REPUBLCAN NOMINATIONS.

FOR PRESIDENT,

JOHN C. FREMONT,
OF CALIFORNIA.

FOR VICE PRESIDENT,

WILLIAM L. DAYTON,
OF NEW JERSEY.

The Elections.

The State elections have passed off to the satisfaction of the friends of Fremont. We have received only partial returns, but enough to show that the Republicans have triumphed almost everywhere.—The State officers are elected by greatly increased majorities. Enough has been learned from the different districts to show that the Republican candidates for Congress are all elected, and everything promises a clean sweep for Fremont and Dayton in November. Our own county has been the scene of considerable excitement in consequence of the multitude of tickets run—five—and the efforts of all parties to show themselves the "Simon Pures." The result shows that Republicans, Americans, Democrats and radical Abolitionists, have got so much mixed up that it will be difficult to find themselves so as to be marked for future use. With the exception of one judge the ticket nominated at the Union Mass Convention at this place on the 13th of August, appears to have succeeded. We hope that all parties will feel satisfied with the result, and we think the friends of Fremont must be gratified with the very large vote cast for State officers and Representatives to Congress.

Apologetic.

Sir John Falstaff wouldn't give reasons "on compulsion"—we do. Hitherto we have had no occasion to give a reason for issuing a half sheet because we have never before made such issue. We are constrained to make such an one this week, not because any of those kind and earnest friends of a free press, who have threatened to break us down in our business, have diminished our facilities for a full number, but because the Lord Almighty has interposed and laid two of our workmen on their backs with ills that "flesh is heir to." On the principle that "half a loaf is better than none," we print a half sheet this week, and promise our patrons, for their patience which we bespeak, "heartier fodder," hereafter.

A Printer Elected to Congress.

Mr. E. P. Walton, editor of the Watchman and Journal, is elected to Congress from the 1st district. We have heard of no election returns which give us more pleasure than this. Mr. Walton is a self-made man; has been educated in a printing office from his boyhood, and is posted in all the mysteries of the "black art." We are glad to learn that Vermont printers are coming to be appreciated. He is now in the position which we have for years hoped he would attain. May he not prove ungrateful to our good wishes, by yielding to the demands of the slaveocracy; but stand up manfully for the right.

"AN EXPLANATION."—We have received a communication from "J. P. S.," explanatory of his former article entitled "The Victim," in which he states, in substance, that he did not design to be personal; that it was written as a lyceum essay while attending school in the month of March last, and read as such; that in July last while looking over some of his old manuscripts, he came across this essay which he re-wrote, making a few alterations in the phraseology, but none in the sense or sentiment. We do not publish the article, as it might provoke a reply from "A. M. R.," and we wish to end the controversy.

REPRESENTATIVES.—We have received returns from about ninety towns in this State, (Orleans County excepted) and all but TWO send Republican representatives. Those two towns send administration men. We have returns from but few towns in this County of the representatives elect, but shall give the whole next week.

☞ There will be a Select School kept in this place, to commence next week, under the charge of Mr. Dewey, who is a stranger to us. We hope for the credit of the place, and the welfare of the young, that it may be well patronised.

☞ Hon. Justin S. Morrill is returned to Congress from the 2d district, by an overwelming majority over Chase, his opponent.

CHAMLERLAIN AND MASON'S CONCERT AND EXHIBITION OF MECHANICAL PAINTINGS.—These popular singers are about to visit our County with their well known Exhibition. They will give concerts and exhibit their paintings at the following times and places:—

West Charleston, Monday, Sept. 8.

Derby Centre, Tuesday, Sept. 9.

Lake Bridge, Newport, Wednesday, Sept. 10.

Coventry, Thursday, Sept. 11.

Irasburgh, Friday Evening, Sept. 12, at Whipple's Hall. Doors open at 7 o'clock. Tickets 15 cents.

Albany, Saturday, Sept. 13.

Agricultural Ehxibition at Philadelphia.

