# GIVE \$2,000 TO REPAIR RESERVIOR

Although Water Supt. Savidge only asked for \$1,000 to repair the Alaska street reservoir, which is in danger of collapse at any time, the city council, after viewing the big tank, yesterday afternoon appropriated \$2,000 for immediate repair work.

Part of the foundation has washed away, because of leakage waters. Should the tank burst, 200 or 300 homes, around its base, would be wrecked by the flood, it is predicted. No water will be put in the reservoir until all work is completed, water for the central high service being distributed direct from the Green river pipe line and Hood street reservoir.

# MARRIED MAN BAWLED OUT BY THE COURT

John A. Jackson, 3104 Asotin st., who left his wife and family Tuesday afternoon for a few hours' merriment in the Tivoli cafe, and who lost his gold watch during the afternoon, was given a severe reprimand by Police Judge Evans today when he attempted to send a young girl to jail for robbery.

The girl, Miss Bee Thompson, 21, had met Jackson, and the latter had induced her to sit at his table. The girl playfully removed Jackson's watch from his pocket and began playing with it. Later, she took it with her when she left the cafe.

Jackson immediately caused her arrest as a thief. In police court today the girl declared that she had taken the watch as a joke, and proved by the testimony of waiters that she had tried to return it to Jackson.

"I think that a married man, who leaves his family to have a good time in a cafe, should keep quiet, at least, when anything of this kind occurs," said the court.

**SHE WAS DRUNKER**  
Walter M. Fordyce was granted a divorce this week from Trellis Fordyce of Tacoma, for excessive inebriations, which had previously been reported as being accredited to the plaintiff.

# Navy Salutes Labor Man In U. S. Cabinet

Secretary of Labor William B. Wilson (center), Commander J. M. Reeves of the battleship Oregon, and Miss Agnes Wilson, daughter of the cabinet member, during the review of warship fleet in San Francisco harbor.

SAN FRANCISCO, Sept. 2. — Labor, through its cabinet representative, received its first ceremonial salute from the U. S. navy here recently when Secretary W. B. Wilson was accorded a salvo of 19 guns from the battleship Oregon.

At the Oregon's masthead the flag of the Department of Labor snapped to the breeze, while Secretary Wilson reviewed the Pacific squadron on Aug. 3.

Secretary Wilson, who had come to San Francisco to preside at the National Conference on Unemployment, was plainly embarrassed.

It was plain that he had more satisfaction in the handclasp of the grimed miners among whom he worked not so many years ago than in the belching salute of big rifles or the dress formation of immaculate marines.

Wiley; yesterday at Gold Bar, Wash.; the body will be brought to Tacoma for interment.

**FUNERALS**  
Mrs. Ella Lange; today at 2:30 p. m.; from Evangelical church, So. 13th and K sts.; interment in Tacoma cemetery.

**DEATHS**  
Lucinda Argaremt Wagner, infant daughter of Mr. and Mrs. J. E. Wagner; yesterday at a local hospital; funeral tomorrow at 10 a. m. from C. C. Mellinger's; interment in Oakwood cemetery.

Infant son of Mrs. T. C. Perry; daughter of Detective Adam

# Gilson Gardner Tells:

The Real Inside of the T. R. Garrison Set-to. Why the Dem. Floor Leader Is in Bad. Why Oysters Are Cheapest Good Food. That the People Are Using Schools More. Of U. S. Paying \$17.50 for \$7.40 Shell.

By Gilson Gardner.  
WASHINGTON, D. C., Sept. 2. —Opposition to any plan for military preparedness is announced by Representative Claude Kitchin, who is scheduled to be floor leader of the majority in the next house of representatives. Kitchin says: "I favor millions for mines and submarines, but not one cent for a bigger navy or an increased army."

Secretary Garrison will undoubtedly report in favor of a much more elaborate and expensive system of volunteer soldier making, and it has been announced from the White House that the Wilson approval would be given to Secretary Daniels' recommendation for super-dreadnaughts, submarines, airships, colliers, and all the necessary accessories to a powerful navy.

The frank hostility of Kitchin to this program has started talk of a rival candidate, supported by the administration, for house leader.

A long time before Colonel Roosevelt made his now celebrated speech at the training camp at Plattsburg, N. Y., the administration had shown disapproval of that affair. The invitation to President Wilson to attend was ignored; also that to the various members of his cabinet, including Secretaries Daniels and Garrison. Garrison is, in fact, greatly interested and would be highly approving, but naturally, he does not want to get out of step with the White House.

Why the administration disapproves the Plattsburg enterprise anybody is at liberty to guess for themselves.

Now that the country is about to enter upon a month with an "r," the government's bureau of fisheries has issued a timely bulletin with the attractive title "Oysters: The Food That Has

# German War Movies Coming Next Week; Watch for Coupon

Beginning next Wednesday, under auspices of the Tacoma Times, the great war moving pictures, taken by permission of the imperial German government, will be shown at the Tacoma theater. These are the first authentic motion pictures taken on the European battlefield, and are accompanied by an interesting lecture by Count Paché, a German officer who has seen service in the present great war.

# AVENGE OROZCO

EL PASO, Sept. 2.—During the last 12 days ammunitions at the rate of 2,000,000 rounds a day have passed across the border into Mexico. Federal authorities, after investigating the shipments, find that most of the ammunition is going into Carranza territory.

Another raid across the border by bandits is reported from Sierra Blanca, supposedly to avenge the death of Gen. Pascual Orozco.

# RAIN SAVED US

OLYMPIA, Sept. 2.—State Forester E. W. Ferris, after a tour of the northern part of the state, asserted today that the few hours of rain has saved the state thousands of dollars in timber and tended to curb the losses. Crews are still at work.

# IN THE EDITOR'S MAIL

Short letters from Times readers, of general interest and without personal malice, will be printed. Write about anything or anybody you wish, but do not have malice at your motive. Many letters are not printed because they are too long. Keep 'em short.

Editor Times:

I am glad you are exploiting the subject of water taxation. I wish I could get you to pound away with your usual persistence in favor of a few first or basic principles which, if once understood by the public generally would soon force our officers who want to do right to establish rules and practices that would encompass the object and aim of your efforts, as I understand them, to wit: the fair distribution of the burdens of taxation and the protection of those the least able to protect themselves an dthe least able to bear the burdens of taxation.

First, the government has no right to speculate (to make money) with public utilities. The

very idea is senile and senseless. Speculate off ourselves! It is just as wise as for a person to try to get rich by taking his money out of one pocket and putting it in the other, therefore

Second, it is unwise and senseless and positively unlawful to charge more for water or light, or charge less for water or light than it actually costs to produce these necessities—utilities is a wrong word for it virtually means profit-taking. I want to emphasize the thought that charging either more or less for water and light than they cost is taking money from one pocket and putting it out of the pocket with the least in it and putting it in the full pocket.

JOHN W. LINCK.
