#### Collegians Lose Exciting Game.

Pennsylvania State Forestry Academy, of Mont Alto, Pa., sent her lads to Shepherdstown last Thursday night to engage our Collegian team in the winter sport of basketball. They came with determination and went back with the victory, 36 to 22. The game was much closer than the score would indicate. The visitors were the first to draw blood, when Lott, their star center, dropped one in from the center of the floor. From then until near the close of the first half the home team led 16 to 12. With but a few seconds left to play, the visitors tied the count and the whistle blew with the score 16 all. The second half opened up with the visitors caging two straight goals. The local aggregation tightened up and held the game within a basket's reach until the last five minutes of play, when a sudden burst of speed the visitors ran the count up to 32. Legge for the home team shot a pretty one with two men guarding him and then Banks did the same stunt, and it looked as if the home boys were due for a victory, but the best they could do was only 22. Knott was out of the game and Myers took his place the second half. He still showed plenty of speed and his opposing forward only could shoot one goal.

The noted Keyser Collegian quint was in town Tuesday night in the persons of Parrish, Gibson, Slocum, Montgomery and Schaffer. The local management booked this game for the sole purpose of showing the local fans what a real basketball aggregation looks like. It is needless to say anything of the work of the local outfit, with the possible exception of McKee, who caged eight baskets during the contest. The visitors are all star players, each and every one of them having played his allotted time on a university team, or others equally as good. The game opened with the above named Mr. Parrish dropping the ball through the net with a succession of rapid passing. It will be well to note here that this same Parrish, center, never shoots the ball into the basket, but drops it gently to its final resting place; the reason thereof being that he is head and shoulders above all on the floor. He counted twelve times for his team by this method, while the Messrs. Gibson and Schaffer scored eighteen and fifteen baskets respectively. Slocum was a little off in his shooting and only made six. This was without a doubt the cleanest game that has ever been played in Shepherdstown, with the best team in all this part of the country as an opponent. They are worthy of the name that they hold, recently having defeated the aggregation representing the West Virginia University. The Keyser boys are on a thirty-five days trip, playing every afternoon or night. After this introduction we may as well break the news of the outcome of the game, which when made known will prove the fast work that the Keyser contingent exhibited. The final score was 110 to 42.

Friday night the attraction will be the team representing Cumberland Valley State Normal School, of Shippensburg, Pa. This team will be more in our class than the Keyser team, so don't fail to come to the community hall at 8 o'clock and see another good exhibition of the winter sport.

Monday night the Collegians journey to Frederick, Md., to engage the Y team of that place in a game of basketball that promises to be a close and exciting contest.

The Keyser Collegians played the Waynesboro Alpha Club, of Waynesboro, Pa., off of their feet last night, to the tune of 37 to 23. Waynesboro is credited by most scribes to have one of the best aggregations of basket players in that part of Pennsylvania, but the mountain contingent was too much for them. This same Waynesboro team comes to Shepherdstown, on Friday, February 10, to play a return game with the Collegians in the community building. Comparison of the scores that Shepherdstown and Waynesboro against the Keyserites shows that the coming game will be close and hard fought. We managed to roll up more points against the Keyser team than the Pennsylvania lads.

#### County Court In Session.

The Jefferson County Court began its regular January term Monday, with the President, Nelson R. Roberts, Commissioners Charles H. Moore, Logan B. Shurt, Dr. S. T. Knott and Charles C. Henkle, and County Clerk Charles A. Johnson present.

Justices of the peace of Jefferson county reported fines collected by them during 1921, as follows:

H. V. Sheetz, \$71.00; T. C. Green, \$43.00; R. G. Miller, \$55.00; D. H. Nichois, \$92.00.  
C. M. Trundle and Jas. H. Myers each gave bond as notary public.  
The Jefferson County Telephone Company has granted permission to continue its pole line from the Armistead Lucas orchard to Duffields, under the supervision of the county engineer.

Orders were ordered drawn for various claims against the county.

#### Roads, Roads, Roads.

In a Baltimore paper a few days ago I found an article about the way the Kent county, Md., people are going to have roads that they can travel all the year round.

They have the privilege of paying taxes to keep up a so-called State system, but they find that for practical purposes for all the people it does not answer, just as we in West Virginia will find out. As a starter, you have read that our State authorities from their offices in Charleston have announced they will build a road between Martinsburg and Charles Town that will be used less by the people of the two counties than any other route they could have selected.

A woman in Kent county got the people interested in a section of two miles and they got together, white and colored, men and women, with no cost to anybody excepting a day's labor or its equivalent.

A colored preacher led sixty negroes in digging gravel for six days. The farmers furnished the teams, the women supplied a free dinner each day. The two miles of road, built in ten days, are valued at \$3,400, and have proven such a success that this whole county has become interested, a mass meeting was called, and they plan to build five miles of road like these two miles in each of the five districts of the county per year, and thus in about five years have good roads in the whole county.