The Philadelphians are wide awake in regard to the exhibition of the U. S. Ag'l Society, which takes place next month.—The local committee are straining every nerve to have the exhibition excel that held in this city last year. The following paragraphs from the Philadelphia *Inquirer* gives some idea of the extent of the preparations made for the exhibition:

"The preparations for this exhibition at Powelton, Twenty-fourth Ward, are progressing rapidly. A very large number of workmen are employed. A large portion of the fencing has been already put up. The grounds within the enclosure embrace an area of about fity acres, reaching nearly to the wire bridge on the North, and upon the South taking in the ravine and the old cemetery near the Fairmount bridge. Upon the East the fence runs along the high water line, taking in the river road, and using up the former camping ground. A public road, thirty feet in width, will be left on the West of the enclosures between the latter and the Pennsylvania Railroad.

The ground will be double in extent that of the State Fair two years since. Many of the sheds are nearly finished, and, they present quite a picturesque appearance with their gable ends jutting toward the fair grounds. There will be stalls provided for twelve hundred cattle.

A prominent feature of the grounds is the course for the exhibition of horses, near the sothern end. The track will be nearly level, and great care is taken to adapt it for the purpose for which it is designed. The ring is half a mile in circumference, and near it there will be a stand erected that will accommodate eight thousand spectaters. Inside this ring the tent of President Wilder will be located. The tents for the different departments of the exhibition, for the officers, for the banquet, and for the use of the reporters for the Press, will occupy appropriate places on the grounds. Some idea of the buildings to be erected may be formed from the fact that in addition to the tents and marquees, over half a million feet of lumber will be required in putting up the necessary temporary structures.

The entrance to the grounds will be at the northern and southern extremities of the area, and the exit gates will be located on the western side.

The exhibition will commence on the 7th of October. The Butchers' Association intend to celebrate the event by a grand parade, for which active and extensive preparations are making."

From the N. Y. Independent.

A Shower of Lies.

This campaign is to be one of eminent and abounding falsehood. It will rain and hail lies. They will come like gnats and locusts, like frogs and murrain. Let no man be alarmed. Col. Fremont, from this time to November, will walk in a storm of fire and brimstone, and nothing will prevent his being consumed but that which preserved Shadrach, Meshach and Abednego. God will preserve him.

It is a matter of gratulation that we have at length a man presented for the presidency of scrupulous honor, of manly bearing, of incorrupt morals, of heroic spirit, young, enterprising, proved in danger, of an excellent judgment, of great sagacity in practical affairs, remarkable for capacity to command and for habits of self-command—and above all, an unworn, unhackneyed politician.

Against such an one there can be bro't no political charges, no broken promises, no tergiversations, no conduct supple, evasive, unmanly, dishonest. He has no feuds, no party commitments, no political enmities. He is a clear, fresh, able, honest, heroic man. Let us try how it will seem again to see such a man president of these United States.

Therefore let Christians pray for him; let all men work; let lies breed and swarm and buz, and die like mosquitoes in a morass; but let every true man go right straight forward, talking, spreading papers, reasoning and persuading, and then let November be the judgment day of a faithless, treaty-breaking, slave-spreading party.

WASHINGTON, August 29. The disbursements of the Sergeant-at-Arms of the House of Representatives, on account of pay and mileage of members, amounts, up to this morning, to $1,097,000, or $400,000 more than it would have been under the former compensation laws.

Election Returns.

☞ The following are the returns of the election in this State, so far as received, for Governor, Members of Congress, and the Legislature. At the last election, the following candidates were voted for for Governor, viz: Royce, Republican; Clark, Democratic; Slade, Know Nothing; with scattering votes for a Temperance candidate. But two candidates were voted for this year, viz: Fletcher, Republican, and Keyes, Democratic. The majority for the Republicans last year over the Democrats was about 9,000. From the towns received, there is a large gain on this majority.

Buchanan's Position.

