newed on the same basis of digging, 79c per ton, for two years, ending September 15, 1895. The said Henry Floersheim was to deliver the coal at works for $1 34 per ton.

CONTRACT.

The within contract between Henry Floersheim, of Finlayville, Pa., and the city of Wheeling, W. Va., is hereby renewed for the term of two years, commencing the 15th of September, 1893, and ending September 15, 1895. Price $1 34 per ton delivered at works, city weight, and subject to all its provisions in every respect.

Witness our hand and seals this 6th day of September, 1893.

H. H. DUNLEVY, Prest.
WM. H. SHAFER, Trustee.
A. J. SCHULTZE, "
HENRY FLORSHEIM, "
Trustees of the Gas Works of the City of Wheeling, W. Va.

We find that the trustees have been paying the hauling on said coal and therefore we have charged the said Henry Florsheim for the hauling said coal from September, 15, 1893, to September 15, 1895, with interest to January 1, 1896, according to the contract, he agreeing to deliver said coal at the works; we have also charged him for the difference in the price of digging, as we have it from a reliable source that the price of digging came down from 79c to as low as 55c in the time mentioned in said contract from September 15, 1893, to September 15, 1895.

We also find an account opened in the Ledger on pages 150 and 154 as follows:

1894. H. FLOERSHEIM.

February—
To C. W. Rixey, for hauling.....$ 169 59
To cash, paid freight..... 951 20

By coal account.....$1,120 79

March—
To C. W. Rixey, for hauling.....$ 171 27
To C. W. Rixey, for hauling..... 159 12
To cash 2,563 10
To cash, paid freight..... 607 08

By coal account.....$3,500 57

April—
To C. W. Rixey, for hauling.....$ 166 29
To C. W. Rixey, for hauling..... 98 04
To cash 1,295 64
To cash, paid freight..... 601 25

By coal account.....$2,101 23

Which you see was closed in to the coal account and proves that H. Floersheim was to pay the hauling.

We find on March 1st, 1893, settlement a mistake made by the secretary that Henry Floersheim could not have overlooked and would not have done so if it had been against him. In this case, the secretary in copying from the weigher's book forgot, or did not, take off the weight of the wagons, but allowed for the gross weight, making an over-pay of 7¾ tons of coal at $1 14 per ton, (this was to be run of mine coal for electric light plant) making $8 98, but it seems to be the same old thing, nobody looking after the interest of the city; in this settlement there was 355.65 tons nut coal which was paid for as run of mine coal, which in all of Henry Floersheim's bids that we have been able to find in the gas office, was 5c per ton less than run of mine coal, and therefore your committee have charged the said Floersheim back with the difference, amounting to $17 75 with the overcharge of $8 98, making $26 73 with interest to January 1st, 1896. We find nut coal charged up as run of mine coal charged besides the aforesaid mentioned nut coal in April 15th and 30th, May 15th and 30th. In July settlement we find an overpaid of $7 16 and an overcharge of 2.76 tons at $1 30 per ton, making $3 19 a total of $10 65 with interest to January 1st, 1896. The trustees, who are, or should be, looking after the interest of the city, continued to pay the price of run of mine coal for nut coal delivered to electric light plant, as we find in the 15th day of September settlement an overcharge for nut coal; same in September 30th settlement, and so it continues up until the 31st day of March, 1894. To cap the climax, the trustees paid him for car No. 290—20.71 tons nut coal (that Teasdale would not receive, for reasons we do not know) but we do know it was received and weighed at the gas works and placed on the weigher's book as car No. 290—20.71 tons nut coal and a statement made by the assistant secretary and in said statement it is very plain, as he puts it, car No. 290 (nut) (No. 40,710, the check mark in red ink is Henry Floersheim's check mark for correct as checked by him) makes 20.71 tons and pays him $1 34 per ton, the price paid for clean coal delivered at the gas works, and overpaid charge of 25c per ton. To make this plain, we return March 31st, 1894, settlement for examination.

