JACOB W. GRUBB, Jeweler and Optician, Corner Twelfth and Market streets.

REV. DR. C. L. WORK, of Ohio, at Moundsville Assembly to-day.

### Came in a Duster.

The well the Hess Oil Company, of this city, was drilling on the Gale farm, at Middle Island, down the river, is in and nothing in it. The drill got through the sand yesterday, and the hole is a duster.

### Yesterday's Police Court.

There were only two cases before acting Mayor Jenson yesterday. Dave Powell was fined \$2 and costs for drunkenness, and Henry Hawkins, who got drunk and lay down in front of a locomotive to get killed, was dismissed.

### Death of Mrs. Clarence Laird.

Mrs. Clarence Laird died yesterday at the home of her parents in East Liverpool, Ohio, of consumption. She has been failing for several weeks, and about two weeks ago she was taken from the home of her husband to that of her parents and there breathed her last. She left one child, a bright boy aged five years. Mr. Laird has the heartfelt sympathy of all his numerous friends.

### Died at Toledo.

In another column will be found the announcement of the death, at Toledo on Sunday evening of Mrs. Eliza Fleming, nee Hunter, formerly of this city. She was an aunt of Mr. J. W. Hunter, of Wheeling, and the mother of Thomas W. Fleming, who met his death in such a shocking manner here recently.

### Mrs. C. W. Tunt Dead.

The many friends of Mr. C. W. Tunt, the Market street cigar manufacturer, will be deeply pained to hear of the death of his wife, which occurred late yesterday afternoon. She had been a victim of consumption for a long time. She leaves four children of tender years without a mother's care.

### A New Superintendent.

A meeting of the Board of Education's committee on buildings and grounds was held last evening, and the resignation of Homer C. Wells, who recently left the city, of his position as superintendent of construction of the addition to the Union district public school was accepted, and O. S. Philpot was chosen to fill the vacancy.

### The Iron Works Resuming.

The Riverside iron-works resumed work yesterday after being off for the fourth. The LaBelle also went on again yesterday. The Wheeling steel plant expects to resume this morning. A. J. Sweeney & Son are preparing another shipment of plate-glass machinery to Cochran Station, Pa., for the Howard plate glass works.

### At Clerk Hook's Office.

Clerk Hook yesterday admitted to record five deeds of trust and a deed made June 30 by F. P. Jones and wife to Walter H. Rinehart, for \$4,000, the north half of lot 3 in John A. Armstrong's addition, on the Island.

Louis Delbrugge yesterday qualified as executor of the will of F. A. Delbrugge, and gave bond in \$4,000.

A marriage license was issued to Thomas Woods, aged thirty-seven, a widower, and Ida Perry, aged thirty-one, both of Belmont county, Ohio.

### Condemnation Proceedings.

The case of the Terminal Railway Company vs. the West Virginia Tobacco Company, to appropriate for railroad purposes that part of the tobacco company's factory south of Eleventh street, was put on trial in the Circuit Court yesterday before Judge Boyd, on an appeal from the award of the condemnation commissioners. The jury is composed of the following free holders: Peter Miller, James Anderson, John C. Miller, Jerry Sheppard, Daniel Singer, M. R. Hobbs, F. W. Nesbitt, John E. Reed, Peter Bachman, Peter Cassell, T. T. Hutchinson and John M. Brown.

The case was still pending when court adjourned until this morning.

### CAUSED BY ELECTRICITY.

A Little Bit of a Fire Causes a Great Deal of Excitement.

Mr. E. A. Cameron, House & Herrmann's book-keeper, stepped into the office last evening at ten minutes after 7 and turned on one of the incandescent electric lights. A spluttering of fire followed, and the flame ran up the insulating material, with which the electric wire is covered, along the ceiling and would have gone up stairs, had not Mr. Cameron got a bucket of water and put it out. Some outsider turned in an alarm and the department turned out, but found its aid unnecessary. The room was full of the smell of the burnt insulating material, but no damage was done.

No one contemplating the purchase of a Bicycle can afford to do so until they have thoroughly examined the construction and investigated the merits of the Victor and Columbia. These wheels are unsurpassed in the world, and unequalled for American riders, as shown by their immense popularity. All grades carried in stock. Some second-hand wheels at ridiculously low price. EDWARD L. ROSE & CO., No. 51 Twelfth Street, Wheeling, W. Va.

REV. DR. C. L. WORK, of Ohio, at Moundsville Assembly to-day.