Hon. A. G. Brown, senator from Mississippi, has written a letter giving an account of the interview between Mr. Buchanan and the committee apointed by the Cincinnatti convention to notifiy him of his nomination. Mr. Brown says:

"He (that is, Buchanan) was explicit in his remarks on the slavery features, saying that the slaery issue was the absorbing element in the canvass. He recognized to its fullest extent the overshadowing importance of that issue and if elected, he would make it the great aim of his administration to settle the question upon such terms as should give peace and safety to the union, and security to the south He spoke in terms of decided commendation of the Kansas bill, and as pointedly depricated the unworthy efforts of sectional agitation to get up a national conflagration on that question. After the passage of the compromise measure of 1850, the Kansas bill was, he said, necessary to harmonize our legislation in reference to the territories, and he expressed his surprise that there should appear anywhere an organized opposition to the Kansas bill, after the general acquiescence which the whole country had expressed in measure of 1850." * * *

The letter then goes on to say that,

"After the formal interview was over, Mr. Buchanan, said, playfully, but in the presence of the whole audience, "If I can be instrumental in settling the slavery upon the terms I have named, and then add Cuba to the union, I shall, if president, be willing to give up the ghost and let Breckenridge take the government."

Such is the position of James Buchanan, as defined by himself.

POLITICAL RUMOR.—New York, August 29. It is rumored that efforts are being made to induce Gov. Johnston to decline the nomination of the Vice Presidency in favor of Mr. Dayton. The matter causes considerable excitement among the North Americans, who declare, in that event, they will turn their whole strength over to Fillmore. Some deny the truth of the rumor, and declare that Johnston will not forsake the North American cause.

From California.

Dr. Alexander Randall, an old settler of San Francisco, was shot on the afternoon of July 24, in a bar room of the St. Nicholas Hotel, by Jos. Hetherington.—A dispute existed between the parties relative to money transactions.

Hetherington was arrested by the police of the Vigilance Committee, tried, and executed on the 29th.

Brace, the murderer, was hung the same day.

Several thousand troops were under arms in the vicinity of the gallows.

Edward Bulger, one of the first exiles of the Committee, had arrived from the Sandwich islands, was again arrested by them, and shipped to New York in the Illinois.

Ned McGowan had not been captured.

Some activity among the vessels of war in the harbor had led to fears that the federal government were about to interfere with the Vigilance Committee.

The superintendent of the Branch Mint had notified employees who are members of the Vigilance Committee, to either withdraw from the Committee or leave the Mint.

The Peruvian slave ship Teresa Perry put into San Francisco, June 30.—She had 150 Chinese, kidnapped at Macao, destined for the Peruvian mines.—Attempts were made to detain her, but she got off.

Advices from Salt Lake, of June 23, state vegetables had been nipped by frost. The grain crop had failed, and fears were entertained the people would suffer for want of food.

Advices from the Sandwich Islands are to July 5. A severe shock of an earthquake took place on the eighth of June at Hawaii. The stream of lava from Mauna Loa had turned southward, leaving Hilo safe.

More Outrages in Kansas.

LAWRENCE, K. T., Aug. 20. (Correspondence of the New York *Tribune*.) Another brutal murder took place near Leavenworth yesterday. A gentleman named Hopps or Hupps, from Ohio, came here last week and left his wife and returned to Leavenworth for his goods, etc. When he had got a mile or two this side of that city on his return, he was overtaken, it is supposed shot and scalped, and in this condition was found by some troops who happened along shortly afterwards. No clue to the murderers has yet been found, but it is supposed that he expressed his sentiments to freely in Leavenworth.

The Rev. Mr. Bird came from Leavenworth to-day for his wife, who is a sister of the Rev. E. Nute, pastor of the Unitarian church in this city.

Another murder took place in Westport yesterday of a man named Jennison, a Lawrence teamster, who was on his way home from Kansat city with a load. He was also scalped, and his load and team taken to Milton McGee's house.

On these murders I will make no comments. I only chronicle them as being a part of our history.

Henry J. Sombre, Esq, who was killed on Saturday last, in the battle of Titus Camp, was a highly respected and popularly known member of the bar in Richmond, Ind. He was unmarried and was about 30 years of age. He was buried yesterday with military honors, and his remains lie side by with those of Barber.

The Passage of the Army Bill.