Just here we will state that Henry Floersheim gets from the weigher at the works a statement of the cars unloaded and weighed every day, the weigher sending him a postal with the cars unloaded and the amount got out of every car, which enables the said Floersheim to check up and see wherever there is a mistake in his favor, or not, and in the six years that we have gone over the books we have only found one time when there was any mistake against Floersheim, and that was for only one ton of coal, and we have his letter notifying the secretary to make that good in the next settlement, which he did. But we have found where the secretary, W. H. Fee, has copied from the weigher's book and made a mistake of 1,000,000 pounds of coal, making 500 tons, and Mr. Henry Floersheim checked that up after receiving the daily statement. He did not notify the city. (This was in the monthly statement, rendered October 31st, 1894, by the secretary, W. H. Fee.) No, but he claimed it, and made the city pay him not only for the 500 tons of coal he did not deliver, but made the city pay him interest on the amount. We have charged him back with the amount of the coal and the interest he charged the city, 500 tons of coal at $1 34 per ton, $670 00, interest paid on same to January 15th, 1895, $8 37, making $678 37 with interest to January 1st, 1896. There are other overcharges prior to this of small amount, which we have charged back to Henry Floersheim, which we expect to collect from him in final settlement.

We find that on December 17th, 1894, the trustees charged up to coal account $30 49, which they knew the said Floersheim ought to pay, as it was for hauling coke, and paying freight on said coke for said Floersheim, and here is another instance where the city has nobody looking after its interest. We have charged the amount back to Henry Floersheim with interest.

June, 1895, the secretary, W. H. Fee, settled with the said Henry Floersheim, by and with the consent of the trustees of the gas board, as their records show, and paid him $364 60 more than the coal delivered by the said Floersheim amounts to. (See statement from books as to cash paid.) And as the secretary, W. H. Fee, from the day he entered the office, never entered the amounts of tons of coal or the price per ton on the books, but entered in lump, as you will see below, we *therefore had to go to the* statements to find what we have discovered, the overpay of $364 60, and had the city of Wheeling had some one looking after her interests, the overpay could not have occurred.

1895. FROM CASH BOOK.

April. To cash paid freight, voucher.....$ 611 12
June. To cash paid freight, voucher..... 691 76
June. To cash paid H. Floersheim .....$3,527 76—$4,831 41

FROM STATEMENTS.

February 28. By 1,750 54-200 tons coal, at $1 25.....$2,187 83
March 21. By 610 91-200 tons coal, at $1 25..... 763 66
April 30. By 1,151 62-200 tons coal, at $1 34..... 1,515 95—$4,466 84

Overpaid ..... $ 364 60

Why we say this is, the secretary lays before the trustees the statements, also the vouchers paid on account for freight. You will see from the above statement, had the city of Wheeling had any one looking after her interests, the overpay could not have occurred, but the records of the gas office show that the secretary was ordered to draw a check to pay Henry Floersheim the amount of $3,527 76 and when they did that they paid him just $364 60 more than they owed him, if they had the vouchers before then that their records show they have paid as freight for him, and if they did not they are more to blame for their neglect of duty as trustees.

We find that Henry Floersheim thought he was still in it and insisted, and was paid, for two cars of coal he said he delivered in December, 1894, and was paid for said two cars in October, 1895, $61 24 and interest, $2 85, amounting to $64 09. We have found that Henry Floersheim was paid for one of these cars in the December, 1894, settlement, and that Mr. Teasdale has paid him for the other one December, 1894, and therefore we have charged him back with the amount paid, $64 09 with interest to January 1, 1896. We also find an overcharge in October, 1895 settlement of $63 93, which we have charged him with, and here occurs another instance of where Secretary W. H. Fee shows his friendship for Henry Floersheim. He is now elected auditor and is auditing his own statement for the month of October, 1895.

We want to call your attention to our new contract for coal, at $1 15 per ton, commencing September 15, 1895. We were paying $1 34 per ton up to that time, and when the secretary, W. H. Fee, made up his statement he made it for 602 161-200 tons of coal at $1 34 per ton, when it should have been 355 187-200 tons of coal at $1 34 per ton, making the city pay to Floersheim $46 90 more than she ought to have paid. According to the weigher's books where we got the coal weighed up to September 15, 1895, was as above, 355 187-200 tons, and besides the secretary, W. H. Fee, overpaid the said Floersheim $17 03 in this settlement, which could not be found without going back to his statements. The difference between the 602 161-200 tons and the 355 187-200 tons should have been in when we put them in the settlement made September 30, 1895, at $1 15 per ton, but you can easily see why he wanted it where he put it, was to give Henry Floersheim the benefit of same.