READERS of the INTELLIGENCER going out of town for the summer can have the INTELLIGENCER mailed to them for sixty-five cents per month, postage free.

## THE COUNTY BOARD

Elected a New Local Board of Health For Ohio County.

## REPAIRS OF THE NATIONAL ROAD

Estimated by Engineer Smith. Monthly Financial Reports and Other Matters of Interest at Monday's Regular Meeting.

The County Commissioners at their regular monthly meeting, all the members being present, elected a new Local Board of Health. Two ballots were taken. Dr. J. N. Shorts, of Liberty district, John W. Nichols, Richland, August Scheutzner, of Fulton, Dr. J. T. Carter and Dr. W. Petrie were the candidates. On the first ballot Shorts and Scheutzner were elected, and Nichols and Petrie had six votes each. On the second ballot Nichols was elected.

The annual financial statement of the clerk was read and filed, and the sheriff's list of delinquent tax-payers was read and referred to the Committee on Finance.

George W. Boring was chosen constable to fill a vacancy in Webster district. The bond of W. C. Weidman as County Superintendent of Schools was received and filed.

Bids were received from four parties for certain iron anchors to be built in the walls of the new jail, to accommodate swinging cots, and the contract was let to the Van Dorn Iron Company.

The matter of repairing the masonry of the Steenor bridge was referred to the road and bridge committee with power to act.

### REPAIRING NATIONAL ROAD.

County Engineer Smith presented a very complete detailed report of the estimated cost of putting the national road in good condition. He estimated for a clear width of twenty feet for all bridges built that at Cecil's, which is allowed a width of thirty feet and the total cost on this estimate is \$46,339.70. To reduce all bridges to a clear width of twelve feet would reduce the expense to \$36,339.70.

Of the repairs named it is stated that certain structures should be put in good order as soon as possible, at a cost of \$22,737.

The matter was then referred to the finance committee to investigate the condition of the road's finances.

### THE MONTHLY REPORTS.

Bills aggregating \$1,017 73 were ordered paid on recommendation of the committee on poor house and farm. The report of the superintendent of the infirmary showed 66 inmates in June, of whom 41 were white males, 21 white females, three colored males and one colored female. There were no births nor deaths. The property and inmates were reported in excellent general condition.

Bills from the road and bridge committee aggregating \$2,585 63 were ordered paid: from the court house and jail committee of \$107 10, from the finance committee \$350 00, Sheriff Steenor was credited with \$18,273 15, county orders paid by him.

A few minor matters were disposed of, and the Board adjourned at noon.

### THE REAL ESTATE MARKET.

Fictitious Prices Make a Really Lively Market Seem Quiet.

The following from an exchange applies with equal force in Wheeling:

There is a complaint among the brokers that owners of real estate are placing too high a value on their holdings, and that this makes sales slow and gives color of dullness to the market, whereas the demand is really good. It is always interesting to note the difference in value the owner of real estate gives to the tax assessor and that which he gives to the agent that is to sell the property for him. One can readily understand the owner's appreciation of the values in the different cases, nevertheless the suspicion is well founded that he goes to too great an extreme in one or both cases. It seldom happens that there is less realty on the market than there are buyers; on the contrary the very opposite is usually the case. Buyers are therefore in a position to make the best selection and have a voice in fixing the price and terms. The opinion is prevailing generally that real estate is sure to increase in value permanently, that owing to the liability of fluctuation in stock and other securities, real estate is the safest and best basis of wealth we have, and in anticipation of a "boom" based on these facts owners are not anxious to sell except at a stiff price. There can be no surer way to check sales and injure business than this; actual sales are the life of the business and are the only real evidence we have of values, except it be that of rentals. Brokers depending on commissions as payment for their efforts in negotiating sales and stimulating activity generally cannot look kindly on the proposition to increase values unjustifiably, and all such efforts should be discouraged as being inimical to the best interests of the business.

For Colds, Croup, Asthma, Bronchitis and Sore Throat use Dr. Thomas' Electric Oil, and get the genuine. Saw

From San Antonio.

August Hornung, a well known manufacturer of boots and shoes at 820 Nolan street, San Antonio, Texas, will not soon forget his experience with an attack of the cramps, which he relates as follows: "I was taken with a violent cramp in the stomach, which I believe would have caused my death, had it not been for the prompt use of Chamberlain's Colic Cholera and Diarrhoea Remedy. The first dose did me so much good that I followed it up in 20 minutes with the second dose, and before the doctor could get to where I was, I did not need him. This remedy shall always be one of the main stays of my family." Saw
