MUNYON'S

COLD AND COUGH CURES.

Guaranteed to Check a Cold in a Few Hours and Prevent Grip and Pneumonia.

Colds lead to coughs, coughs to pneumonia and consumption; therefore, it is all important to check a cold before it reaches the lungs.

Munyon's Cold Cure will positively break a cold in less than twenty-four hours if taken as soon as the cold manifests itself.

When the cold reaches the lungs or bronchial tubes the Cough Cure should be used alternately every half hour with the Cold Cure.

The Cold Cure is guaranteed to prevent pneumonia if used in the beginning of a cold.

Pneumonia, or inflammation of the lungs, can be controlled by the use of these two cures.

The Cough Cure positively cures bronchitis, tickling in the throat, hoarseness, loss of voice, soreness of the chest, difficulty in breathing, hacking cough and all pulmonary diseases where the lungs are not too far consumed or covered with tubercles.

If you are ailing get into the nearest drug store and get a 25c vial of one of Munyon's Remedies.

No matter what your disease, or how many doctors have failed to cure, it will give you relief.

Personal letters to Prof. Munyon, 1655 Arch street, Philadelphia, Pa., answered with free medical advice for any disease.

WHY HE HATES WOMAN.

One Man Makes Out His Case Against the Fair Sex.

A writer in the Westminster Gazette explains the wherefore of his aversion to the feminine sex in the following reasons. I hate women!

Because she stabs me in the eye with her parasol, offers no apology, and looks as if I did it.

Because she pushes for a place in the trains and omnibuses, and, being in, never makes any room for any other person.

Because she climbs to the tops of omnibuses, to descend from which demands grace and decency.

Because she thinks the only way to make an omnibus stop is to "root the driver, if she cannot reach the conductor.

Because she mislays her bag, loses her handkerchief, and carries her purse in her hand.

Because she recites, plays violins and rides bicycles.

Because she walks three in a row upon the pavement, she expects everyone else to make way for her.

Because she is "fluent, but not lucid," and more concerned about the number of her facts than the truth of them.

Because, in nine cases out of ten, she can neither sew, nor read aloud, nor make tea.

Because she is always writing letters, and wanting me and others to answer them.

Because she is the slave of fashion; and that not only in clothes, but in art, music, manners, religion, flowers, jewelry, language and furniture.

Because she does not value anything simply because it is "good," following a fashion set in the days before woman existed, but because it is "worn" or "done," or even "talked about."

When a man owns a blooded horse he is always careful of his health.

He looks after his diet and is particular that the feeding shall be regular and right.

While he is doing this it is likely as not that he is himself suffering from some disease or disorder if left to itself will go on and on until it develops serious results.

When the trouble gets so bad that he cannot work, he will begin to give himself the care he gave the horse at the start.

The time to cure a disease is at the beginning and better than all is to so watch your health that disease will never come.

Good, pure, rich, red blood is the best insurance against disease of any kind.

Almost all diseases come from impure or impoverished blood. Keep the blood pure and strong and disease can find no foothold.

That is the principle on which Dr. Pierce's Golden Medical Discovery works.

It cleanses, purifies and enriches the blood, and keeps the whole body in perfect order.

Makes appetite good, digestion strong, assimilation perfect. It brings ruddy, virile health.

"I got a counsel on my tongue and had it carried out. I consulted fifteen different physicians without deriving any benefit. I turned to Dr. Pierce's Golden Medical Discovery. I persisted in its use and my health is better than ever before.

Formerly very sickly, weak and nervous, such lacérations help themselves."

Respectfully yours,

John J. Chalker
