Paine's Celery Compound

Cure's
**DYSPEPSIA, INDIGESTION,
AND STOMACH TROUBLES.**

The tortures and evils of dyspepsia and indigestion are experienced by thousands at this time. The dyspeptic's train of evils may be enumerated as follows: feelings of dizziness, languor, nervousness, sleeplessness, headache, distension of the stomach, loss of flesh, difficult breathing, and the action of the heart is seriously affected.

All forms of dyspepsia are quickly banished by the use of Paine's Celery Compound. The use of this marvelous medicine allays the inflammation of the nerves centered about the stomach; it opens up the sewers of the body and removes all waste matter; it cleanses the blood; it makes new nerve fibre; it restores digestive power, and promotes bodily strength and activity. Mr. Fred. Koss, Clarendon, Iowa, briefly writes about his happy experience with Paine's Celery Compound as follows:

"It gives me great pleasure to testify to the merits of Paine's Celery Compound. I can candidly and honestly say it is the best medicine in the world. Two years ago I was suffering from indigestion and nervousness, and was so run down that I could hardly walk without help. I took several bottles of Paine's Celery Compound and got better almost from the first dose, and have had no use for medicine since. I was completely cured."

When a hat, a good dress, or other garment is a little faded and old in fashion it need not be thrown away. Color it with **DIAMOND DYES.**

We have a special department of advice, and will answer free any question about dyeing. Send sample of goods when possible.
Direction book and 45 dyed samples free.
DIAMOND DYES, Burlington, Vt.

Bellows Falls Times

THURSDAY, MAY 7, 1903.

New Hampshire

John Clough, 60, of Pelham, armed with a baseball bat, attempted to kill his wife and daughter early Thursday, and he is under arrest. The women were made unconscious by repeated blows. It is thought that Clough was temporarily deranged. He was held under \$1000 for a hearing. The women will not die.

It is understood at Concord that it is the purpose of those who engineered the nomination of Nathaniel J. Bachefer for governor, to make him the immediate successor of Rev. Charles S. Markland as president of the agricultural college at Durham. It is a position for which he was named as a candidate when the college was removed to Durham and given a separate organization 10 years ago, but Dr. Markland was chosen.

The body of Patrick J. McMillen, a shoemaker, who had been missing since last November, was found, bearing marks of violence, in the Cochecho river at Dover last Thursday. The coroner decided that death was due to violence. One day last October McMillen drew \$110 from a Dover bank and was not seen afterward. Only six cents were in the pocket of his clothing, but his gold watch was in the vest pocket.

The commencement orators of Dartmouth college for 1903 have been announced by the faculty as follows: Val edictory, Stanwood Cobb of Newton-Highlands, Mass., salutatory, Ernest Rutherford Groves of Rochester, N. H.; orations, Henry Erich Kasemer Ruppel of Brooklyn, N. Y., Louis Henry Haverly of Normal, Ill., Harold Elmo Smith of Lebanon, N. H., William Hand Woolverton of Washington, D. C., Howard Leon Ropes of Methuen, Mass., was entitled to a commencement part, but as he will not be present the next highest was chosen. Only six speakers participate in the exercises.

A Little Early Riser

now and then, at bedtime will cure constipation, biliousness and liver troubles. De Witt's Little Early Risers are the famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by The Corner Drug Store.

Ben Mere Inn Burned.

The Ben Mere Inn at Sunapee Harbor, the largest hotel on Lake Sunapee, was gutted by fire Wednesday night of last week.

ALL RUN DOWN

There is no Disease so prevalent, yet so Dangerous as Kidney Trouble

You have read thousands of times how the blood is filtered through the Kidneys and how absolutely necessary it is that your Kidneys must be kept healthy. We advise you in all candor to try Dr. Gossom's Kidney and Bladder Cure. If you take it according to directions, you will be free from all Kidney and Bladder Complaint, that is certain.

Miss Maud McColloch 1103 E. 5th St. Dayton Ohio, says: I was sick and suffered with my Kidneys quite a good deal. I tried nearly everything and got no relief until I tried Dr. Gossom's Kidney and Bladder Cure which helped me at once. I think it is a good medicine.

