Preparing for Swedish Prince

ANOTHER NOTABLE FUNCTION AT JAMESTOWN.

The North Atlantic Squadron Will Again Assemble in Hampton Roads to Give a Fitting Reception to the Grandson of Old King Oscar—Mr. Schorfanberg's Address to the Labor Statisticians—Atlantic Coast Line Surgeons' Convention.

JAMESTOWN EXPOSITION, July 26.—Another opportunity to see the magnificent North Atlantic Squadron composed of the finest fighting ships of our Navy, will be during the week of August 19 to 26, which will be known as Swedish Week, and which will be the occasion of the visit of Prince Wilhelm, grandson of King Oscar of Sweden.

The Prince will make the visit on the new cruiser Fylgia, 4,100 tons, which King Oscar had specially prepared for participation in the Tercennial, designating his grandson as his representative. He will be accompanied by 60 cadets from the Naval Academy of Stockholm.

In order to properly receive the royal visitor the entire North Atlantic Squadron, under Admiral Evans, will make it a point to be in Hampton Roads when the Swedish ship arrives. The fleet of American fighting craft will probably be as large as that of Georgia Day, and it is probable that as a compliment to the Prince, the vessels will be illuminated at night.

Ashore the Exposition Company is making plans to give the Prince a reception that he will long remember. The fact of his visit here will be heralded throughout the country, particularly among the Swedes, and it is expected that a great many of them will come here to participate in the exercises, see the Prince, the fleet, the parades, fireworks and other features.

Governor Johnson, of Minnesota, one of the most prominent Swedes in this country, will be here, and a special invitation has been extended to the Choral Society of the Swedish University at Lindsborg, Kas., to stop at the Exposition during the week.

Governor Swanson, of Virginia; President Tucker, of the Exposition Company, and Swedish Vice Consul Henning Fernstrom, of Norfolk, have made plans to give banquets in honor of the Prince, while the Swedish Minister at Washington is planning to do likewise. This, together with the formal and informal functions on the various ships at which the Prince will be cordially invited, indicates that once he arrives there will be no idle moment for Willie.

After remaining here for a week the Prince will sail for New York where he will be accorded more honors and entertainments, so that his visit to this country will be one long round of pleasure.

BARRACKVILLE, July 25.—Mr. and Mrs. Harry Tennant were made to rejoice on last Thursday when a girl baby was born to them.

The people here were all surprised when they learned that Ed Tennant had gone crazy that he was out before daylight, running around the house, that he came along and awakened everybody around there close. Some proposed that he be put in the hands of the authorities so that if he was mad as they thought he was, he would not be able to hurt anyone. Some proposed that he be examined for insanity, but instead of doing either of these some one made an investigation and found to their surprise that his peculiar actions were all about the ten pound boy his wife presented him. This occurrence took place last Friday.

Mrs. Garner has been stopping with her granddaughter, Mrs. J. F. Ice.

Mr. Ivic Cook, who was married last May to Miss Eva Kinnan, daughter of A. H. Kinnan, of this place, went to housekeeping last Saturday in the four rooms he had rented of Mrs. W. W. Raymond. He intended to go to housekeeping sooner, but he sent off for his furniture and they failed to come as soon as they should.

The people here have stronger hopes now they will be riding on the trolley cars before this time next year (maybe before the winter is over) since they know that they are at work on the proposed route near Farmington. A gang of surveyors have been on this end of the line making the permanent location.

Miss Leta Neptune left Tuesday evening for Colfax, where she expects to spend a few days with friends.

Miss Reppert, of Morgantown, is calling on Miss Bettie Ice.

There were several visitors in town Sunday, most of whom were from Fairmont. Among them were Misses Lulu and Dorra Conway, Miss Georgie Ice and Mrs. Tom Roby.

After a two weeks' vacation with her parents Miss Margaret Ice returned Sunday to fill her position Monday morning as clerk in Hartley's department store, position which she has held for three or four years.

Since Lone Star has been writing so much poetry, known as spring, fall and June poetry, and since we have been having so much rainy weather, I propose that he write some poetry that would be known as Rainy Day poetry.

Mr. J. F. Ice, who has been sick and unable to be out for the last week, is better.

Miss Katie and Nettie Robinson were in Clarksburg Monday. They went up to see their brother, Amos, who had his arm broken in the street car accident on July 7. They reported him as getting along fine, but he is not able to come home yet.

NEWS FROM ALONG THE RURAL ROUTES

Barrackville News

There seems to be considerable interest taken at just this identical moment by some of the people of our town concerning what is thought to be an old street extending from the old Morgan mill to the county bridge. It seems that the road (which is not one of the city's streets, or is claimed to be) was never disannuled, and now since the Blodgett Company have commenced filling that space in question with dirt to raise the grade to the necessary height some of the good (?) people of our town are trying to cause the Fairmont & Manington Railroad Company some trouble by demanding them to fill and to keep open a city street where years ago persons came to that old mill, and for years has been closed and was considered private property. This said real estate was sold to the Railway Company with that understanding and for which a warranty deed was made to the said company. The whole trouble seems to be the result of design, which will come out later.

