those who will may wear old shoes, groan with corns, ride with old carriage-tops—have old harness, and throw them away half used—look filthy themselves, and all about them—expend double what is necessary for articles of leather, to their hearts' content, for what we care, if their prejudices are so strong, that they will not try a new discovery. We have no favors to ask of them, they are the greatest sufferers, and we *beg* for nobody's custom or patronage Now, gentlemen, please yourselves.

☞ None genuine unless with the fac simile signature of COMSTOCK & CO.

Temperance House.

THE SUBSCRIBER has opened a Temperance House (and he will keep no other,) on the South side of the Park in Woodstock, where P. G. ALDEN, has lately kept a public House. He solicits the patronage of those who wish success to the temperance cause, and he will endeavor to merit that patronage to the extent of his abilities. The buildings are sufficiently capacious to accommodate travellers and their teams to almost any extent. The subscriber indulges a hope, that it will not be said, as in some cases, that temperance people cannot afford to call upon him by reason of the deficient accommodation, nor that he cannot furnish sufficient accommodations because there is no custom to support it.

THE AGE.

OUR RIGHT TO OREGON—IS IT AN INCONTESTABLE ONE?

Our superior claims to the whole of Oregon—to the boundary line of 54 deg 40 min., as arranged with Russia, are not universally understood in this country not even by all those who unhesitatingly assert our right to the whole; and we, therefore, by way of an *imprimis* place the matter, briefly, in our columns, in order to give to the public a clear view of the question. All this, in unwieldly pamphlets and public documents, has been published, but active, energetic Americans, who are seekig fortunes, have only time to read newspapers, after they have once started upon active business pursuits.

This matter, in all its ramifications, is thus arranged in our minds and according to unimpeachable testimony.

CLAIMS OF SPAIN.

1534.—Cortez discovers California.

1543.—Ferrello discovers the coast of Cape Mendocino and the river Aquilar.

1582.—Gali discovers the coast beyond Oregon.

1599.—Ce Fuca discovers the straits of Juan De Fuca.

1603. Vizcina explores the coast of California.

1603.—Aquilar discovers the river Aquilar and inlet of Columbia.

1674.—Perez discovers Nootka Sound and SanLorenzo.

1774.—Martinez lands at Nootka Sound

1775.—Haceta, Ayola, Bodega and Quadra discover the bay of the river Columbia, and call it Entroda de Hecta.

1779.—Martinez makes a settlement at Nootka Sound and erects a Fort.

1779.—Fidalgo makes a settlement on Quadra's Island at the enterance of Juan de Fuca.

CLAIMS OF GREAT BRITAIN.

1578.—Drake lands in Bodega bay, previously discovered by the Spanish

1578.—Drake sailed up to lat. 43, but did not land.

1713.—The treaty of Utrecht between France and Great Britain appointed commissioners, who fixed upon the 48th deg. of lat. as the line of demarcatjon between the possessions of the Mississippi river.

1763.—The treaty of Paris between Spain, France, and Great Britain, fixes the boundary between the possessions of the two latter nations by a line along the middle of the Mississippi from its source to the Ibberville, in Louisiana, along the middle of that river, and lakes Mouripas and Ponchartrain to the sea.

1778.—Cook lands at Nootka Jound, discovered by Spain in 1674 and 1774.

1789.—Colnet attempts to take possession of Nootka Sound; he is taken prisoner by Martinez, the Spaniard.

1790.—Spain and Great Britain entered into a Convention, which reserves the sovereignity of Nootka Sound to Spain, but granted commercial privileges to Great Britain. This Convention gave to Spain the sovereignty and exclusive ownership over all the coast to the north of west America on the side of the South Sea, as far as beyond Prince William's Sound.

1792.—Vancouver enters the Columbia, having previously received from Capt. Gray an account of his discovery of the river.

1793.—Mackenzie explores to a river supposed to enter the straits of Juen de Fuca north of the Columbia.

1806.—Frazer erects a fort on the head waters of Stewart's river.

1818.—Treaty between the U. States and Great Britain leaves the country west of Stoney Mountains open to the citizens and vessels in both nations.

1827.—The provisions of the treaty of 1818 extended indefinitely unless either party chose to annul by giving twelve months notice.

THE INCONTESTABLE RIGHT OF THE UNITED STATES.

1783.—The treaty of Paris gave to the United States all the territorial right of Great Britain to the country bounded by her treaty with France in 1713 and 1763.

1788.—Capt. Gray, in Boston, of the sloop Washington, and Capt. Kendrick, of the ship Columbia, entered the port of Nootka Sound.

1792.—Capt. Groy of the ship Columbia discovers the mouth of river Columbia and sailed fourteen miles, May 11.

1803.—The United States purchased the right of France to the territory west of the Mississippi.

1804.—Lewis and Clark, authoized by Congress, to explore the Columbia from its source to its outlet into the Pacific.

1811.—Astor erects a fort at the mouth of the Columbia called Astoria.

1812.—Astoria taken by the English.

1818.—Astoria is restored to the United States by the treaty of Ghent.

1819.—The right of Spain to territory on the pacific north of 42 degrees, is ceded to the United States.

1824.—Treaty between Russia and the United State fixes the northern boundary of Oregon at 54 deg. 40 min. north latitude.

These facts thus chronologically, arranged, assert our clear and unquestionable right to the length and breadth of territory as far north as 54 deg. 40 min.; and it is here perceived that, apart from the right of purchase derived from Spain, we have a stronger claim than England can produce in the priority of our discovery and occupancy; and another right, a natural one equally superior, is our territorial connection with the land in dispute. It has been asserted, and is now mainatined
