HON. EUGENE T. WILSON.

Among the various candidates mentioned for the important office of governor of this state, the present chairman of the state central committee, Hon. Eugene T. Wilson, of Ellensburg, has conducted himself with such dignity and fairness as to bring to him many strong friends. He has shown himself to be possessed of executive ability of a high order. He has made no personal canvass for the office, and has invariably replied to those who have approached him on the subject that he believed the people ought to look up a man for such a high position, rather than that a man should seek the office. This is the right spirit to show, and it is a spirit that will be met with favor by hundreds of voters throughout the state. Mr. Wilson made an admirable presiding officer of the senate at the last session of the legislature. He will be 40 years of age at the coming December and has been a blacksmith, soldier and editor, and is now a successful merchant. Should he be selected as the standard bearer of the party, the many elements of strength he possesses would surely place him in the executive chair. This TRIBUNE is for the nominee of the convention, whoever it may be, and is satisfied that out of the many able men whose names have been mentioned thus far, the right choice will be made.

ELECTRIC CARS.

Olympia will have its electric line in operation this week and the great city of Philadelphia, with over a million inhabitants, still has the horse cars joggling along its cobblestone streets. One reason for this is the opposition in that city to the trolley or overhead wire system. Good news, however, has just come to the opponents of the system—and their name is legion—in New York city and Brooklyn. A number of the horse car roads there have applied to the state railroad commissioners for permission to change the motive power on a part of their lines from horses to electric. The storage battery system. They claim to have a system which is reliable, safe, fast, but keeping the car under perfect control, even while running fifteen miles an hour, being readily stopped by electric brakes. They will not make known the name of the system at present, being desirous of keeping it secret, but they have secured the consent of over one-half of the property owners along the lines of the roads. No opposition, whatever, was offered to the proposed change, and, if the commissioners are satisfied that the system is as represented, they will give permission for its use. But this is not all. The president of the Kings County Elevated Railroad announces that his company will soon substitute the storage battery system for steam as the motive power on its road. With cars actually operated by electricity under the storage battery system on a surface line in New York and on an elevated road in Brooklyn, there will no longer any excuse for stringing trolley wires in large cities. We can stand them here for many years to come.

VOTE FOR HARRISON. Why? Because he has been faithful to every trust reposed in him by the people. He was brave as a soldier; he was upright as a senator of the United States, and his administration as president has been one of the most brilliant and the best for every great national interest in all our history. His re-election means peace, prosperity. The election of Mr. Cleveland, would launch the country on an unknown and uncertain sea of industrial exploitation. Harrison means security, safety, national advancement, America for Americans, native and adopted.

The negro has made no progress, not because he was a slave, but because he does not possess the facilities to raise himself above slavery. Twenty-seven years ago he was a slave; now he is still the barber, the chimney-sweep; here and there a lawyer; now and then a doctor. Before the war there were first-class carpenters and blacksmiths. Half the houses in Virginia were built by negro carpenters. Where are they now?

The above is from an article in the North American Review entitled: "A Southerner on the Negro Question." It was such a palpable falsehood that President Rankin,

of Howard university, was not content with a simple denial, but in an article in the New York Independent he completely annihilated the assertions of "Southerner" with an array of facts and figures that are astonishing. Professor Rankin shows conclusively that no race in the world has made such progress in the short space of time from bondage to freedom, as the colored race. He has been the under dog in the fight for many long years and it comes with little grace, now, when he is emerging for a "southerner," especially, to lie about him.

The democratic platform is for free trade. It would be the greatest curse that could befall the workmen of America. The manufacturers could accommodate themselves to the change in a short time—first by reducing wages, and second, by extending the hours of labor. All the unions of the workers would be powerless to prevent these two inevitable results. The workingmen would, of course, bitterly resist the reduction of the one and the extension of the other. We should have long strikes, and, it is to be feared, violence. In that event, the free-trade president would be compelled to call out the troops to preserve the peace against the dupes who voted for him.

REV. ANNA SHAW, of the Baptist church, appears to have a level head on the world's fair question. When she was asked to speak at the temperance convention in Boston on the question of opening the fair on Sunday she promptly replied: "You had better not call on me, for I don't believe in playing into the devil's hands by making Sunday a dull day. I am in favor of opening the fair on the people's chief holiday."

The Everett News says THE OLYMPIA TRIBUNE "is trying to make votes for Harrison by proclaiming the fact that the Courier-Journal is a rat office." When it was charged that Whitelaw Reid (Republican) ran a non-union office great political significance was attached thereto. Waterston, the great apostle of free trade, runs a rat office and squeezes his workmen. Waterston is a democrat. See.

A DISPATCH from Chicago says our state building at the world's fair will show to some extent the forest resources of Washington. The foundation alone will contain 171 logs, some of them 120 feet long and 42 inches in diameter at the small end. The superstructure of the building will contain, besides heavy timber, fine finished woods, showing the grain and structure of the woods and a complete exhibit of shipbuilding material.

THERE was no delay in signing the pension bill by President Harrison and the pensioners of the country whose July payments were in suspense are now getting their money. Cleveland vetoed more pension bills than all the other presidents of the country combined.

WHEN the anarchist and murderer, Ravachol, who was guillotined in Paris, was on trial he pretended to have committed his murders in the interests of workingmen. The judge promptly stopped him with: "Do not pretend to speak for workingmen—but only for murderers."

EVERY republican voter in Olympia should attend the primary election on the 27th inst. and vote for delegates to the county convention. On that vote depends the nomination of the right kind of county and state officers.

GENERAL WEAVER is now making his third race for the presidency. His chance of election is about as good as the chance of the United States government building a canal from Puget Sound to Kirkland.

CONGRESS will adjourn about next week. The resolution to adjourn will be the most satisfactory measure passed since the body assembled.

THERE are just 22 days left before the assembling of the republican state convention in this city.

"Looks like a ghost!" That's what they say of the pale, thin, weak woman who's "run-down" and over-worked. Probably she knows it herself. But there's one thing she can't know, or she wouldn't be here. Pierce's Favorite Prescription is guaranteed to help.

It's a legitimate medicine, made especially for women's needs; an invigorating, restorative tonic and a soothing and strengthening nerve, imparting tone and vigor to the whole system. But isn't a mere stimulant. It's a remedy, safe and sure, for all the functional derangements, painful disorders, and chronic weaknesses of the female system. In "female complaints" of every kind, periodic pains, internal inflammation, ulceration, and kindred ailments, it's guaranteed to benefit or cure, or the money is returned. No other medicine for women is sold so profusely that nothing else is "just as good."

Before Starting on a Journey A person usually desires to gain some information as to the most desirable route to take, and will purchase tickets via the one that will afford him the quickest and best service. Before starting on a trip to Chicago or any point east, you should provide yourself with a map and time table of the Wisconsin Central line. The trains run on this route are vestibuled and are equipped with Pullman's latest drawing room sleepers, elegant day coaches and dining cars of latest design, built expressly for this service, and are exquisite in furnishings and convenient and comfortable in arrangement and so complete in every detail that they have no superior in comfort and elegance. The dining car service is pronounced by all the most elegant travelers as the best in the world.
