

COMMERCE OF THE PACIFIC.

This commerce, which is at present almost monopolized by England, has cost its millions of lives and treasure, and has been the means of enriching more than one nation. Since the cession of California to the United States, it has been discovered that much of the trade which now, at such great risk, expense and delay, is prosecuted by way of Cape Horn, may be drawn into our own States by the construction of a trans-continental railway.

A PREGACHER SENTENCED TO DEATH FOR ABOLITIONISM.—The Memphis Argus, of the 14th, in which we find the following article, is responsible for the peculiar manner in which it makes its statements:— A Methodist preacher made his appearance in Osceola, Ark., a short time since, and wished to ventilate a quantity of his stock of abolition rhetoric.

LETTER OF HON. JOHN A. CAMPBELL.—This distinguished gentleman, Judge of the Supreme Court for the District of Alabama, has written a letter giving his views in regard to the present condition of public affairs. He arrives at the following conclusions: First, That the election of Mr. Lincoln does not afford sufficient ground for the dissolution of the Union.

A FROG STORY.—The Hartford Press prints the story about six ladies of Toledo swallowing live frogs daily, to cure them of consumption, and following it up with another, &c. A couple of gentlemen from a neighboring town, who were called to watch with a sick person, who had been given over by his physicians, and apparently had but a short time to live, after some conversation relative to the improbability of recovery by frogs inhaled by a sick person's breath, resolved to test it.

SENATOR WADE'S SPEECH.—The Washington correspondent of the Tribune writes as follows concerning the recent speech of Senator Wade in the U. S. Senate:— "The galleries were crammed, and every passage way thronged. The closing part of the speech especially was listened to with the most profound attention by nearly every southern senator. The impression left by it was of the most salutary character. A few more such speeches, and secession would be killed in its swaddling-clothes. Mr. Wade's treatment of the war aspect was most happy. He showed conclusively that there could be no war unless the seceding States declared it against the federal government."

GREAT REMEDY FOR COUGHS, COLDS AND KIDNEY DIFFICULTIES. WHITE PINE COMPOUND, PREPARED BY DR. J. W. POLAND & CO., GOLDFLOWN CENTRE, N. H.

The following testimonials will tell something about a medicine that is now becoming popular faster than any other article sold by druggists. Rev. J. R. Chase, of Rumney, N. H., under date of April 4, 1859, says:— "When your favor, (two bottles of White Pine Compound,) was received, I was suffering from a most severe cold. I took the Compound and was able to preach in two days. I consider the Compound an invaluable medicine. I do wish thousands who know nothing of its virtues, would become better acquainted with it."

Dr. J. W. Poland, Pastor of the Baptist Church at Goldfrown Centre, in a letter dated Feb. 1859, says:— "Some of my family have tried it, (the Compound,) with signal success. I believe it to be one of the best Cough Remedies ever prepared. Besides its value as a Cough medicine, I have good reason to believe it to be all it claims to be for Kidney Diseases, and Diabets."

DR. POLAND:—I wish to bear my testimony to the value of your White Pine Compound. You will remember how feeble I was at the time I called upon you in July last. My chief complaint was indigestible food. I suffered dreadfully from severe pain. You sent me a bottle of the White Pine Compound, and before I had taken two-thirds of that one bottle my pain had all left me. Through I had been afflicted with that complaint a long time, I have not had a return of it since, and have for many months past enjoyed excellent health. Yours truly, B. F. AIKEN.

THE popularity of these BITTERS is justly due to the purity of the materials of which they are prepared, and the delicate combination of simple alternatives, and tonics so well calculated to act upon every part of the digestive organs, and through them to reach and cure all complaints arising from a diseased condition of the Stomach and Bowels.

Certificates of A. A. HAYES, M. D., of Boston. It is well known that the medicinal effects of Protoxide of Iron result from its exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible. In the PERUVIAN SYRUP this desirable point is attained by COMBINATION with FERROUS SUGAR, and this solution may replace all the proto-carbonates, citrates and tartrates of the Materia Medica.
