It's Education— simply a matter of education—the use of Pearlina for washing and cleaning. The bright women, those who learn quickly, are using it now. The brighter the woman, the larger her use of it—the more good uses she finds to which she can put Pearlina. Dull women, those who never use new things until their bright sisters have drummed it into them—they use it presently. It's just a question of sooner or later, with every woman who wants the best.

Send Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearlina." IT'S FALSE—Pearlina is never peddled, and if your grocer sends you something in place of Pearlina, honest—send it back. 404 JAMES PYLE, New York.
