Foreign News.

The feature of the news which attracted most attention is an official paragraph in the Mouiteur, complaining that the English press publishes calumnies against the French Government, and holding out a menace that a continuance of such conduct will break up the Anglo-French Alliance.

This paragraph has caused excitement both in England and France, having even affected the Bourse, and it is reported that the British government will ask an explanation of the threat to dissolve the alliance.

Respecting the Neapolitan difficulty, the only additional progress is that the French embassy, as also probably the British, left Naples on the 26th.

Count Walcki's official correspondence with the Neapolitan government is published.

The English fleet is at Malta, and the French at Touron.

A German paper says that the squadron will go to Naples in three weeks, if matters are not settled.

There is nothing really new in respect to the complicated relations of the Danubian Principalities.

It is denied from Vienna, but re-asserted from France, that the Porte has summoned the Austrians to quit. In this connection are two reports, viz: 1st.—That the Congress of Paris is not likely to meet soon, owing to the non-assent of England; 2d. that Russia, inspired by suspicion of a secret understanding between England and Austria respecting the Principalities, demands a Russian squadron to enter the Black Sea on the same terms as the English fleet, now in those waters.

The entire Turkish Ministry has resigned. The event is attributed to the intrigues of Lord Stratford to bring in Redschid Pacha as Vizer.

No news from Spain except a contemplated increase of the army.

Letters from France are unsatisfactory. The demand for money continues unabated.

LATEST.

[By telegraph from London to Liverpool.]

LONDON, Tuesday Evening. Variation in the funds to day slight, the market closing the same as yesterday. The supply of money in the discount market was more liberal, but many holders are still unwilling to lend. All the money offered in Stock Exchange found full employment at 5 1-2 a 6 per cent.

The final quotations on the Paris Bourse to day were 66f. 55c., for money, showing a recovery of 1-2 per cent.

There is no decrease to day in the bullion of the Bank of England.

Private letters from Paris are less discouraging. The pressure of Hamburg has fully subsided, rates 7 per cent.

A dispatch from St. Petersburg says railway concessions have been granted a French company for 80 years, under a guarentee of 4 1-2 per cent., with an additional 1-2 per cent., for sinking fund. The total sum required is £40,000,000 sterling, and will weigh down all Russian securities in our market, and in some degree every other enterprise.

VIENNA.—Tuesday Evening. The Austrian correspondence denies emphatically the statement that the Porte had protested against Austria occupying the Principalities.

Advices from Constantinople state that the Ministry resignation remain unaccepted.

The Late Gales on the Lakes—A Propeller Supposed to be Lost.

OSWEGO, Nov. 10.

It is feared that the propeller J. W. Brooks, from Lake Erie for Ogdensburg, was lost on Lake Ontario in the late gale, with all on board. Parts of a hurricane deck, supposed to belong to her, came ashore at Henderson, on Friday, and quantities of flour and lard were seen yesterday, floating about between Sackett's harbor and Kingston. The Brooks had a full cargo of produce, and a crew of twenty men. She probably had some passengers also.

The men who were in so perilous a situation on Saturdy, aboard the schooner J. G. Deshler, have been rescued.

LIQUID INDIA RUBBER.—India rubber cut into thin strips and immersed in spirits of turpentine in a close vessel and kept warm, will dissolve, and in that state can be put on with a brush, forming a water proof coating for anything to which it is applied. It has the objection, however, of keeping its tack—stickness—and in this respect it is seldom used, except for coating wood or other work placed in water.—*Scientific American.*

☞ By recent dispatches to the Navy Department, from Commander Swartwout, of the United States steamer Massachusetts, the important fact is communicated of a discovery of valuable coal on the Straits of San Juan de Fuca. This discovery was made by Capt. J. H. Thorndyke. About four tuns of it were dug out by Indians and tested on board the Massachusetts.

MAJOR POORE AND HIS BET.—The Worcester *Bay State* says:

"The Major isn't so much of a Yankee as we took him to be. The way we should have paid that bet would have been to hire one of the empty freight cars on the Georgetown Railroad—a covered one, perhaps, if it happened to rain—and wheel the barrel of apples from one end of it to the other, and *vice uersa*, during a railroad trip from Newburyport to Boston. Time, say two hours. Labor comparatively trifling to that of surmounting the turnpike hills, oven if the Georgetown company are only able to 'to put it through by daylight.'"

Major Poore is no such person. He does things "on the square."

"I DIGEST!" SUCH IS THE TRUE MEANING of the word "PEPSIN," or of the two Greek words from which it is derived. This is the significant and appropriate title of the TRUE DIGESTIVE FLUID, or GASTRIC JUICE, prepared by Dr. J. S. HOUGHTON, of Philadelphia, from the fourth Stomach of the Ox, for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy Stomach. No art of man can equal its curative powers. It renders GOOD EATING perfectly consistent with HEALTH.

Success Unparallelled!!

DRED;
A tale of the Great Dismal Swamp
BY HARRIET BEECHER STOWE.
2 vols. 12 mo. $1,75.

CERTAIN politicians, interested in the support of the "peculiar institution," have endeavored to persuade the public that Mrs. Stowe's work is artistically a failure, and that it has produced no profound impression on either side of the Atlantic.

But the publishers are happy to state that of the many hundreds of American notices, which they have received, the vast majority have been decidedly favorable, most of them enthusiastic. *And the sale thus far has exceeded that of any work of fiction ever published,* the

SIXTY-EIGHTH THOUSAND SET

of two volumes, being now in press.

