

HE ENJOYS JAIL LIFE.  
Debs Says He Had the Best Night's Rest for a Month.

THE OTHER ARRESTED OFFICIALS

Express the Same Opinion of Their Confinement—Vice President Howard of the American Railway Union Springs a Sensation—He Claims That Men in the Employ of the Managers' Association Fired the Cars, and That the Blue Island Mob Was Led by a Pinkerton Man Employed by the Railroads.

CHICAGO, July 18.—President Debs passed a fairly comfortable night at the county jail and early to-day ordered a good breakfast brought in from a neighboring hotel. Debs refused to be seen by interviewers and he and his associates kept close in the seclusion of their cells.

Debs seems to enjoy jail life, and so do George W. Howard, vice president, Sylvester Kehlor, secretary, and T. W. Rogers, a director of the A. R. U., and all of them were smiling and in the best of spirits to-day after their first night's experience in the Cook county jail. A large party of personal friends of the imprisoned strike leaders called early at the county jail and the daily corridor scrubbing was in progress, and no one was admitted for some time.

President Debs sent word down to the waiting visitors that himself and friends had enjoyed a good night's rest and had nothing to say that would interest the public.

Before 11 o'clock Debs came from the cell to meet his stenographer, who had arrived with a bundle of mail for him. The president was in good humor. I had the best night's sleep I have had in a month or more," he said. "Nothing disturbed me, not even the ghost of that man who was hanged the other day, and whose spirit is said to be roaming about in here. I have absolutely nothing to add to what I've already said concerning our arrest. We are here, and will stay here until next Monday at least."

President Debs then fell to looking over his big batch of mail matter. Vice President Kehlor came down from his cell in the debtors department, and while awaiting his turn in the barber's chair said: "We are enjoying this respite from work."

At the county jail to-day Vice President Howard of the American Railway Union made the following statement: "This thing is going to be a test case. We don't consider ourselves bigger than the law and, incidentally, we think the railroads are not. We are getting some evidence for the coming legal battle, and we consider it a very fair grade. Here is a letter I have received telling of evidence that most of the freight cars burned here in Chicago was done by two men in the employ of the general managers' association. One of the secret agents of a certain committee saw two men on the night of the big fire going through the yards with a hand car loaded with inflammable waste which they lighted and systematically threw among the cars. This agent overheard a conversation between the men from which he learned that they were paid \$200 down and were to receive \$300 more when the job was done. An effort is now being made to arrest these two men."

"We further have very positive evidence that the big man who led the mob of 5,000 at Blue Island was a Pinkerton man employed by the railroads, and it is significant that although he could be easily identified yet he has not been arrested. It is safe to say that this case will not be entirely one-sided."

MANY RAILROAD MEN

Apply For Their Old Positions to Find Them Filled With New Men.  
TACOMA, WASH., July 18.—Three hundred and fifty-one employes have been put to work on the Pacific division of the Northern Pacific since the strike began. Practically all the old engineers have returned to work. Many of the switchmen, conductors, freight clerks and some of the firemen who quit have filed applications for their positions, but not all could be taken back, as now men had been engaged. The road would be in operation as usual from end to end, the officials say, but for the guerrilla warfare that is being continued. The force of deputy marshals in this state has been reduced from 300 to 200. All bridges are being guarded, chiefly by regulars.

Rioting 'Longshoremen.

OSWEGO, N.Y., July 18.—Rioting 'longshoremen entered the houses of James Sexsmith and Isaac Donemoro, non-union men, during the night and brutally assaulted them. Sexsmith's wife came to her husband's assistance and was also beaten. The 'longshoremen then stoned non-union men's houses and threatened to hang the men if they should unload barges to-day.

More Savage Than Indians.

DENVER, COLO., July 18.—General McCook is heartily in favor of General Schofield's policy of concentrating the federal troops at posts in the vicinity of the large cities. He believes that a larger garrison should be kept at Fort Logan near this city. "Disorderly mobs in big cities," said the general to-day, "have shown themselves to be more savage than the Apache Indians, and they will from now on be more severely dealt with. In this department, however, perhaps more than any other, the necessity of a few scattered garrisons still remains. Arizona and New Mexico are still full of Indians."

Strike Declared Off.

LOGAN, O., July 18.—The Columbus, Hocking and Toledo strike has been declared off and all the men at this place returned to work to-day.

