THE POLICE COURT CASES.

Yesterday in police court two of the proprietors of drinking places in the City of Wheeling whose places were described in an article appearing in the Sunday News, were fined each \$20.00 and costs for violations of the city ordinances.

The offenses charged in these prosecutions have been carried on more or less openly in the City of Wheeling for months past. It is a notorious fact that some of the wine rooms have been run in open and flagrant violation of the law.

If this evidence has been an easy to secure, why has it not been secured by the Police Department of the City of Wheeling before this? That is the essential question.

IMPEACHING A JUDGE.

For the first time in many years the Senate of the United States is sitting as a court to try a Federal Judge for alleged misconduct in office.

The legal fraternity of the United States in particular owe it to the public to preserve the high character of the judiciary.

BREAKS A COLD, OPENS NOSTRILS.

PAPE'S COLD COMPOUND CURES COLDS AND GRIPPE IN A FEW HOURS.

The most severe cold will be broken, and all grippe misery ended after taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel all the disagreeable symptoms leaving after the very first dose.

The most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatism pains and other distress vanishes.

Take this wonderful Compound as directed, with the knowledge that there is nothing else in the world which will cure your cold or end Grippe misery as promptly and without any other assistance or had after-effects as a 25-cent package of Pape's Cold Compound, which any druggist can supply—contains no quinine—be- longed in every home—accept no substitu- tute. Tastes nice—acts gently.—Adv.

THE TYPHOID DANGER.

Dr. Alan J. McLaughlin, of the United States Public Health Service, declares that the ravages of typhoid fever in this country are worse in some respects than the plague in India or cholera in Russia.

The typhoid fever death rate is higher in America than in any other civilized country. In Edinburgh it is 1.3 per 100,000 persons.

AN ERROR IN CHARTER MAKING.

The members of the charter commission, at their last meeting this week, adopted an amendment which seems to be of very doubtful wisdom.

NEW NEWS OF YESTERDAY

(By E. J. Edwards.)

Blaine's Epitome of His Presidential Ambitions.

THE late Murat Halstead, who, as the editor and proprietor of the Cincinnati Commercial, was for twenty-five years one of the country's leading journalists, and a staunch friend and confidant of James G. Blaine,

"Undoubtedly," Mr. Halstead replied. "And I am also persuaded that it was Mr. Blaine's own conviction that if he were the candidate of the Republican party he would be elected President."

"As interesting as it is," said one of his friends, "I am certain that Mr. Blaine was convinced that if he were elected President his health would succumb, and that the anxieties, embarrassments and difficulties of the office would intensify the organic trouble which only he and a few of his intimate friends knew had seized hold of him."

"Halstead," he said, "I don't want to go down into history as a Tichborne claimant for a Republican nomination. You know, of course, Tichborne's estate and title in England by the name of the long missing heir, Roger Tichborne. For a time the words 'Tichborne claimant' were frequently used to signify that a person was making continued and desperate claims for some valuable thing or other."

"A few moments later Mr. Blaine epitomized by a single word the whole story of the nomination of General Garfield for the presidency in 1880. I had said to Mr. Blaine that some Republicans wondered whether the Ohio delegation to the Republican National Convention in 1888 might not really be in favor of the nomination of Governor Joseph H. Ferry for President instead of John Sherman, for whom the Ohio delegates had been instructed to vote. Quick as thought Mr. Blaine answered:

"No, that can't be done; the miracle of Garfield's nomination can never be repeated in our day. Foraker is a young man, an able man, a popular man. He will make a good Senator and some day he is likely to be the Republican candidate for President. But as I said to you, the miracle of Garfield's nomination cannot be duplicated in our day."

"Mr. Blaine, of course, referred to the fact that the Ohio delegation to the Republican National Convention of 1880 was requested to vote as a unit for the nomination of John Sherman. General Garfield was the chairman of that delegation. He made a great speech placing Sherman in nomination, but after many ballots Sherman was abandoned and Garfield was nominated. That was what Mr. Blaine termed the miracle of Garfield's nomination."

for thirty-three of the leading cities in Europe.

This is an appalling indictment of American sanitary conditions and of American indifference to disease. Typhoid fever is a preventable disease. The means by which it is carried are now known. Every death from typhoid fever is directly due to individual negligence or to unsanitary conditions.

UNCLE WALT: The Poet Philosopher.

When counted were the recent votes we found (and were dismayed) that \$7,000 goats were stolen, lost or strayed. And some who lost their treasured goats were grouchy, sad and sore. Five throats came smoking from their throats, they pawed the ground and swore. "We were the victims of a crime, a faction or a ring, but we'll get even yet," they shriek. "We'll grind our knives, their goats will fill dishonored graves, as sure as we're alive!"
