## WHAT IS DOING THE WORLD OVER

### A WORD ABOUT THE LEADING EVENTS OF THE WEEK.

#### Fitzgerald Beat Storow.

Boston's most exciting municipal campaign ended Tuesday in the triumph of Fitzgerald, who was elected mayor by a plurality of 1,414 over Storow. Fitzgerald received 47,173 votes, Storow 45,757, Hibbard 1818, Taylor 613. This is Fitzgerald's third election, though he was beaten two years ago by Hibbard, who was a very poor third time. The non-partisan ballot was used without party designation. Fitzgerald is a Democrat, as was his leading rival, who was supported by Republicans and Independents. The outcome is taken as a vindication of Fitzgerald, who was ousted at the last election on account of graft charges, to which he made a disclaimer. This election is the first under Boston's new charter, and the term of the mayor is lengthened to four years. The form of government will be a modified commission plan, with a mayor and council of nine. Boston showed a strong business vote, the yes majority being 27,123, against 11,958 last year.

#### Great Flying at Los Angeles.

The first aviation meet in America is in progress at Los Angeles, Cal., with noted European and American performers taking part. Paulhan, a Frenchman, has achieved favorability by his daring flights in a Farman biplane and a Blériot monoplane, both French machines. He shows perfect command, even when contending with an 18 mile wind. Glenn Curtiss Tuesday established a world's record for speed with passenger, driving one of his own biplanes 55 miles an hour, carrying two. He also started from a marked spot ten feet square and returned to the exact spot. At one time Tuesday there were four aeroplanes in flight at once, setting the crowd of 30,000 wild with excitement. Knausenshne's and Beesby's dirigibles also flew, the former winning a 1000 foot race by two lengths, scoring above the other.

#### A Fall for Speaker Cannon.

A combination of Democrats and insurgent Republicans in the House Monday succeeded in taking from Speaker Cannon the right to appoint the House's committee of the Ballinger-Pinchot investigating committee. The vote stood 149 to 148. It was a move to break the speaker's authority. Cannon passed the word that he would take the vote as final and make no further fight on that question. Several personal friends of Pinchot acted with the insurgents. It is reported that the administration will not recognize insurgent Republicans in the distribution of patronage, that they will be read out of the party and not invited to the House caucus, and that efforts will be made to replace them with regular Republicans.

#### Madrix in Promising Mood.

President Madrix of Nicaragua has promised a program of radical reform, and even intimates that he will extradite Zelaya from Mexico and try him for the murder of Groce and Cannon, Americans. One insurgent army is besieging Greytown, where 1,000 government troops are stationed. The commander of a British cruiser there refuses to permit fighting in the town. Another rebel force under Chamorro is working toward the capital, Managua.

#### Ill-Fated Tunnel Burial.

Isaac Finkelstein, a painter, fired by moving picture scenes of bank robberies, conceived the idea of burrowing under the street from his home in New York and entering the Fourteenth Street bank opposite. Unknown to his family, he delved until the earth caved upon him. His disappearance was reported and after days of digging by a big force his crushed body was found.

#### Chief Forester Pinchot Bounced.

Alleging that Chief Forester Pinchot had disobeyed a rule in transmitting to the public through a senator a statement of his side of the Ballinger controversy, without authority from his superior, President Taft Friday ordered the dismissal of Pinchot from the service, also two of his subordinates implicated. The president sent a sharp letter to Pinchot respecting his action.

#### Walter Eloped with Girl Heiress.

The police of all the large cities were on the watch last week for Roberta De Janon, a Philadelphia heiress, who eloped with a waiter named Cohen, employed in the family. They were finally found in destitute condition in Chicago. Cohen was held but the girl's father took her back joyfully.

#### A Year for False Weighers.

Four former employes of the sugar trust convicted of underweighing frauds were sentenced to a year's imprisonment at New York Monday. The trust has restored \$2,000,000 to the government for evaded duties, half of which went to the complaining official.

#### Waltzed with His Wife's Corpse.

A Cincinnati negro, frenzied by the death of his wife, drove out the undertakers, placed a cigarette in the dead woman's mouth, tried to force whiskey down her throat, carried her out on the street and sang and waltzed with the corpse until policemen stopped him.

#### Japan Says No to U. S.

Secretary Knox's proposition to the leading powers that Japan shall neutralize the Manchurian railways is not well received in Japan, and commands little favor in other capitals save London.

#### A Real Fire Drill.

The New York Military academy at Cornwall, N. Y., was burned at an early hour Monday. The 150 cadets marched out to the call of the bugle in military order, clad mostly in their pajamas.

#### Ladies' hair work.

Mrs. H. H. Bean, 192 Webster St., Rockland, Mass.

## RANDOLPH CENTER

### A Card.

We wish to thank our many friends and neighbors who assisted us in any way and for the many beautiful flowers sent at the death of our husband and father.

#### Mrs. Charles Smith and Family.

They are having chickenpox at Will Saiter's.

Mrs. Marshall Banister has grip. Dr. Scott attends her.

The body of Lester Watson, who died at Randolph last week, was brought here last Sunday for burial.

Antoine Duchame of Randolph has moved into Mr. Massey's tenement house and is to work for him the coming year. Fred Lashus had to move out and he went to Randolph.

The Federated church--Rev. Joseph Hamilton will preach next Sunday morning at the usual hour. Sunday school at 11:45; young people's meeting at 7:30; mid-week meeting Thursday evening at 7:30.

#### "The Delphians" Entertain.

Thursday evening, Jan. 6, was given the third number of the entertainment course. In spite of the stormy weather and the badly drifted roads, a considerable number attended, and Normal hall was crowded to its full capacity with a well pleased audience.

The entertainers were five in number, consisting of Miss Bertha Wells, reader; Florel R. Jordan, Jr., baritone soloist; and the "Patien Trio," the latter, made up of Nathalie and Marjorie Patien, violinist, and cellist respectively, with their mother, Mary E. Patien, as pianist.

This quintet, known as "The Delphians," enjoys a wide reputation having filled engagements in nearly every state in the union, and those who were present should consider themselves fortunate at having listened to such a high-class entertainment.

Every selection rendered was received with hearty applause, and snore after snore was called for. The young ladies with the violin and cello were especially well received and were called back again and again. Their work was of the highest order and they deserve great praise.

This entertainment is generally conceded to be the best of the three already given and it is the wish of the people here that we may again secure the services of "The Delphians."

### GEORGIA WHITE, Local Editor.

#### "Hub!"

The sturdy chopper swings his ax within the forest sides. And 'neath the vigor of his whacks The cordwood lies in piles. The chips are falling in a shower. His breath, like puffs of smoke, Expels the "Hub!" that marks the power Of each deep ringing stroke.

Though wild may rage the bitter storm And cold the north wind blow, His blood is coursing red and warm In steady, rolling flow. The while he sees those he knows Who indoors have their rest To shiver at the driving snows And freeze in furnace heat.

His appetite has no less keen An edge than has his ax, And nothing loath, 'at or least, Can his consumption tax; Yet still he envies those in ease Who with weak groat slops, Must strive their hunger to appease Or else digestion stop.

Though money never he never knows, He has the priceless wealth Of strength behind his sturdy blows, And perfect, glorious health. And those who study divers tongues Might well their heads incline And learn to fill their fabled lungs In "Hub!"ing to an ax.
