of us. We are in the position to know, and we put our values in the category where they belong. We will leave the comparison to any competent judge, and the verdict will be in our favor. We've never lost our right of leadership in competition yet. You know cheap tailoring has reached its just deserts. The fathers of it are forsaking the faith, for we've bettered them at every point. We're ipproyng ourselves all the time. We've always had

\$8.00, \$10.00, \$12.00, \$15.00 and \$20.00

Suits and Overcoats

TO SELL, BUT NEVER SUCH PERFECT ONES.

Around these prices we've gathered the fruits of wisdom bought by experience. We have figured and worked until we can make a dollar do almost double duty, and you've only to walk in our foot-steps.

If you think we haven't succeeded, if you are still sceptical, spend an hour with us and see the class of men we clothe, and from these popular grades see how perfectly we fit them, how easily. As then themselves, what we save them. Ask them if satisfaction isn't the invariable result of a visit to us. Among the masses of humanity they are better dressed than the average.

The variety that is offered here is ten times greater than any tailoring shop can afford to carry. Search about town into every store that sticks out a clothing sign, and we'll count styles with any three of them. We trust our reputation in every garment we sell; it's right as we know right; perfect as we know perfection. Before your money closes the sale, and then, in spite of our extreme care and precaution, it fails, we're ready and anxious to buy it back at the original price. No wonder men feel safe in trusting their appearance and their purses to
