POLITICS IN BARBOUR.

The Farmers Having Their Eyes Opened. The Alliance Worked by Politicians. Correspondence of the Intelligencer.
Astoria, W. Va., June 20.—People in this section are truly glad of the nomination of Major McKinley for Governor of the great State of Ohio, because they know he deserves it and can be defeated by one of the old-fashioned majorities.

There is no longer the cry of "hard times" in this section. Cattle are bringing fair prices and sheep are extremely high. I can safely say the farmers will make more money than they have for the last ten years.

Some of the office-seekers in this county (Barbour) after being completely compelled to swallow all they had said about the McKinley bill, are now trying to work the Farmers' Alliance for all it is worth to accomplish their ends.

It was quite amusing to see the editor of the Barbour Jeffersonian, in order to get in the Farmers' Alliance (he being a lawyer and State Senator), to claim his paper to be strictly an agricultural paper. If this is a new departure in agriculture, God held the new science.