National Tube Works Strike Ended.

PITTSBURGH, PA., July 18.—After nine weeks of idleness, the 5,000 strikers at the National Tube Works at McKeesport met to-day and declared the strike

off. The plant partially resumed on Monday under the guard of three hundred deputies, and about sixty-five men were at work to-day. A general resumption will take place in a few days.

GRESHAM'S LETTER

To the Japanese Government a Subject of Interesting Speculation.  
WASHINGTON, D. C., July 18.—Much interest was aroused in official circles here to-day by the publication of a long statement purporting to contain an extract from a dispatch sent by Secretary Gresham to the Japanese government, saying that the United States views with regret the levying of an unjust war by Japan upon a weak and defenseless nation like Corea.

Immediately efforts were made to confirm this story, for it was assumed that if the secretary was correctly quoted he had gone to an extreme length in thus addressing the Japanese government, and that the result would be a serious diplomatic complication, as the Japanese would be sure to resent the secretary's expression as an unwarranted interference.

It happened that Secretary Gresham was indisposed to-day and kept in his room in the Arlington, but he was induced to send word that he could not at this time say anything either in denial or affirmation of the publication, as the correspondence is still in progress, and to make a partial voluntary publication would violate diplomatic practice. Since the subject has attracted so much attention, however, it is almost certain the senate will adopt a resolution calling for the correspondence, and in that case the secretary's scruples will not be strained in making a full and complete response.

VOORHEES RETURNS THANKS

To a Grand Army Post for Their Support of His Pension Bill.

SAN FRANCISCO, CALA., July 18.—Senator Voorhees has written a letter to Liberty post, G. A. R., of this city, thanking the post for its support of a bill introduced in the United States senate by him recently, to provide for the payment of pensions to all veterans of the late war at a minimum rate of \$13 per month. Senator Voorhees says: "I hope to be able to secure the passage of the bill in question, and feel that still much more ought to be done for those who in their youth saved the government from destruction, and which now in their old age, are entitled to the care and affection of every patriotic heart throughout the Union."

THREE DROWNED

By the Capsizing of a Boat—One Drowned Before the Rescuers' Eyes.

PORT ANGELES, WASH., July 18.—In a drowning accident near here J. H. Johnson August Nelson and John Dipold lost their lives. The three left yesterday afternoon in a fishing boat for Dungeness Spit, four miles east of the city. Their boat capsized in view of people on the beach, who heard their cries for help, but having no boats, could render no aid.

Rescuing parties started out soon afterwards. Eight miles east of this point Nelson was seen on the upturned bottom of a boat, five hundred feet from shore, trying to paddle to the beach. On perceiving the rescuing party he sprang into the water and was drowned before their eyes.

Attacked the British Consul.

LONDON, July 18.—A dispatch to the Times from Shanghai gives additional details regarding the news received there from Seoul, the capital of Corea, that Japanese soldiers recently assaulted the British consul at that place and his wife, which resulted in the landing of thirty British blue jackets to guard the British legation. The consul was dragged fifty yards, and was beaten by the Japanese soldiers, who used their fists repeatedly. The chair of the consul's wife was pushed into a ditch. The British consul drew up a formal complaint and sent it to the Japanese minister, but the latter only sent a curt reply and made no apology.

Whipped by Whitecapers.

LOUISVILLE, KY., July 18.—A special to the Post from Columbus, Ind., says: Whitecapers have invaded Brown county and have terribly beaten the entire household of Perry Bloomfield, consisting of wife, father and three brothers by the name of Stephens and their wives. They were taken from their beds and fearfully whipped. The youngest of the Stephens brothers attempted to escape, but was shot through the heel and captured by the whitecaps and unmercifully whipped. A number of others were warned to leave the county within a certain time.

Pilgrims to Lourdes.

NEW YORK, July 18.—A company of pilgrims, bound for Lourdes, sailed from this port in two detachments, the Paris carrying 120 and the Nostrand 67 of them. They have planned to visit, enroute, Milan, Venice, Florence and Rome, and in the latter city have been promised an audience with the pope, who will bless the banner they take to Lourdes.