WASHINGTON, Aug. 30. Numerous letters from prominent Republican in New York and elsewhere, was received by their friends, and conduced much to put an end to the contest between the Senate and the House in regard to the army bill. The opposition had the power, if they had chosen to exert it, to have killed the bill after its return to the Senate. The votes of West of Connecticut, Filward of Pennsylvania, Miller of New York, and Banks of Massachuetts, would have defeated the bill; but, influenced by the earnest appeals of prominent Republicans, it was deemed best to throw the whole responsibility upon the administration, and the Senate's amendment was acquiesced in by a majority of four.—While the vote was being taken in the House on the final passage of the bill, the Senators left their seats and went over in a body to the House, and when the result was announced a general congratulation prevailed over the whole House of Representatives. The Republicans, if possible, showed the greatest joy. But few members left town this evening.

During the hearing of excuses for absentees in the House, to-day, the following members were not represented as having paired off: Herbert, Burlingame, Childs, Paine, Reade, Foster, Milward. Although Mr. Brenton was suffering with illness he was conducted to his seat by his friends when his name was called.

☞ The Greenfield Gazette believes "there is not a leading Whig in this (Franklin) county who supports either Fillmore or Buchanan for the Presidency."

PRO-SLAVERY ACCOUNTS.—*St. Louis*, Sept. 2. Letters to the *Republican*, dated St. Josephs, the 27th ult., state that Maj. Baldwin, agent of the Kockapoo Indians, has just returned from a visit to the Indians. He reports the country between Grasshopper and St. Josephs, full of armed bodies. Free State men were moving along the Western border of the Kickapoo Reservation. Capt. Scott, with a hundred men, had moved in that direction and other forces were to join him, to cut off further accession in that quarter to the ranks of the Free State men. The pro-slavery party were also stationing strong bodies of men along the Northern line of the Teritory, to prevent the ingress and egress of any Free State parties there, and along the Missouri river, and it is so well fortified that no Free State forces can approach in that direction. The pro-slavery men are arranging plans for a speedy concentration of their forces upon Lawrence. The excitement in the Teritory and border counties continues.

PERILOUS CONDITION OF THE FREE STATE MEN.—Chicago,—Aug. 30. We have the following intelligence from Kansas dated 23d ult. Three thousand Missourians are collected at Westport and Kansas city, and it is expected they will march on the thirtieth in different detachments along both sides of the Kansas river to surround the free State settlements all the way West as far as Topeka. Gen. Richardson had marched North ostenibly to intercept and capture Gen. Lane, but actually to prevent assistance coming to Lawerence through Nebraska. No communication could be had with the river except at the risk of life. Provisions were very scarce at Lawrence, and the citizens had asked a goverament escort to obtain supplies but were refused. An attempt was to be made to obtain supplies under a guard of the free State force.

THE HERO OF SAN JACINTO ON DISUNION. Gen. Houston administered a direct hit at Mr. Fillmore in his closing speech in the Senate, last week. "They tell me," said the brave old man, "if Fremont is elected, forty thousand bayonets will bristle about the Capitol—that the South, in fact, will secede. Mr. President, I scorn the suggestion! There will be neither bristling bayonets nor secession. If Col. Fremont shall be elected by a majority of the people, though I am not his supporter, I shall respect the majority of the people; and to Col. Fremont, as the Chief Magistrate of their choice, I shall pay my respectful homage."

And so will the rest, North and South.

FREMONT IN CALIFORNA,—An old democrat writes from California to the New York Herald:

"If you want California and the adjoining teritory on the Pacific coast to remain an integral part of this Union, you must elect J. C. Fremont for our next president, for he is our only hope of securing railroad communication with the states. There is not the least doubt that this state will give Fremont an overwhelming majority. The people have become completely disgusted with the democratic party—so much so that they begin to think it would be to our interest to have a sperate republic on this coast, Every man who ackowledges himself as belonging to the democratic party here is looked upon with suspicion; but luckily, outside the office-holders, there are but few of them."

WASHINGTON, Aug. 29. (Correspondence of the *N. Y. Herald.*) The Democratic Senators met in caucus this morning, and resolved unanimously to continue in session till the 4th of March next, unless the Army appropriation bill should be sooner passed. It was urged that as the members are now receiving annual salaries, the country is entitled to their time. A move is on foot to bring in another Army bill, with Mr. Crittenden's bill as a rider.