We find the office of the gas works has been run very loosely, as we find in the delinquent accounts many accounts marked "paid" and not entered in the cash books. And we also find many accounts not marked paid, when we go to collect them the parties named on the delinquent list show a receipt for same, making it very plain that the *secretary and collector for the last two* years have been using and not accounting for same; how much we are at present unable to say, as we have not got through checking up the delinquent accounts.

We find that the trustees have allowed the secretary to get in $52 36 freight on coal three times. We have also found where the trustees have taken credit for $376 46 three times and have paid it but once. They are therefore liable, under their bond, for that amount. They also ordered a check drawn to pay freight for James Gardener, jr., for $35 88. There is no voucher for same, and the amount has not been collected from James Gardener, jr. This amount was paid out of check No. 1812 to pay sundry bills, the bills being paid out of the cash in the safe, and the check written and signed and deposited to offset the cash paid out of the safe and placed to the credit of the trustees.

We also find the trustees have overpaid C. W. Rixey for hauling, the amount of $161 82. July 7, 1894, they advanced the said Rixey $50 00. The secretary had him sign a receipt for same and laid it before the board, and had that amount included in a check to pay sundry bills. He had also paid C. W. Rixey, for hauling 14,376⅝ bushels coal at 75c per 100 bushels, amounting to $107 82. On May 31, 1894, and on July 14, 1894, he settled with C. W. Rixey again, and paid him for 32,939 2-8 bushels coal at 75c per 100 bushels, amounting to $247 04; included in said settlement, the aforesaid 14,376⅝ bushels coal already paid for, making an overpay to the said Rixey of $50 00 and $107 82; total, $157 82. And on September 1, 1894 settlement he overpaid him $4 00, making the total amount overpaid C. W. Rixey, $161 82. We also find that Secretary W. H. Fee has collected from C. W. Rixey for coke, $8 12 twice, and has turned it over to the city but once.

As we understand the contract with George H. Harvey & Co., for the new process, they were to put everything in complete running order, the city to pay for nothing until everything is complete and satisfactory. We find in the order book of the gas trustees an order to draw a check to pay C. P. Hamilton & Co. $170 58. Said check (which you will find with this report, also bill for same approved by the board), was drawn for the above amount, payable to "cash," and not to C. P. Hamilton & Co., for $170 58, and endorsed by J. A. Holliday & Son. The money was paid to the said J. A. Holliday & Son by the secretary, W. H. Fee, and the check deposited to cover the cash paid out of the drawer. We call your attention to this for the reason the city did not order the work done and should not have paid the bill, and, therefore, the gas trustees have erred in their duties, and should be made to cover that amount back into the city treasury.

We would call your attention to the way the contract was given out, and as Mr. Dunlevy has been in the board for the past six years, we take it for granted they have been following the precedent established by them. On February 7, 1893, Henry Floersheim bid to furnish coal for the electric light plant at $1 14 per ton of 2,000 pounds, actual railroad weights, as weighed on Baltimore & Ohio railroad scales at Finlayville, Pa., (Floersheim's own words were that "he had the man at the scales fixed to weigh to suit him." That was to cover something else, but it suits here). The bid of the Elm Grove Coal Company, to furnish coal for electric light plant was $1 12½ per ton, of 2,000 pounds, "delivered in your coal house at plant." The cost of hauling was 18¾c per ton, which makes the Elm Groe Coal Company's bid just 20¼c less per ton than Henry Floersheim's bid. But still the board of gas trustees awards the contract for furnishing coal for the electric light plant for that year to Henry Floersheim, "he being the lowest bidder."

After this contract was awarded to Henry Floersheim, we have a letter from the Glendale Coal Company saying they would furnish run of mine coal for 85c per ton.

