THERE IS A BEAN

called the kidney bean, because it is shaped somewhat like your kidneys; and the kidneys are shaped somewhat like the big ears you see on the heads of some beans. In the body the kidneys are located about (as a sailor would say) amidships of the abdomen, one on the right side and one on the left, their concave edges turned inward. They are scavengers, house-cleaners. Their business is to throw out of the body poisons dissolved in or mixed with water. Treat them intelligently and well and they will work seventy years without a grumble; but give them more than they can do, load them with liquor and beer, and presently you will have what we call "Kidney Trouble"; and a painful, deadly disease it often is. Yet it may be deadly without being painful—like Bright's disease. It is a snake that crawls through the grass and bites you before you know he is in the neighborhood. Hosts of people, men, women and children, have more or less kidney trouble, and it realizes it until it gets very bad. Here is what two say:

For the last six months Mr. John H. Schwab, of Albany, N. Y., has worked every day. Previously he spent weeks in hospital under the care of physicians. Kidney trouble it was, and he got no relief. Then he tried the Cal-cura medicine, Cal-cura Solvent, discovered by Dr. D. W. Kennedy. It cured what has made me feel ten years younger and I will tell you. It was the medicine discovered by Dr. David Kennedy, of Keene, N. H., and it cured me. For years I was troubled with my kidneys, but I am all right now." So said Nathaniel Tompkins, of Windham Centre, N. Y., October 1, 1899.

They were fortunate at last. But don't wait. Use the remedy now—Dr. David Kennedy's Cal-cura Solvent—nothing else.

Send to the Cal-cura Company, Dr. Kennedy Row, Rondout, N. Y., for a free sample bottle. Large bottles \$1.00, all druggists. One size only.

Remember! Only one Dr. David Kennedy ever lived in Rondout, City of Keene, N. Y., and the name of his son and latest medicine is Cal-cura Solvent.

If You Don't Like Music you can avoid it. If you hate company you can manage to be alone. But what are you to do if, after talking a few monthfuls of fool, you expect to be in the company of those you wish you had gone empty and hungry? Why, use Dr. David Kennedy's new medicine, Cal-cura Solvent, and cure the disease that troubles you. Write to Dr. Kennedy, Rondout, N. Y., for details and a free sample bottle.

GRAFTON
FISHERMAN'S LUCK.
Grafton and the adjoining towns enjoy an enviable reputation among fishermen. Although the brooks are worked overtime and the grass along the banks is worn threadbare, still handsome speckled beauties are often caught, and well-filled baskets are not entirely unknown. The fishing season opened this year cold and cheerless. The fishermen who were bold enough to test their luck complained bitterly because they left their mittens at home and declared that the worms froze to the hooks. The fish, however, showed a willingness to be caught and many soles were brought both Friday and Saturday. The banks of the Howe brook, the Windham brook and the south branch of Saxtons River were the most successful. Lindsey Turner brought in a fine string which weighed 3-1/2 pounds, and Chapin Howard and Lynn Walker made a big catch. Several other nice catches were made. Turner pleased with the results, that is, some of them were.

Several out of town parties were in town. Dr. W. Knight and M. L. Merriam of Bellows Falls went to Windham Friday and remained in the vicinity until Monday. Report says that they caught 90 during the week. A party of five from Grafton, Bellows Falls, Rev. D. L. Sanford, H. C. Tracy, C. B. Carpenter and W. C. Belknap, visited the Howe and the Windham brooks and reported a catch of about 130. There being no hotel in town now, M. C. Redfield, the general stage driver, is doing the entertaining and proving a great success at the business.

Lindsay Turner is proving that he is more than an ordinary sportsman; he is in the business for profit. Up to last Saturday he had turned in at the town clerk's office 75 hedgehog heads and claimed the bounty provided by an act of the last legislature.
