READERS OF THE INTELLIGENCER going out of town for the summer can have the INTELLIGENCER mailed to them for sixty-five cents per month, postage free.

Glass Scale Unsettled.

Neither the Central nor the Hobbs glass works have yet lighted its fires. Both are waiting for the wage scale to be signed. The conference committees of the manufacturers and workmen are still considering the points at issue, but so far no agreement has been arrived at.

The Acts of '91.

Hon. Robert White yesterday received from Col. J. B. Peyton, clerk of the House of Delegates, information that the bound volume of the acts of '91 will be ready for distribution in a few days. The book will contain about 1,800 pages and weigh six pounds. Clerk Peyton disclaims any responsibility for the long delay in issuing it.

Contract not Let.

The Fostoria Glass Company's board of directors met in this city yesterday pursuant to its adjournment at Moundsville on Monday, but the awarding of the contract for the foundations of the company's new buildings at Moundsville was again deferred. Advertisements for bids on the superstructure were ordered to be published.

"Kids" Licensed to Wed.

Clerk Hook yesterday issued marriage licenses to the following named parties: William H. Bigler, aged 27, of Columbus, O., and Katie A. Coppage, aged 23, of Wheeling; Lemuel Crow, aged 22, and Lizzie Hollings, aged 17, both of Wheeling; Harry Healy, aged 21, a native of England and resident of Homestead, Pa., and Fannie Hampton, aged 15, a native of England and resident of Bellaire, O.

A Child struck by a Horse.

Yesterday forenoon a woman carrying a baby and followed by a child of five years crossed Market street at Fourteenth. A passing milk wagon knocked the child down, but she was rescued without serious injury. Mayor Senbright, who witnessed the accident, lectured the driver of the wagon roundly for carelessness. The mishap seemed, however, attributable to the height of the dashboard, which prevented the man's seeing just ahead—a very bad kind of a dashboard to have.

Arrested for Horse Stealing.

Marshal Ed Keller, of Bridgeport, went to Portland yesterday and arrested Sam Birch, of that place, on suspicion of being the man who hired a horse and buggy from Hill's stable several days ago, but neglected to bring it back. He was brought to Bridgeport and committed to jail for a hearing. Birch protests his innocence, and the liveryman who hired the team identifies him as the man who drove it away. Whether Birch is the man will doubtless be learned at the hearing.

Live Merchants.

The retailers, at the meeting of their branch of the Merchants' Retail Commercial Agency last evening, held a regular jubilee. The occasion of their unbounded good humor was the many encouraging collection reports. Twelve merchants reported an aggregate collection of sixteen hundred dollars.

A committee was appointed to arrange for a banquet of the branch, to be held on the 18th of this month. Every retail merchant in the city, member or no member, is invited to be present on that occasion.

A Bellaire Woman Hurt.

Yesterday afternoon Mrs. Emil Lembiatte, a French lady living on Gravel Hill, at Bellaire, was thrown from a buggy at Wheeling Creek and very painfully injured. She had been calling on friends, and was just driving away when her horse became frightened and wheeled around so suddenly that Mrs. Lembiatte was thrown to the ground. One limb was broken and she was injured slightly internally. Dr. Van Wagner, the mine company's surgeon, was called and reduced the fracture. The injured lady was taken to her home, and was at last accounts resting easy.

OFFICER SCALLY "NOT GUILTY."

Justice Gillespy Dismisses the Policeman. A Good Talk.

At 3 o'clock yesterday afternoon Nick Halpin, accuser, and Policeman Pat Scally, accused, appeared before Squire R. H. Gillespy to hear his decision in the case of assault against the officer. The office was crowded with interested spectators.

The justice explained his decision, holding that an officer should be sustained by the courts in the discharge of his duty, but only when acting in the line of duty. In view of the somewhat conflicting testimony in some respects he gave the accused the benefit of the doubt, and discharged Scally.

Children Enjoy

The pleasant flavor, gentle action and soothing effects of Syrup of Figs, when in need of a laxative, and if the father or mother be constive or bilious, the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle.

Excursion to Pittsburgh Via the D. & O. Railroad.

Special excursion to Pittsburgh at the great exhibition at Recreation park, Fair's Last Days of Pompeii. The Baltimore & Ohio Railroad will sell excursion tickets for all trains after 12 o'clock noon on August 4 and 8, at one fare for the round trip, which includes admission to the exhibition. Tickets good to return the following day, and when sold on Saturday good to return Monday.

L. S. Good sells dry goods the cheapest.

## INTERESTING SESSION

Of the Marshall County Teachers' Institute Yesterday.

### SEVERAL BRANCHES DISCUSSED.

Teachers Take Part in the Instruction—Some of the Points They Discussed Upon—Book-Keeping Taught For the First Time.

The second day of the Marshall county teachers' institute opened auspiciously yesterday morning, with 114 teachers present, 58 gentlemen and 56 ladies.