The minutes of the board of gas trustees of September 16, 1895, show that the contract was awarded to Henry Floersheim, "he being the lowest bidder," as per former precedents, only worse. His bid was taken out and the secretary, W. H. Fee, and Henry Floersheim went into the office of John A. Howard, the prosecuting attorney for this county, and there dictated a proposition to Miss Kate Howard, which she reproduced on the typewriter on one of Henry Floersheim's letter heads. The bid we found in the gas office and the bid he was given the contract on as the lowest bidder. The gas works uses clean lump coal. Here are the bids. You can see how the said Henry *Floersheim is the lowest bidder:*

H. FLOERSHEIM'S BID.

	Cents.
Clean lump coal	1.15
Three-quarters coal	1.05
Run-of-mine coal	.95
Nut coal	.90
Average for four bids	4.05 / 1.01¼

R. H. D. WILLIS' BID.

	Cents.
Clean lump coal	1.10
Three-quarters coal	1.05
Run-of-mine coal	1.00
Nut coal	.95
Average for four bids	4.10 / 1.02½

Henry Floersheim, the lowest, 1¼c on the average of the four kinds of coal, but on the coal used at the city gas works, Henry Floersheim is 5c per ton more than Willis' bid, which would make in one year, as we use not less than 16,000 tons of coal, $800 a year and Henry Floersheim gets that amount more than his competitors as "the lowest bidder."

Your committee has called your attention to the bill of C. P. Hamilton & Co., for constructing the house for the Harvey Process Company, which was paid by order of the board of gas trustees, as shown by their minutes, Dunley and Holliday being the only members present. We now call your attention to a bill which the city is bound for, and may be sued for, as the party has so threatened.

WHEELING, W. VA., Sept. 9, 1895.

To W. H. Fee, Secretary City Gas Works.

Please issue an order for the following: Isabelle Porter Company, No. 245 Broadway, New York, for two 16-inch valves, with hub same as cut, with inside screw; eight 6-inch "F" long-lever valves. Ship right away.

Order No. —

S. M. DARRAH, Superintendent.

The secretary, W. H. Fee, issued said order on a blank from the gas office order book, and failed to fill out the stub. You never would have known that such an order was made had not the Isabelle Porter Company so notified the secretary of the board of gas trustees that they held such an order, No. 3,763, (the same number as the unfilled stub) and signed by W. H. Fee, secretary, for the valves, etc., billed on October 9, 1895, which bill amounts to $277 00.

The valves, etc., were for George H. Harvey & Company, who are putting in the Harvey process at the gas works.

There are people who leave a deposit to secure the city for any gas they may use. The deposit account is credited with same. They pay along and afterwards drop out of sight, and their bills are put on the delinquent list, the deposit not being enough to pay said gas bill. They never ask for their deposit, and therefore there was $66 30 on the credit side of the said account. The secretary, W. H. Fee, says he called the board's attention to same, and they ordered him to close said account, which he did by drawing a check for same and crediting the gas trustees and paying said amount to nobody, which was taken out of the cash, and the city lost it. We think the trustees are liable for that. They should cover said amount back into the treasury.

YEAR ENDING APRIL 1, 1891.

Bushels coal bought	3,976.52
Bushels coal used	3,909.17
Loss	67.35
Or 265 tons.	

We offer for your consideration and adoption, the following:

Resolved, That the city solicitor with this committee be ordered to proceed and collect the amount of this bill, $12,033 36, from Henry Florsheim, or the gas trustees.

Resolved, That the city solicitor with this committee be ordered to collect from the gas trustees, (H. H. Dunlevy, J. A. Holliday and E. Buckman), the amount of $1,516 86 being for the following: $170 58 the amount paid J. A. Holliday & Son for work done on Harvey plant; $161 82 overpaid C. W. Rixey for hauling; $752 92 the amount being for the $376 46 which the gas trustees' books credit for three times and paid but once; also $52 36 freight on coal which the city paid twice and Henry Florsheim once, the city being charged once too often for same; $35 88 in check No. 1,812 to pay sundry bills said to be paid for James Gardener, jr., (no voucher); also $66 30 check drawn to close deposit account, and $277 00 the city is bound for to the Isabelle Porter Company, of New York.

