The Flag of Rebellion Once More Floats in Nicaragua.

MARTIAL LAW IS PROCLAIMED

And the Work of Impressing Men into the Army is Being Pushed Forward Rapidly-President Zelaya Supported by a Wing of the Liberal Party-Managua Expected to be Attacked To-day by the Rebels-City Being Made Ready for De-

(Copyright, 1896, by the Associated Press.) MANAGUA, Nicaragua, via Galves-ton, Feb. 25.—The flag of rebellion has once more been raised in Nicaragua, and reports received here from the north to-day show that the whole dis-

morth to-day show that the whole district north of Lake Managua including the departments of the west and the morth, are in open rebellion against President Zelaya.

Martial law has been proclaimed and the impressing of men into the army is being pushed rapidly. The president is supported by a wing of the Liberal party, and 2,000 men are already under arms. This town, the capital, is being actively made ready for defense as the insurgents, whose headquarters are at Leon, the old capital of Nicaragua, and the center of the old Roman Catholics of modern views, are expected to make an attack upon this city. A strong detachment of Leonists has already left that town, and it is believed that Managua will be attacked to-morrow or the next day.

The insurgents are supported by a

ext day. The insurgents are supported by a The insurgents are supported by a portion of the political party in power; but, up to the present, what is known as the opposition party has not joined the rebels. The aniagonistic feelings of the people of Leon, and its vicinity and those of Managua, date from away back, and are founded upon old jealousies, having religion as their basis and more modern ideas, on the other hand, as their excuse.

ousies, having religion as their basis and more modern ideas, on the other hand, as their excuse.

Unhapplly for President Zelaya, a large consignment of modern arms and artillery, purchased in Germany, which arrived here shortly after the occupation of Corinto by the British admiral have, owing to political intrigues, found their way to Leon, and are now to be insecting and their way to Leon, and are now to be insecting anisate the president and his supporters. The excuse for sending the arms to Leon was that a certain party here was in favor of a dictatorship being declared and that, therefore, it was advisable that the modern arms and ammunition should be stored at Leon where, it was asserted, there was less likelihood of a demonstration for or against the government. The Leonits were powerful enough to have their way in this matter, and it would seem from the present developments that this was only one feature of a plot to overthrow the government of President Zelaya.

Husband and Wife Found Lifeless, Leav-

ing a Letter Intimating Suicide.
MADISON, Wis., Feb. 25.-A terrible tragedy, resulting in the fatal shooting of Mrs. A. W. Patterosn by her hus-

of Mrs. A. W. Patterosn by her husband and his death by his own hand immediately afterward, occurred at midnight last night at their home in this city. Whether it was not practically a double suicide is a question.

A letter, ostensiby by both parents, was left to the children, saying husband and wife had premeditated suicide for some time and resolved to die together. This declaration, however, is opposed by the fact that when found the wife, who had retired and was in her nightrobe, had one arm thrown across her face as if to shield it and a builet in her arm, while the husband was still fully dressed. Both with other members of the household had attended revival services being held here by B. Fay Mills during the evening, and had gone to their rooms apparently in the best of spirits. They came here from Algona, lowa.

Doubt Nansen's Claims.

Donbt Nassen's Claims.

NEW YORK, Feb. 25.—A special to the Herald from St. Pederaburg says: In the course of conversation Captain Wiggins, the well known navigator, of Kara Son fame, gave the impression of not being by any means convinced that this friend, Dr. Nansen, had reached the pole. He said: "Nansen told me that he proposed returning by way of Greenland, and he would at all hazards shave avoided the islands about Nijni Kolensk. It is possible he is sending some of bis men to Yakulsk, but so wild an idea is scarcely admissible. If it is his erclife party the Fram must have been wrecked, for Nansen would shave scarcely have left her."

Gold Bricks on the Pacific Coast.

SAN FRANCISCO, Feb. 25.—A well dressed man fonty years of age who is known by the names of Edward Thompson, Charles Gordon and Addison Mills, is under acrest in this city on a charge of giving two worthless gold bricks to M. G. Ritchie, a Napa county vineyardist, as security for a loan of \$5.090. Mills paved the way for the formious fortune that could be obtained by developing a rich mire discovered by an Indian. He was assisted by a versatile confederate, who posed first as an Indian prospector and later in assoaver from the Philadelphia mirst.

Commercial bills 34 833/. Bar silver 68%c. Reaction was the order of to-day's stock speculation, the initiative coming from London, where a lower market for American securities was reported. The bear element detected indications of liquidation and pressed the market to the fullest practicable extent. The industrials assumed the leadership in noint of activity, the combined transactions in Tobacco and Leather preferred footing up one quarter of the entire dealings. The downward movement was accelerated by the catching of numerous stop orders. A brief general raily occurred about the end of the first hour, in which, however, the only important gain was that of 13 per cent in Missouri Pactific. The improvements were short lived as a renewal of aggressive tactics by the traders brought about a selling movement at mid-day in which most of the raily was lost. Tobacco suddenly assumed prominence in the last hour by decided heaviness, resulting in a rapid break of 3 per cent on heavy dealings. The weakness of this stock was communicated to the general market, and started a selling movement all along the line, in which severe net losses in some shares and fructional declines up to 1 per cent were scored, with Sugar and the grangers the chief sufferers.

The closing was heavy in tone, with severe net losses in some shares and fructional declines general.

The early dealings in railway bonds were atended by decreased activity, but a firm tone prevailed. The market closed heavy. The aggregate dealings were \$1,92,000.

Wool.

BOSTON—The condition of the wool market is not materially indifferent from last week. Prices being maintained, but if anything, there is a slight falling off in activity, business the past week being less than any week this year. In territory the long staple wools that can be combed maintain a steady tone adhough recent sales have been slow. There has been a little business in fleece wools, but the market is slow at least week's prices maintained.