They recommend that the road scraper be done away with, as it answers no permanent purpose. Many of our people are of the same opinion about that scraper. It is said that in some places it has torn part of the road bed up and does not open the ditches to drain the water. It seems they have gravel pits scattered around over the county, so it is simply a matter of drainage and hauling gravel.

It looks like it was up to the people of Jefferson county, or at least Shepherdstown district, to follow this example of the Kent county people if they want smooth roads. The undertaking is not nearly as big a one with us, as we have a good solid foundation on nearly all of our roads and in most cases need only the water drained off and holes filled up, and as we have plenty of fine crushed stone at Kearneysville and Engle, we would not have to dig gravel, and the cost of this stone would probably not be any more than it would cost to dig gravel if we had it. Perhaps the county would pay for the stone and have a man go over it and level it after it becomes partly packed.

The three miles of road but the Charles Town pike would be a fine piece to be treated that way. It seems this road was patched up from Halltown to a point some distance this side of Uvilla. Wonder why they stopped there, as this end of it is something awful?

As a concrete proposition, if the people who use that road decide to go after it and drain it and put crushed stone on it, although I do not have occasion to use it often, I will have my team haul several loads of stone from either Kearneysville or Engle.

BENJAMIN HARTZELL.

#### Terrible Disaster in Washington.

A terrible disaster occurred in Washington City last Saturday night, when the roof of the Knickerbocker Theatre, a moving picture house, collapsed from the weight of two feet of snow upon it and fell upon the audience. The roof of concrete, the iron framework that supported it, and the balcony that extended over a part of the theatre crashed down upon the defenseless people beneath, burying them under a mass of concrete that could not be moved for many hours, the last victim not being extricated until nine o'clock Sunday morning. There were killed outright, or so badly hurt that they died soon afterward, 108 men, women and children, while perhaps as many more were injured in various ways. The theatre was located in the finest residential section of the city, and many persons of prominence lost their lives. Among the killed was Miss Helen Dortch, of Berryville, Va., who was an instructor in an art school in Washington.

Mr. and Mrs. Henry Shepherd, of Shepherdstown, had gone to Washington to spend the week-end with friends, who live within a short distance of the Knickerbocker. Mr. and Mrs. Shepherd about nine o'clock started to make a call, and found themselves at the theatre just a few moments after the accident occurred. They saw some of the victims emerge from the place, bloody and disheveled and dazed, and they were able to render some slight assistance, among others to a boy who had both arms broken. They said that it was a half hour or more before the appalling extent of the disaster was realized. Many of the victims were so badly crushed and mangled that it was almost impossible to recognize them. Mr. and Mrs. Shepherd were at the scene an hour or more, when the police lines were established and only physicians and nurses and the police and workers were allowed near the building.

The parents of Miss Katrina Baumgardner, domestic science teacher at Shepherd College, live within a block of the theatre, and they saw many of the heart-rending episodes connected with the disaster. Mrs. Baumgardner helped to give first aid to many of the injured in a drug store adjoining her home and worked until late in the night. Many pitiful scenes came under her observation, as relatives recognized those who were maimed or came to the realization that their loved ones were in agony under the ruins or had met sudden death.

Elizabeth College, a Lutheran institution for young women which was destroyed by fire during the recent holidays, will probably not be rebuilt. At a recent meeting of the trustees it was decided to recommend to the Lutheran synods interested in the college that the business of the institution be liquidated and the proceeds turned over to Roanoke College.

#### SHARPSBURG NEWS.

Some of the by-roads near town are drifted with snow higher than the fence and detours have to be made through fields.

Seven persons were baptized in the Antietam creek Sunday afternoon by Rev. Mr. Mosser, who were converts of the meeting held in the Church of God in the past two weeks, closing on Sunday night. One who was baptized was over 80 years old.

Mr. and Mrs. George R. French, of Hagerstown, were down Sunday spending the day at the home of her grandmother, Mrs. Sarah Brashears.

James Grove, the eight-year-old son of Mr. and Mrs. Oliver Grove, who has been very ill for some weeks, was operated on at Mr. Grove's home last Wednesday, but not successful, and he was taken to Hagerstown to the hospital, where another operation was performed, and at first was getting along nicely but later reports say he is now doing very well.

Wm. Speaker, of Washington, is spending some weeks with his daughter, Mrs. Samuel Knode, and other relatives in this vicinity.

Many residents of this place were worried all day Sunday when they heard of the roof collapsing of the Knickerbocker Theatre in Washington, as Sharpsburg has many persons from this place residing there; but so far we haven't heard of any of them being in it.

Mrs. Edward Alderton and daughter, of Berkeley, W. Va., were visiting Mrs. Alderton's parents, Mr. and Mrs. C. L. Mongan. Mr. Mongan had been sick in bed for a week but has gotten able to be about now.

The out-of-town lots sold like hot cakes at the Jacques land sale. Now they have a chance to buy a good building lot, the vacant lot adjoining Samuel Boyer and Mrs. Silas Drenner on Chapel street.

