THE QUESTION IS—CAN YOU AFFORD TO BE WITHOUT IT? All your friends by this time have a vacuum sweeper. Many of them bought before the price broke and paid the limit price, but not one woman so far as we have heard would take a twenty-dollar note for her sweeper if she could not get another. She finds it almost indispensable, economical, labor-saving and realizes that her rugs and carpets were never really clean until she got it.

## Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be washed with soap. The soap must be washed out, and no salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of water-glycerin, thymol and other ingredients for eczema and all other skin diseases. This compound is known as Dr. H. H. Prescription for Eczema. Dr. Holmes, the well known skin spe-

cialist writes: "I am convinced that the Dr. H. H. is ready for you." It will take a little longer to cure you than the Dr. H. H. is ready for you. I will take away the itch the instant you apply it. In fact, you are so sure of what Dr. H. H. will do for you that we will be glad to let you have a \$1 bottle, on our guarantee that it will cost you nothing unless you find that it does the work.
