THE HOME EULOGIZED.

The subject announced for Rev. C. O. Judkins' discourse at Trinity church Sunday evening was "A Home." Judkins' remarks were based on words found in James 3, 16: "For where envy and strife is there is confusion and every evil work."

The speaker was at his old New Hampshire home during the first observance of "Home Week." With many others he expected it would be a most profitable and it proved to be an enjoyable and brilliant success. Sons of the granite state from every part of the country flocked to their old home in response to the call from Governor Rollins, back to the places from which dated their greatest success or failure.

With these thoughts as an introduction Mr. Judkins eloquently eulogized the New England Home, elaborating the following central thoughts: The home is important because it is the secret of state life; the home is the life of the school; the school depends upon the home if it is to be the safeguard of our liberty.

In closing he considered the characteristics of a good home and what constitutes a home, naming as three cardinal virtues mutual love, mutual respect, and mutual admiration for the aged.