Fred Roulette is the only person from Sharpsburg that was drawn to serve on the February jury from this vicinity.

David Marshall is lying very ill at the home of Mr. and Mrs. Daniel Huyett. He is suffering with heart trouble.

Mr. and Mrs. Harry J. E. Thomas and family have returned from South Carolina, where they spent a month.

John Peyton has returned from Onia, where he went to attend to some real-estate business.

Sorry to hear of the death of our boyhood friends, Joseph Kitzmiller and Sammie Eavey, both former residents of Keedysville. They went to Nebraska many years ago.

Wm. Mitchell, who had been living in the George Poffenberger tenant-house, has moved to West Virginia and will work for Herman Liskey.

Ralph Earley and family will move from their home at the Lutheran Church in with Mrs. Earley's uncle, Luther Piper, and care for him.

Mrs. Jennie Murphy is visiting friends and relatives at Williamsport, Md., and at Keedysville.

#### In Memoriam.

Died in the Sanitarium at Terra Alta, W. Va., January 2, Elsie Virginia, oldest daughter of Mr. Noah V. Engle, of Engle, this county, of pulmonary tuberculosis, aged 18 years, 5 months and 5 days.

Miss Engle had been in failing health since last summer, and was admitted to the sanitarium about six weeks ago, it was hoped for the benefit of her recovery, but after entering there she became very much worse, failing rapidly until the end peacefully came. At the age of 12 years she united herself with the M. P. Church at Engle, and had since lived a beautiful Christian life. It is known during the former days of her illness, being unable to walk alone to church, she was assisted, interested and feeling it her duty to serve her Master. Her funeral was held in the M. P. Church, January 4th, conducted by her pastor Rev. R. E. Grimsly, who remarked she would be so greatly missed in the church, as she was always faithful in attending and ready to perform her duty as organist and Sunday school teacher. She was a bright and capable young girl and was highly respected in the community where she lived, and her death has brought sorrow and much sympathy to the bereaved family, this being the third death in eight months. Death comes to all, old and young alike, and yet it seems strange those who are old and weary of life's cares and who long for rest should be left and the young and happy should be taken in the bloom of life. But we must trust to our Saviour, who doeth all things well. Her father was at her bedside. After praying with her, she told him everything was so bright and beautiful. The Glory of the Lord had shone around her, and she was prepared to meet her Saviour. After telling her father to kiss her good bye, that she was going, her spirit returned to the God who gave it.

Miss Engle, who was a granddaughter of Benjamin D. and Virginia Engle was born and raised at Engle, this county. After finishing public school there she was a student at Harper's Ferry High School two terms, with the intention of completing her education and making a useful young woman. The principal, Mr. Johnson, and her class mates attended the service at the church and grave and contributed a floral offering to pay the last respect to the deceased. Besides her father, she is survived by three brothers and three sisters. Her body was laid to rest in the Lutheran Cemetery at Uvilla, this county.

Mrs. W. J. Houston, wife of a farmer, living near Fredericksburg, Md., met with a peculiar accident when the car which her husband was driving over the extremely rough roads struck a deep rut just as she was about to speak, driving her teeth together with such violence that the end of her tongue was completely severed. In addition her head struck against the top of the car, and her nose was broken. She was rushed to Bridgeville, where medical aid was rendered as soon as possible, but she is unable to talk.

## Annual After-Christmas Clearance Sale

### WOMEN'S APPAREL

Coats, Suits, Dresses and Furs  
NOW GOING ON

A Clearance of Garments at prices that in many instances represent a saving of half the original price. COATS, SUITS, DRESSES and FURS of the most approved styles and fabrics for the present season, all offered now in our annual clean-up preparatory to the arrival of the Spring stocks.

This is the Sale you have waited for. COME IN NOW.

Proportionate reductions through entire stock.

#### FURS

Entire Stock Priced  
25 per cent Off.

LEITER BROTHERS  
HAGERSTOWN, - - MD.

## Grain and Produce News.

Wheat has been firm this week, market highest since September. Mill stocks and amount in hands of growers smallest for years. On the other side, Canada has large stocks to sell Europe. We still think that premiums will be paid for good wheat here later on.

Corn steady and little change. Stocks are large. Our best demand is from B. and O points, freight being less. The gain in shelling runs from two to three cents a bushel.

Clover seed is firm and market advancing, it's up now \$1.50 per bushel from lowest. Sapling much higher than red clover. We have not been carrying much stock and we hardly think much more advance will take place.

Mill feeds are firm and scarce. Our stock is fairly good. Do not sell wool with out seeing us. We look for firm prices. Coal trade has been heavy and prices for soft coal much lower. We can now get better quality hard coal. Call us for prices to buy and sell.

Yours for business,

THE HODGES-LEMEN CO.  
(Incorporated)  
SHEPHERDSTOWN, W. VA.

\$1.50 gets the Register a year.