ANDREWS' DRUG STORE, Bellows Falls, Vt.

TAKEN IN BATTLE

THE THRILLING EXPERIENCE
OF CAPTAIN WESTBROOK.

For a Year After His Capture He Was
Moved From One Prison to Another
And Was Finally Exchanged.

A Confederate force under command of Brigadier-General John A. McAnusland had attacked, on July 3, 1864, a block-house ten miles west of Martinsburg, W. Va. Captain N. S. Westbrook with the remnants of Companies B and J of the 15th Ohio Volunteers, made a gallant defense but when a six-gun battery was brought to bear upon his position, further resistance became a useless sacrifice of life. For a year after his surrender, Captain Westbrook, who now lives at Ripley, Ill., was confined in southern prisons. In telling his experience, he says:

"They took me from one place to another till I had been in nearly all the prisons of the confederacy and, by the time I was exchanged at Annapolis in the spring of 1865, I was reduced to a physical wreck. The exposure caused sciatic rheumatism which became chronic and did not leave me until 30 years afterward when I took Dr. Williams' Pink Pills for Pale People and was cured."

"The disease affected my entire system. In addition to the agonies of the rheumatism I had indigestion in its worst form, together with kidney trouble and heart failure. I was getting thoroughly used up."

"How did you come to take Dr. Williams' Pink Pills?" was asked.

"A neighbor of mine, James M. Stout, was cured of rheumatism by this remedy when he was so bad that he could not straighten up. So I thought what cured him would cure me. And I was right." Rheumatism is a disease of the blood. External applications may afford temporary relief, but to cure the disease it is necessary to treat it through the blood. Dr. Williams' Pink Pills for Pale People go directly to the seat of the disorder, purifying and enriching the blood by eliminating poisonous elements and renewing weakened nerves. They are sold at fifty cents a box, or six boxes for two dollars and a half, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Schenectady, N. Y.

tine upon cattle, sheep, and other ruminants and swine, in the state of Vermont, imposed on account of foot and mouth disease, be modified, and that said animals and their products may be shipped on otherwise removed from said state with all restrictions other than may be imposed by the authorities of the states to which said animals or products are destined; provided, however, that until further orders, said animals shall not be removed or be allowed to move from the townships of Ludlow, Cavendish, Weatherville, Weston, Andover, Chester and Springton, in the county of Windsor, and the townships of Londonderry, Windham, Grafton, Rockingham, Jamaica, Townshend and Athens in the county of Windham, except after inspection by an inspector of the bureau of animal industry and only when accompanied by a written permit issued by him.

Dr. Marion Imes, an inspector of the bureau of animal industry, will be stationed at Chester, to whom applications might be made for inspections of animals and permits for the movement out of the townships mentioned.

BRATTLEBORO.

A meeting of the Brattleboro Baseball league was held in the Young Men's Christian association rooms Wednesday night of last week. Communications were read from the Dunham brothers and the Hydrus path club, stating that they will not enter the league the coming season, as has been anticipated. This leaves three teams to compete for the championship, the Young Men's Christian association, the Vermont Wheel club and the Catholic union. While as yet the permanent committee has not been chosen and no schedule made out, it is probable that the first league game will take place Saturday, the 9th.

Charles Allen, an employee of the American Express company, received a painful injury Wednesday last week near the C. H. Eddy bottling works on Frost street. Mr. Allen jumped from the delivery wagon, when his ankle turned and he fell to the ground, breaking two bones in the right ankle. The ligaments of the leg were strained, and it is feared that he will be confined to the house for several weeks.

Brattleboro branch, No. 1, of the international Sunshine society, held a successful bag sale at the home of Mrs. Florence G. Estey Thursday evening. Mrs. Cynthia Westover Allen of New York, the national president, spoke at length on the work and aims of the society. Mrs. Allen writes the ladies in the Sunshine department of the Ladies' Home Journal and is also editor of the Sunshine Bulletin.

Ernest Waterman will be in the Vermont savings bank for the month of May, during the examination and verification of the bank-books.

Charles E. Graffman, proprietor of the Brooks House pharmacy, has bought the David A. Young house on Chapin street. Miss Schacksober has returned to her duties as librarian, after a several weeks' illness at her home in Bennington.