The exercises opened with singing by the excellent choir, and Rev. H. Wilson, of Louisville, Ky., led in prayer, and read some selections from the Bible. Mr. Wilson is totally blind, and stated that when a boy he lost his sight through the carelessness and drunkenness of a physician, and that for nineteen years he had never seen God's sun light. He explained the print of the Bible from which he read, and the different branches of learning taught in schools for the blind, including many of the higher sciences and arts. The blind are taught arithmetic, algebra, chemistry, etc., thoroughly. As a rule, at the college he attended, five problems in arithmetic were given the student, and if he failed in a single one, he was placed back in the grade below. After school hours, which ended at 2:30 p. m., they were placed in the broom shop, where they learned to make brooms. They are also taught to crochet and do fancy bead work. The instruction to the blind, he said, was almost as thorough as that in other schools. A collection amounting to \$16 02 was taken up for Mr. Wilson to aid him along with his college course.

Instructor D. T. Williams opened the subject of arithmetic. He gave an exposition of numbers, explaining the different methods of expressing and reading numbers.

A TRIFLE DISCUSSED.

One suggestion of the instructor elicited some discussion. He had on the board the number 7,465, and asked to have it read. It was read "seven thousand four hundred and sixty-five." He said that some of the best later authors omit the and, and give it "seven thousand four hundred sixty-five," and that he was inclined to adopt that method of reading numbers. He further said that it is the practice of many of the most noted speakers, ministers and lawyers. The majority of the teachers preferred the old method.

The next topic, "Orthography" was under the instruction of Mr. T. J. Parsons. Mr. Parsons gave a thorough and technical class drill in the elementary sounds. Some of the teachers found it difficult to give the proper sounds, though they knew when they were correctly pronounced.

Grammar was the next on the programme.

Instruction on the subject was given by Mr. J. T. King, who confined himself to the infinitive used as a noun. Sentences embracing infinitives were written on the board, and the teachers requested to parse the words. Some parsed according to one authority and some another. Mr. Holbrook's work on grammar was criticised by some, and sustained by others. Exception was taken to Mr. Holbrook where he says in his work that the sentence, "It is me," is proper. It was thought by some that the nominative, I, should be used, and not the objective, me. This was given as one of the errors in his grammar.

CIVIL GOVERNMENT

was the only topic at the afternoon session. This subject was assigned to Mr. E. Bonar. Mr. Bonar had an outline of the Constitution of the United States written upon the board, and proceeded to explain the different branches of the government, and to ask questions concerning them.

A lively discussion was brought out on the money question, and the national banking system. The argument became so spirited that Mr. Bonar refused to hear further discussion of these particular questions. Mr. Chase wished to appeal to the chair; but Mr. Bonar would not permit him to do so.

In discussing the legislative branch of the national government, Mr. Bonar asked if a man, resident in another State, were eligible to be elected as Senator for this State. Several teachers answered in unison that they could do that in Ohio, but not in West Virginia. It was finally decided, however, that under the constitution one to be eligible to the Senate must be a resident of the State for which he is elected.

The next topic, "Bookkeeping," was assigned to Mr. Robert Riggs, who at once went into his subject in a practical way. The board was constantly used to explain this branch of study. This being a new study in the schools of this State, and one in which the teachers are to be examined this year for the first time, close attention was paid to the instructions.

Mr. W. S. Powell followed with a practical class drill on the maps of Europe. Its boundary, area, principal rivers, mountains and products, forms of government, in fact, almost everything pertaining to that continent was brought out.

The subject of reading was under the instruction of Mr. Robert Riggs. This is a subject usually hard to interest an institute in, but Mr. Riggs succeeded in creating a lively interest in it yesterday. His treatment of the subject will be even more interesting to-day.

The topic of school government for yesterday was assigned to Mr. Joiner, the only colored teacher present. He handled the subject in a way that showed him to be a proficient teacher.

The session closed with an hour's talk on general history by T. J. King. Last evening Prof. F. M. Dowling lectured on "Christianity and Civilization." This evening the customary reception will be tendered, and an attractive literary and musical programme will be rendered. To-morrow evening Rev. Dr. J. D. Moffat, President of Washington and Jefferson College, will lecture.

## WHEELING INSTALMENT CO.,

What we offer this week are goods of an "immediate need" character, entirely reasonable and withal indispensable. They may have met your eye at other places, but never has it rested on them at our prices, which are always the lowest and which will, this week, be on these "immediate need" goods lower than ever. We have Ice Chests at \$6; we have them, in fact, at any price. Your attention, however, we would have especially directed to our large Solid Ash Ice Chests, guaranteed charcoal filled, for \$9, worth \$12. We cannot stop to talk about their worth; it's entirely foreign to our present considerations of how many of these goods we have and how long it will take to dispose of them. We have adopted the most expeditious plan by reducing prices. This same reduction applies to our entire line of Ice Chests and Refrigerators. In warm weather needful we offer four-gallon Water Coolers, that is the same Cooler that sells regularly at \$3 50, for \$2 25 each; three-gallon Water Cooler \$1 75, former price \$2 75; two-gallon Coolers 75c each.

In Baby Carriages we have an assortment hard to beat in Reed and Rattan Bodies, upholstered in all shades and qualities of upholstering goods, which we sell for cash or on credit.