SHOT HER FATHER

To Save the Life of Her Mother, Who Was Being Abused by Her Husband.  
LOUISVILLE, KY., July 18.—Mrs. T. F. Meagher, thirty-two years old, shot and killed her father, John Aschbacher, to-day at 10:15 o'clock, at No. 145 Washington street. Mrs. Meagher fired three shots at Aschbacher, only one of which took effect. The ball entered Aschbacher's heart, and he died instantly. Aschbacher was abusing his wife when shot by his daughter. He had beaten and kicked her in an unmerciful manner. Mrs. Aschbacher is now in bed, and is said to be dying from a kick in the stomach inflicted by the brutal husband. After the murder Mrs. Meagher drove to the jail with her husband and delivered herself up to the authorities.

Oil Steamer Burned.

New York, July 18.—The American bark Emma T. Crowell, of Searsport, Maine, Captain Pendleton, sailed yesterday for Shanghai laden with case oil. She was towed to sea and landed her pilot on the station boat at the bar shortly before noon. All went well until 6:20 p. m., the vessel then being about two miles south of Fire Island. About this time one of the crew noticed smoke issuing from the forward deck. The hatch was immediately battened down and orders given to lower away the boats and abandon the vessel, which was apparently doomed to destruction. All hands embarked and left the vessel. White Star steamer, Ronic, hove in sight and took all on board. She then put about and steamed for the Scotland lightship aboard which the crew were put. They remained there until morning when they were brought to this port.

Ovation to the Minneapolis.

PHILADELPHIA, July 18.—The cruiser Minneapolis has reached her dock at Cramp's shipyard. She came up the river as far as League Island navy yard last night, but owing to shoal water and the heavy fog which rendered navigation in the Delaware dangerous, she dropped anchor. When she weighed anchor this morning and started for her dock she received the greatest ovation ever given a boat on the Delaware. Craft of all descriptions saluted the big cruiser, and the screeching of her big steam whistle in response to the salutes continued with scarcely an intermission for ten seconds until she was made fast to her dock.

Quay's Tariff Speech.

WASHINGTON, D. C., July 18.—There are about eighty pages of the Congressional Record in type containing the last portion of the speech of Senator Quay. This has not been delivered, but it is understood that the Pennsylvania senator would be allowed to have it printed as a portion of his remarks. There is now rumor to the effect that Mr. Quay is preparing to deliver it when the conference report is presented. He was asked if he was fixing up his speech and said: "I am preparing a new one."

Those Special Warrants.

WASHINGTON, D. C., July 17.—Chief Hazon, of the secret service, to-day received a telegram from his agent at St. Louis, stating that he had in his possession the plates from which the "special warrants" issued by the state of Mississippi were printed. After consultation to-day with Secretary Carlisle Chief Hazon said he would send one of his special agents to Jackson, Miss., to confer with Governor Stone and explain to him in what respects the issuance of those warrants is a violation of the United States statutes.

What Insurrection Leads To.

New York Evening Post.  
The "sacred right of insurrection" which went down before Napoleon's grapeshot, had no other substantial result than to set him astride of France and Europe. That is the classic example of the making of a dictator. The Debses and the Sovereigns are his prophets and precursors. They are the men who shake the faith of Herbert Spencer in the steady evolution of democracy. To escape from their society and property, and all that makes civilization precious will throw themselves into the arms of any man who will guarantee them continued existence, even if it be an existence gained by steel and fire.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. Viz., 16, our large company of excursionists now traveling through all the picturesque regions of the United States and Canada, are conducted into the world-famous

Yellowstone National Park

And Show the Numerous Marvels of that Mysterious Region:

All the curious geysers, some of which vomit streams of mud, stones and water to a height of 200 feet, others that simmer like a Devil's stew, and growl like subterranean monsters; the extraordinary formations that resemble stalactites and rainbows; great canons with walls frescoed by nature in richest colors; rivers plunging over enormous precipices; basins of boiling water in cones rising from Yellowstone lake; snow-covered plateaus in summer; remarkable petrifications; lakes that look like prisms; fossils of extinct animals; Death Valley, and many other astounding wonders that render this the most truly unparalleled district of our globe.

These Amazing Curiosities of Nature,

in all the whims which she is capable of exhibiting, in all the magnificence of her variable charms, in the glory of her strength and the beauty of her protean attractions, are reproduced in GLIMPSES OF AMERICA, in a series of exquisite photographs and described in an equally eloquent and realistically graphic manner.