Capt. H. H. Sargent of the 2d United States cavalry inspected company I at Festival hall Tuesday evening.

NURSERY NOTES.

Don't encourage little children to drink tea or coffee. It is very injurious to the nerves.

Don't use fear as a compelling agent toward little children. T. rats of the boggy man and ghost stories make a child cowardly.

Don't forget to dry the hands and feet of the child well. Dampness between the toes may cause soreness or even a corn, which may be troublesome to get rid of.

Don't neglect to keep the feeding bottle properly clean. A very little secretion in the bottle may cause serious trouble and perhaps result in the death of the child.

Don't use artificial means to send a child to sleep. Walking about with it, rocking it and joggling it are also bad habits. A child should be taught to go direct to its rest.

Don't let everybody take baby up and kiss him. The latter is most injurious and the former dangerous. He may be strained in lifting by unaccustomed hands, and he certainly will not like it.

Useless Belongings.

Give away what you don't really need in your house. Don't let such things accumulate. They will soon fill attic and cellar and overflow into other rooms, where they do no one any good. You are not likely to want them again, and it is a nuisance to have them around. Long ago we should have been obliged to get a bigger house for our growing family if I had followed my husband's thrifty plan of saving things, says a writer in Good Housekeeping.

At first he thought I was extravagant, but now he acknowledges that if other families would likewise rid themselves of "trunk" they are not likely to use again in a thousand years, housecleaning would be robbed of half its terrors. Thrift is a homely virtue that easily degenerates into miserliness. Some of us hoard old clothes, unused furniture, discarded bric-a-brac and the like, simply because that habit has become so fixed we are too stingy to give such things away to worthy folks who need them. Yet we don't mean to be stingy and are ashamed to discover that we are so.

A Health Hint.

No charm that a woman can possess can atone for a tainted breath. It suggests physical disorder or a lack of inward cleanliness. Defective teeth, too, are the cause of offensive breath. It should be the object of every woman of refinement that her personality holds the fragrance of absolute purity. This is impossible without healthfulness and cleanliness, and therefore these two prime factors of health and beauty should be cultivated unceasingly. It is said that oriental women rinse their mouths night and morning with lotions that impart a delicious odor to the breath. Cinnamon has antiseptic as well as aromatic properties and is highly valued by the Japanese for purifying the breath. The medicinal value of cinnamon is too little known. It destroys infectious microbes and when freely drunk in such ways as cinnamon tea it prevents malaria.

Girl Friendships.

After a girl is twenty she is apt to make friends of married women, women other than those she has known in early girlhood and who have since married. On these married friends she often lavishes affection and admiration in larger quantities than she has before given her girl friends. Such friendships are, if their objects are the right kind of women, and a careful mother will prevent an intimacy with any other kind, of great benefit to a girl, showing her a wider sphere of woman's influence than she has yet investigated. And anything which widens the appreciation and opens the intellect is valuable.

Baby's Ears.

Few mothers and fewer nurses notice when they lay a baby down whether the soft little ear is crumpled under or lying close back to the head, and they rarely take the trouble when they hold a baby to see that its ears are in the natural position, but will hold it for the longest time with the head pressed against their bosom and the ear turned forward instead of back. "As the twig is bent the tree is inclined" applies with as much force to the physical as to the moral growth of a child.

Keeps Off Ants.

It is sometimes difficult to keep raisins, figs and dates away from the inquisitive little ants and roaches, but this is easily accomplished by putting them in paper bags that have been well brushed over with strong borax water and dried before the fruit is put in. The little pests do not like the borax and will not gnaw through the sack when thus prepared.

Buying Meat.

It is a most wasteful performance to buy meat in small pieces. Recent experiments have shown that a piece of meat weighing one to one and three-quarter pounds lost no less than 45 per cent of its weight in cooking, while in pieces of five to six pounds the loss was only 39 per cent. In still larger joints the loss was even further reduced.

Plaster Casts.

The safest way to clean a plaster cast is to cover it with fuller's earth and fine, dry whiting, wrap it in a cloth and leave it for several days. Brush the powder away carefully, and with it will be removed much if not all of the grime.