In England the success has been even more wonderful. The press there, with but one or two exceptions, acknowledge the power and genius of the author, and in terms of which any living writer might be proud. And during the twelve days succeeding its publication, no fewer than

SIXTY THOUSAND COPIES

were sold. The universal voice of literary men, now places Mrs. Stowe among the foremost authors of the age, and neither partisanship, nor an austere religious bigotry, can ever deprive her of the laurels she has so nobly earned.

STATE OF VERMONT,

ORLEANS DISTRICT, ss.

AT a Probate Court holden at Irasburgh within and for the County of Orleans, on the 28th day of October, A. D. 1856. Lewis Holmes, guardian unto ANDREW J. JENNESS, an absconding person, late of Irasburgh, personally appeared in said Court and represented that the personal estate of his said ward is insufficient to pay the expenses of maintaining his said ward's family, and that his said ward is possessed of certain real estate in Albany, to wit: a part of lot No. 188 in said Albany, being off of the north half of said lot, supposed to contain one acre—together with the buildings thereon: being the homestead of said ward. And prays for license and authority to sell said real estate for the purpose of applying the proceeds of said sale to the support and maintenance of his said ward's family.

Therefore, it is ordered by said Court, that public notice be given to all persons concerned therein, to appear before said court at a session thereof, to be held at said Irasburgh, on the 26th day of November, 1856, that they may be heard in the matter and show cause why license should not be granted as aforesaid.

A. E. SMITH'S
ORIGINAL AND GENUINE "ELECTRIC OIL."

FOR RHEUMATISM, NEURALGIA, STIFF JOINTS, &C.

I do not propose to cure *every* disease, only a *certain class* named in my directions. I will forfeit $100 if the *Electric Oil*, sold at CORNER WALNUT & 8th STREETS, fails to cure a single case of Rheumatism or Pains in the Back or Limbs, Piles, Sores, or Burns, Fever Sores, Ulcers, Caked Breast, Sore Nipples, Bronchial Affections, Swelled Glands, Felons, Stiffness in the Joints or Neck also, Palpitation. To remove all soreness or swelling in from 5 to 20 minutes, plied to any patient, male or female, in the Almshouse or any public institution in the city.

A CARD.

TO DRUGGISTS AND MERCHANTS OF VERMONT:

For the convenience of Dealers and Individuals of this State, I have appointed Mr. FRED. E. SMITH, of Montpelier, my wholesale Agent, and he will be at all times supplied with all sizes of my "*GENUINE ELECTRIC OIL.*" I would urge upon all dealers in Medicine to order from Mr. Smith a supply of my Oil at once, that they may be able to answer the earliest demands. He will also furnish each dealer with Show Cards, Posters, and 1000 Circulars, with their name printed thereon as agent. (Read the following proclamation.) A. E. SMITH, Chemist, Phila.

$100. PROCLAMATION.

To the Mayor and Citizens of Philadelphia and the Union:—

I propose to test my Electric Oil on any case of Rheumatism, Neuralgia, Paralysis, Asthma, Piles, Gout, Fever and Ague, Tetter, Felons, Swellings of all kinds, Cramps, Deafness, (and some other cases that I have treated successfully,) and to forfeit to any public institutions the mayor may name $100, if my Genuine Electric Oil does not make an effectual cure in each case.

Dr. J. C. Van Doren, No. 8, Fall st., Trenton, N. J., an old and experienced gentleman, came to my establishment on Saturday, and said: "He had never failed in a single case of Rheumatism with my Oil." He buys several dozen at a time, and has more than a year past. He says "it is much in *using the Oil right.*" I find I have no trouble in curing up Piles effectually, and I do not use injurious medicines. My pure "Electric Oil" is enough. Be careful of the counterfeits, young scamps who use my certificates to sell and deceive the people. Only one Depot, that is N. E. corner Walnut and Eighth street, Philadelphia. All my bottles must have my name in the glass. All the cures advertised in this paper a year or two past were made by my Oil. Come and see the certificates of 500 citizens. A. E. SMITH, Chemist.

FRIENDS OF HUMANITY.

To you (always disposed to aid the suffering) it may appear incredible, after in vain trying all the 'wonderful' medicines of the day, that one application externally and a few drops taken internally, of my (genuine) "Electric Oil," will so very suddenly relieve the sufferer from the most violent pains; yet it is a fact, as testified by good men and good women, whose names are at my office. Not any have used it without deriving

within an hour, and many are they who have been perfectly cured of Rheumatism, Neuralgia, Spinal and Bronchial Complaints, Croup, Tic Doloreux, Felons, Cramps, Piles, Sprains and Bruises, Cuts and Wounds, Swelled Glands and Stiff Joints, Scrofula and Erysipelas, Sore Nipples and Swelled Breasts, Salt Rheum and Cankers in the mouth or stomach, Eruptions and all kinds of Sores, (Headache or Toothache in five or ten minutes;) also, Chilblains or Sore or Tender Feet. It will be seen that

but only a certain class of complaints; all of which are curable on simple Electric and Chemical principles, through the affinities of my 'Electric Oil,' and the Nerve Vital Fluid of the human body.

This modus operandi of progressing and ever changeable Rheumatic pain, is imperfectly understood by mankind: whether its location is the membrane or covering of the nerves, inflamed by derangement, (like the coating of an inflamed stomach,) or some disturbance of the electric fluid itself, certain it is that my 'Electric Oil' is readily absorbed into, if it does not actually supply a deficiency in, and equalize the circulation of, that great principle of living organization.

Let the skeptical and the humane look into this matter—for if these things are 65
