

# FARM SEEDS

We make a specialty of all kinds of Field and Farm Seeds and devote our most careful attention to growing the varieties which will prove the most satisfactory, especially for western farmers. Seeds which have been grown from the most select stocks and thoroughly matured, cleaned and tested, are far superior to such stock as is commonly sold. Try them this year and be convinced of their superior merit.

## ELDORADO KING OATS

has the best record as a main crop variety of any ever grown. The most productive and the hardiest. Very early, with heavy, stiff straw, bearing large and heavy heads, with **well filled, plump grain**. It has very thin and soft hulls. Has wonderful feeding value, and is well adapted to making oat meal. Most oats lodge when put on good, rich ground, many times losing the whole crop. On account of the **strong stiff straw**, the Eldorado King will stand up erect and produce a heavy crop of grain. This oat is never affected by rust, is very handsome, a good seller, and will yield an average of **116 bushels per acre**.

Write for our big seed catalogue, which also contains our full line of poultry supplies, incubators, bee supplies, etc. It is free.

## FIRST OF NEW IMMIGRATION

INQUIRIES FOR HOME SITES INCREASING IN NUMBERS —  
THEIR UNANIMOUS OPINION OF THE MOST DESIRABLE RESIDENCE DISTRICT.

The first wave of the year's heavy immigration has reached Seattle.

We have calls every day from new arrivals who are looking for business locations and home sites.

They examine the city from end to end, but invariably gravitate to Capitol Hill as the most desirable district for residence purposes from every standpoint.

The verdict of overwhelming numbers is a test of value that cannot be shaken.

There is no time for delay in selecting choice sites on Capitol Hill.

The lot you have your head set on today may be sold to another by tomorrow.

Grouchy was just fifteen minutes too late at Waterloo.

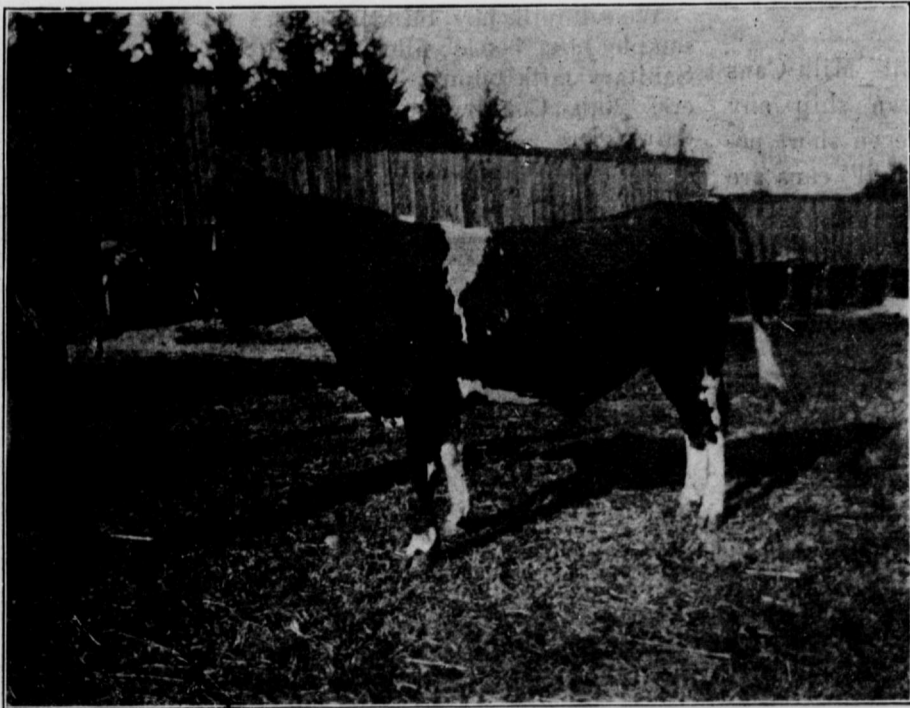

Capitol Hill is twelve minutes from the business center by three electric car lines.