☞ The Portland Advertiser gives fair warning of the pains and penalties which will be visited upon illegal voters at the coming election:—

"It is the deliberate determination of the Republicans of this city and vicinity, to prosecute every man who may be guilty of illegal voting at the coming election. Committees have been appointed to watch the polls for that purpose.—Special attention will be paid to any one who may fraudulently attempt to avail himself of any one of the two hundred naturalization papers sent to this city *from Boston* to facilitate fraudulent voting."

☞ Paschal D. Craddock, a resident of Jefferson County, Ky., was called up from his bed on Wednesday night by a negro servant of one of his neighbors, and the next morning was found near his house shot through the body and partly devoured by swine. Craddock had been previously warned to leave the State, and the time was up within 36 hours.

BOAT SUNK ON THE HUDSON.—About 4 o'clock this morning (Sept. 1) the steambont Knickerbocker, while on her way from Albany to this city, ran foul of the mast of a sunken vessel and immediately began leaking at a rapid rate under the ladies' cabin. The vessel was at the time near Fort Montgomery, and by crowding on a full head of steam she was run into Montgomery Creek, where she soon after sunk. There were about two hundred passengers on board, all of whom were saved by the sloop Mechanic, which happened to be in the vicinity. Twenty two horses and a large number of sheep were drowned.

The boat, which formerly run on the Sound in the Norwich and Worcester line, was valued at over $60,000, and her cargo is estimated at $20,000. Capt. Nelson, who with his crew acted with great presence of mind, thinks that the vessel can be easily raised and repaired.

KANSAS DECLARED IN A STATE OF INSURRECTION.—St. Louis, Sept. 1.—We have advices from Kansas to the 27th ult. The acting Governor, Shannon, was at Lecompton, and on the 26th issued a proclamation declaring the Territory in a state of insurrection, and calling on all law-abiding citizens to aid and assist the legal authorities to preserve the peace and protect the persons and property of citizens.

Gen. Lane is understood to have three parties stationed at different points in Iowa, for the purpose of receiving supplies or making his escape, in case he is compelled to flee.

ITALIAN ENTERPRISE. The well informed Genoa correspondent of the Newark *Advertiser* says:

"Early in the next month the first steam packet is expected to in augurate the line between this port and the flourishing Italian colonies of South America. The first steamer for New York will be ready probably by the 1st of January. Mr. Brett is now engaged in running the line of the sub-marine telegraph between the island of Sardinia and Algeiers. This work will also be accomplished before the close of the year. We learn by telegraph that the contracts with the Roman government for the projected railroad from Civita Vecchia across the peninsula to Ancona, on the Adriatic, have at length been signed and that the enterprise will be spedily executed. The Pope has also recently chartered a Pointifical Steam Navigation Company for ten years. So you see there is still hope for Italy."

A HAPPY DEATH.—The Rev. Moses Cheney, of Sheffield, died in that place on the 9th ult. He was a Baptist clergyman of good and regular standing, and was the father of the "Cheney family" so extensively known as vocalists. A line from a member of the family informs us that the old gentleman, who was himself a great singer, died most happily.—Moses E. Cheney, so famous as a tenor singer, at the moment when it was tho't his father was dying, commenced singing the "Dying Christian." During the singing the old gentleman beat time with both hands, and when Moses closed with the words, "O, Grave! where is thy victory—O, Death! where is thy sting," he gave a loud amen, and expired.—*Vt. Journal.*

☞ The Memphis (Tenn.) Eagle has a report from Linden, Ark., that a difficulty occurred between a number of gentlemen, residents of that place, which resulted in the death of six of the party. The disturbance grew out of a political dispute.

"I DIGEST!" SUCH IS THE TRUE MEANING of the word "PEPSIN," or of the two Greek words from which it is derived. This is the significant and appropriate title of the TRUE DIGESTIVE FLUID, or GASTRIC JUICE, prepared by Dr. J. S. HOUGHTON, of Philadelphia, from the fourth Stomach of the Ox, for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy Stomach. No art of man can equal its curative powers. It renders GOOD EATING perfectly consistent with HEALTH.