At a meeting of the council one night this week they refused to extend the franchise of the above mentioned company until they consulted each other further. However, it is generally believed that an extension will be granted. It seems now that some of those who were fighting about the road coming on the business side of the town now see where they made a mistake. Some certain people of this town have always fought enterprises of this kind, and in fact of every kind, and it is thought will until they die, and can fight no longer. Should the whole of America be like these people we would be back with some of the oriental nations—China for example.

Several of our young people went to Downs Sunday to attend the basketball picnic.

Mr. Peck, from New York, who is at the head of the Buffalo Construction Company, was here one day this week looking after the interests of the road. He seemed much pleased with the prospects.

Chickens have begun to put their heads around buildings and stretch their necks to see if any of the boys are coming their way, but the coast is looking clearer and clearer, and it is thought that no more chickens will be molested unless it be by some boys other than the ones who were into that business some nights since.

Rather an important case was tried before Squire Toothman Tuesday between Mr. J. W. Efav and Mr. Toothman, both of Plum Run. It seems that Mr. Efav was accused by Mr. Toothman of cutting a telephone wire which connected Mr. Toothman with his neighbors, and with the country at large, and Mr. Toothman accordingly brought suit for one hundred dollars, which he claims was the amount of the damage done him. Mr. Efav's counsel was Mr. Tusca Morris, and Mr. Toothman's counsel was Mr. B. F. Ramage, both of Fairmont. It was finally compromised on the basis that each of the men pay their costs, and that Mr. Toothman be put back on the line and pay his assessment fee, which amounted to one dollar, and the case was dismissed.

Mr. Halleck, who has the contract for the stone work on the F. & M. R. R., is here looking after his interests. He expects to commence his work at once.

The Carnegie Gas Company is putting in tubing in the Burns well.

Col. R. I. Somerville left Wednesday night for Lonsaonon to see his mother, who is reported very sick. She is very feeble, being in her 89th year.

We learn with regret that Mr. Chas. Neptune, who lives at Davles Run, had his house and nearly all its contents destroyed by fire Tuesday evening. It seems that Mr. Neptune was away at his other farm putting up hay, and while there the house caught fire from defective plumbing, or some similar cause, and was burned before he could get home to save any of his household goods. Mr. Neptune is one of our best citizens, and we are sorry to hear of his misfortune.

One day this week, while blasting across the creek on the grade, a stone weighing about three pounds came over and landed near a man who was standing at the postoffice. The company was warned against such heavy blasting hereafter. Had it hit any person, death would have been instantaneous.

Simplicity In German Army

EMPEROR WILLIAM ISSUES ANOTHER ORDER AFFECTING OFFICERS' CORPS AT HANOVER.

BERLIN, July 26.—A cabinet order directed the habits of luxurious living that prevails in the officers corps at Hanover, was issued yesterday.

This order marks another step taken by Emperor William, acting as King of Prussia, to compel greater simplicity of living on the part of the officers of the army. The Emperor believes an easy life has a softening effect on the men and unfits them for campaigning, and that the growing scale of luxury in the army tends to keep comparatively poor men from becoming officers. There are at present nearly 600 vacancies for officers in the German Army.

Only the general terms of this order are known. It refers particularly to the entertainments given by officers to the messes, and requires colonels to check all form of luxurious living.

With reference to a fossil tooth of a hippopotamus found in Iowa the London Evening Standard doubts whether that proves that the animal ever was an inhabitant of America. It thinks the tooth belonged to a hippopotamus that visited America for dental purposes.

SHORT TALKS BY L. T. COOPER.

BACKACHE.

I can sympathize with a sufferer from this awful symptom of weak kidneys. That soreness and pain in the small of the back tells too plainly of serious trouble behind it. It's not a hot water bottle or a plaster you need. That won't cure diseased kidneys. It may relieve you for a time if it's true but why mask the real cause and allow the trouble to grow? Don't do it. Weak kidneys can be cured but Bright's disease, which always follows neglect of them cannot. Go and get a bottle of Cooper's New Discovery and Cooper's Quick Relief and use them faithfully. Your backache will disappear because your kidney trouble is corrected—not for a day but for good. When your kidneys are in "ship-shape" there will be nothing more to cause it.

Here's a letter from a man who suffered for years in this way and took my advice:

"I have been in such bad health for some years that I finally had to give up work. I suffered from kidney trouble. My back was so sore and lame that I could scarcely get up and down. My stomach was also out of order and my nervous system broken down. I have been using the Cooper medicines for one week and actually feel like a new man. My food digests perfectly. The soreness and pain has entirely gone from my back and my kidneys are in fine shape. The medicine has strengthened me wonderfully and I cheerfully give you this testimonial for publication." Mr. P. Leonard, 49 School St., Allegheny, Pa.

We have heard a number of favorable comments on the Cooper preparations from people who have purchased them from you.

Should Have More Rope.

"Criminals are having too much rope in this country," says a St. Paul contemporary. On the contrary, more of them should be lassoed and rounded up.—Washington Herald.

According to the last report of the Commissioner of Navigation, the merchant marine of the United States now numbers 25,000, with a gross tonnage of 6,674,969. If the present rate of construction is not checked, the output of the shipyards for the current year will be the greatest since 1855.
