Willard-Adams.

On July 16, 1903, a little band of neighbors and immediate relatives gathered at the home of Mr. and Mrs. Owen Adams to witness the marriage ceremony of their daughter, Leona Alice, to Harley Richard Willard, A. M., professor in Kenyon college, Gambier, Ohio.

At eleven o'clock the bridal party entered the room to the strains of the Bridal Chorus, Lohengrin, rendered by Miss Blanche Adams, a cousin of the bride.

The bride was attended by her father, who gave her away, also by her sister, Miss Lillian Adams, as maid of honor. The groom was attended by Mr. Walter Carleton Woodward, a graduate of Dartmouth, '90, and a classmate of Prof. Willard. Mr. Woodward is now at Harvard medical school. The ring service was used. The ceremony being performed by Rev. S. H. Sargent of Sharon, a graduate of Dartmouth in '97.

The bride's gown was of white Swiss muslin, with applique and taffeta trimmings and she carried white roses. The maid of honor wore light silk muslin and carried red and white roses.

The house was tastefully decorated in green and white. Large ropes of evergreen depending from the walls united at the center of the room, and the bridal party stood before a bank of green, interspersed with white elder blossoms.

After the ceremony a reception was held, during which time the party was introduced by Willard Gambell. Prof. and Mrs. Willard departed during the reception for a wedding tour, the bride wearing a suit of brown trimmed with taffeta. Beautiful and valuable gifts were received, which are tokens of love and esteem.

The friends of the bride and groom wish them a long and happy life.

Very Remarkable Cure of Diarrhoea.

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller of Morgan, Tex. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by F. E. Bryan, Randolph.

FASTED FORTY DAYS.

Miss Mary P. Stewart Dies at Her Brother's Home in Barnard.

Miss Mary P. Stewart died at the residence of her brother, Azro B. Stewart, in Barnard on Sunday, July 12. On the Thursday previous, July 9, she ended a 40 days' fast, living only a short time after beginning to take food again.

On May 30, while living in Mansfield, Ohio, she decided for some unexplained reason to begin a 40 days' fast and take nothing but water, believing she was in the hands of the Lord, and that He would carry her through all right and build her up again as good as new.

The most interesting part of the story is that, after fasting 30 days, she decided to visit her brother in Barnard, and accordingly she took a sleeper from Mansfield, O., on June 23, and arrived at White River Junction on July 1 and from there went by team to her brother's in Barnard on the same day. She refused all food and would not allow a doctor to be called, saying the Lord would take care of her.

The writer had the privilege of visiting her on July 4, and she seemed pleased to see an old friend. Although very much emaciated and weakened, of course, she walked about the room some. On the 8th the writer called on her again and found her in a chair in the sitting room. She said the 40 days would be up on Thursday, the 9th; then she would begin to gain strength.

Wishing to see what was the effect of something more nourishing than water, the writer called on her again July 9. She had taken a very little weak coffee made from bread toast, and it was not surprising to find her in bed much weakened, but she answered questions in a rational manner.

Miss Stewart failed rapidly after Thursday and passed away Sunday evening. A Woodstock physician had been consulted by her brother during the previous week, but any attempt to render medical aid was not thought advisable. In the physician's opinion she was undoubtedly insane, at least on the subject of fasting, and any interference with her might make matters worse.

The writer remembers Miss Stewart well as a student at the school on Locust creek in Barnard over 50 years ago, when she was far in advance of the average of scholars. Afterwards she studied at Newbury seminary, then passed many years as a teacher in the Southern states, and later in life became interested in missionary and Bible work, giving nearly all her earnings for charitable purposes. Here was a useful and interesting life and filled with many deeds of benevolence and kindness.

This case, which is quite remarkable in many ways, reminds the writer of Dr. Tanner's similar experiment many years ago which excited such general interest and was successful, the doctor living for three years after a fast of 40 days.—[Woodstock Age.]

I will give the following bond with every 50c. box of Mi-o-na I sell. There is no risk in buying Mi-o-na.

The demand for Mi-o-na is increasing rapidly and it is the most popular of all medicines we sell for the cure of stomach troubles. If it did not have unusual merit I could not afford to guarantee it.

Alcohol in Liquid Kidney Remedies Prolongs Disease.

KIDNEY-WORT TABLETS

Charles F. Orr Relieved of Intermittent Backache of Ten Years' Standing.

Alcohol is the mainstay of all liquid kidney remedies. The ingredients quickly ferment without it. There is trouble ahead for any sufferer from kidney disease who medicines with them.

Why not take a remedy that has no harmful ingredients to begin with? Pettinelli's Kidney-Wort Tablets contain no alcohol. If you have backache, if making water is painful or if compelled to get up during the night, the Tablets will cure you as they have cured thousands of others.

Two months ago Charles F. Orr, 236 Boston Street, Lynn, Mass., writes: "I have been subject to intermittent backache for ten or twelve years. I tried Dr. Pettinelli's Kidney-Wort Tablets and was relieved immediately. By the time I had taken the whole of the first bottle the ache was gone entirely—I think, for good, as I have not been troubled since."

Hospitals use Kidney-Wort in taking form because it contains no alcohol—a serious objection in the mind of every physician to the use of liquid kidney remedies. It is the one remedy that thoroughly cures jaundice, gallstones, malaria, chills and fever, debility, liver complaint, constipation, piles, gravel, diabetes, rheumatic pains due to excessive uric acid, and the headache and dyspepsia that accompany by overworked, clogged kidneys, without weakening the alimentary and excretory organs. It is entirely non-toxic; its absolute purity is vouched for by expert analytical chemists. Get aside your urine for 24 hours. If sediment collects, your kidneys are in trouble. Kidney-Wort Tablets will positively cure any tendency toward disease. The Tablets cure without false stimulation.
