Freckle-Face

March Brings Out Unsightly Spots. How to Remove Easily.

Do you know how easy it is to remove those ugly spots so that no one will call you freckle-face? Simply get an ounce of othine, double strength, from E. H. Mau, and one night's treatment will show you how easily it is to rid yourself of freckles and get a beautiful complexion. The sun and winds in March bring out freckles, and, as a result, more othine is sold this month, and the druggists sometimes find it difficult to get sufficient to supply all calls. Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove the freckles.

HUBBARD OUTLINES THE MARCH OF CENTURIES

DESCRIBES THE FALL OF THE POWERS THAT RULED WORLD

One of the Most Interesting Addresses Ever Delivered Here—Elks' Auditorium Packed.

Before an audience that taxed the auditorium of the Elks club to its utmost, Elbert Hubbard, one of the greatest authors of the present day and head of the Roycroft clan of East Aurora, New York, delivered a very interesting address last evening on "The March of Centuries." Starting with ancient Egypt, the famous author carried the audience down through the fight of the nations that roiled the world until the present day.

His picture painted on the mind's canvass was beautiful, and he held those present in his grasp throughout the two hours that he spoke. Unlike other orators, Elbert Hubbard does not speak in a flowery tone by the raising and lowering of his voice. Not once did he touch high C, but his descriptions were wonderful.

Arriving over the Baltimore & Ohio at 7:35, he was escorted to the Elks' club. His lecture was the last of the course held under the auspices of the Eoff Street Temple, with the exception of one that was postponed.

The Rabbi Brill introduced Mr. Hubbard on behalf of the Lyceum, and he was given an ovation. In opening his address, Mr. Hubbard said that he would tell the march of centuries in a very brief time. "I am glad to see such an audience who can read in between the lines that I will construct. I am going to ask you to picture on the screen of the mind the pictures I will throw on the screen."

Early Race.

Then he said that we belong to the Arion race. Our ancestors landed at Jamestown, Plymouth, and I think some of the best at Ellis Island. We came from the East. The Arion race started in India. High prices are no new thing. There were high prices there and starvation, so they had to migrate. Out of India came the swarming hordes. The first emigrants stopped on the fertile banks of the Nile and these "civilization" started. Egypt grew old and stultified, then nodded and went to sleep. Egypt was nodding when Moses led the children out of Israel.

Civilization moved on and Babylon and Nineveh ruled the world. They divided the power of the world between them. From the Bible we learn that the best society was there, just the same as in New York.

Civilization did not stop there but moved on. In Nineveh, there were men who did not know their right hand from the left. That is they did no work, and when they had the money hired others to do it. I have stood on the plains and looked over the place where these cities once stood.

Athens Rules.

Then Athens arose and ruled the world. A city of art, drama, poetry and physical culture. It is said that there were thirteen men there who equal the world will never know. Athens grew old. Her citizens said we have the best art, and any person who says they are better we will kill. Then Mr. Hubbard pictured the penalties that Athens inflicted on great artists, orators and learned men.

When you think you have things perfect then you stop progress." He spoke of the world's greatest school master being born in Athens and of his being destroyed. He said the school boards then were like the school boards of today.

Mr. Hubbard, spoke of Alexander, the pupil Aristotle who threw his little Grecian army of 35,000 men against a million and whipped and destroyed them. After destroying the Persians, he conquered the world. When you think you have the world by the tail you look out. Things that succeed ripen and fall and Alexander died.

Rome Rules.

Home arose and Rome ruled the world. Julius Caesar, come as a clerk, then a priest and at 35 lead an army. He too conquered the world and he too died at the age of 58 of compulsory vacation. He only knew one way to make money, according to Mark Anthony. Lawyers and priests only know one way, they take yours. Preachers take up lips, Caesar caught them and held them for ransom. Oh yes, he brought his captors

home to fill the coffers of Rome. Rome knew nothing of farming. She only knew to get money through annexation and ransom.

Constantinople.

"After Rome fell came Constantinople."

Then Mr. Hubbard pictured the birth of Christianity in Constantinople, the purpose of its religion, and continued: "There never was but one Christian, and he was a Jew. With him died the race. There never was but one Democrat, and he was red-headed Thomas Jefferson, and when he died the race died."

"And Constantinople ruled the world. From the time Constantine ruled until the fourteenth century there was nothing of interest, according to Gibbon. In 1,000 years little of importance transpired. It is a long time to some of us since Lincoln was shot. His son is the president of the Pullman Car company, yet Abraham Lincoln never slept in a sleeper. He never saw a trolley nor a steel-framed skyscraper. He never had the pleasure of seeing a typewriter or a typist. We have made more progress in 40 years than for centuries."

Woman Discovered.

Following a brief outline of modern times, Mr. Hubbard said that you have to have laughter to keep your nerves. "Woman was discovered in 1876 by a fellow named Remington, over in Philadelphia." He spoke of Venice ruling the world, and of Spain then being the power. In describing the rule of Spain he said that the rulers demanded that the Jews go to their church, and as "Billy" Sunday was not there to scare them they left Spain. The downfall of Venice started when she started to persecute the Jewish race. Spain has been dying ever since she drove the Jews out, he said, and the only time he was ashamed of his country was when they declared war on this dying race.

SUNDAY MEETING AT POLLACK FACTORY

HINTS BY MAY MANTON.
TWO HUNDRED GIRLS AD-DRESSED BY CANTON CONVERTS.

Much Interest Shown in the Services—Other Meetings of Employees Scheduled.

Yesterday morning at 10:30 o'clock, Manager George Wilhelm threw open the doors of the big Pollack factory, in the East End, and welcomed a number of ladies, headed by Miss Taylor, oil of whom are Canton converts of the Rev. Mr. Sunday, coming here to assist in the evangelistic work.

All of the two hundred female employees of the factory gave marked attention to the good words that fell from the lips of the Canton women, and there were expressions of every hand out of the appreciation of the visit of the Sunday converts. The services were closed with fervent prayers for the girls and in the evening many of them attended the services at the tabernacle.

Manager Wilhelm stated last evening that arrangements had been made for holding meetings for the men employees of the factory in different churches of the city during the campaign, and also meetings at the factory. The management of the plant is thoroughly in accord with the movement, as is the case with many other factories where meetings have been held.

Pollack Men at Tabernacle.

An error was made in these columns in a statement that the March 10th meeting at the factory was held at the tabernacle last Tuesday evening. Instead, the Pollack single men were in attendance, and greatly enjoyed the sermon. The correction is made cheerfully.

Factory Employee Meeting.

About five hundred employees of the Wheeling Mail & Foundry company of the Pennsylvania shops passed the Sunday party at the plant at the same hour yesterday. The meeting was in charge of the Rev. L. K. Penstock of the Sunday party. Rev. E. D. Peppers of the McMechen M. E. church, and Chas. E. Newland, assistant secretary of the Young Men's Christian Association and chairman of the shop meetings committee of the Wheeling Evangelistic association.

A very interesting address was delivered by Rev. Mr. Penstock, which was followed by several addresses, including No. 22 in the red book, "How You Will Love Him."

An effort will be made to have some of the party hold another meeting one day next week. The men took a great deal of interest in the meeting, and it was thoroughly enjoyed by all present.