And Whereas, This council passed a resolution ordering the present gas trustees to deposit all money and pay all bills and men on pay rolls by check. This resolution they have not complied with fully. We would recommend that the above be complied with.

Your committee asks for further time to report on electric light plant and the gas office and works, generally.

Resolved, That the clerk of the city be authorized to draw a check for $400 as part pay for George W. Robinson for his services.

Respectfully submitted,

DR. D. H. TAYLOR, Chairman.
JOHN WATERHOUSE, Secretary.

The first resolution, ordering the city solicitor to proceed and collect $12,033 36 due on "overpays," from Henry Floersheim, was passed without opposition.

The second resolution requiring the city solicitor to collect from the members of the former gas board, Messrs. H. H. Dunlevy, E. M. Holliday and E. Buckman, the sum of $1,516 86, was passed.

Mr. Frew wanted information on certain items of the second resolution. The errors made, said Mr. Robinson, expert accountant, were errors of the members of the board, not the secretary, who did as directed by the board.

The third resolution, asking that the rule made by council, that all gas board bills be paid by checks, be enforced, was adopted.

The fourth resolution, providing for the payment of $400 for services of George W. Robinson, as expert account, was adopted.

The first branch concurred in the action of the second as to the gas investigation committee's resolutions and adjourned at 11:30 p. m.

The present gas board owes Henry Floersheim $8,000 for coal. This bill will not be paid by the gas board, the committee having instructed the board to withhold payment until Floersheim settled up the city's claim of $12,000, which is to be placed in the hands of City Solicitor Boyce for collection.

The committee alleges that Floersheim secured the coal contract in an irregular manner. During the investigation by the special committee it was noticed that Floersheim's bid, under date of Pittsburgh, September 14, 1895, was written on a typewriter, the typeface of which was different from the one used on the other typewritten letters from him to the board. Investigation proved that the bid was written by a stenographer in the county building here in Wheeling at the dictation of Mr. Floersheim. It is alleged that this revised bid was made in a manner unfair to the other bidders. An official of the late gas board explains that the bid was changed by Floersheim without previous access to the other bids. This phase of the gas works muddle will be further investigated by the committee.

W. W. KEPNER'S Photographic Studio, in Peabody Building, will be open to the public to-morrow. Come and inspect the handsomest gallery in the State. Among the attractions is a large crayon portrait of the late Rev. Dr. W. H. Cooke.

Sour

Stomach, sometimes called waterbrash, and burning pain, distress, nausea, dyspepsia, are cured by Hood's Sarsaparilla. This it accomplishes because with its wonderful power as a blood purifier, Hood's Sarsaparilla gently tones and strengthens the stomach and digestive organs, invigorates the liver, creates an appetite, gives refreshing sleep, and raises the health tone. In cases of dyspepsia and indigestion it seems to have "a magic touch."

"For over 12 years I suffered from sour

Stomach

with severe pains across my shoulders, and great distress. I had violent nausea which would leave me very weak and faint, difficult to get my breath. These spells came oftener and more severe. I did not receive any lasting benefit from physicians, but found such happy effects from a trial of Hood's Sarsaparilla, that I took several bottles and mean to always keep it in the house. I am now able to do all my own work, which for six years I have been unable to do. My husband and son have also been greatly benefited by Hood's Sarsaparilla—for pains in the back, and after the grip. I gladly recommend this grand blood medicine." MRS. PETER BURBY, Leominster, Mass.

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1.

Hood's Pills cure all Liver Ills and Sick Headache. 25 cents.

FINE BED ROOM FURNITURE—G. MENDEL & CO.

Fine Bed Room Furniture

AT CUT PRICES FOR ONE WEEK.

In order to make room for our immense new stock, we have reduced prices—according to design, etc.,—on the Chamber Suits we carried over from last fall. Some have been cut very liberally, others not so much. HERE ARE A FEW ILLUSTRATIONS:

	MARKED FROM	DOWN TO
Mahogany Chamber Suits	$160 00	$140 00
Mahogany Chamber Suits	135 00	90 00
