## FATAL ACCIDENT.

Conductor on the Over-the-River Street Railroad Killed IN A PECULIAR WAY YESTERDAY

He Had His Head Out of the Car Window, Repairing a Break when He was Struck by a Telephone Pole—A Blood Vessel in His Head was Ruptured, and the Young Man Died Last Night—Hinkle Leaves a Wife and a Young Child.

A distressing and fatal accident occurred on the line of the Martin's Ferry, Bridgeport and Bellaire electric road, over the river in Aetnaville yesterday afternoon about 5 o'clock. Conductor William Hinkle, of Kirkwood, was the victim. He received injuries from which he could not recover, and died last night at 10:30 o'clock. Several days ago Hinkle's car was involved in an accident on the lower portion of the Ohio-side electric line, and one of the window frames was slightly damaged. Hinkle, however, did not know of the damage until he discovered it yesterday afternoon. At the time mentioned his car was coming through Aetnaville, and Hinkle had his head and shoulders out of the window and was trying to ascertain the amount of damage to the window frame. He supposed, of course, that there was nothing near the track that would strike him. He had just gotten the telephone poles which at that part of the road are very close to the electric line's track. He had leaned out of the window further than he had intended to. At any rate Hinkle was struck on the head by one of the poles with terrific force and was rendered unconscious. His form hanging limply half way out of the window. The motorman stopped his car as soon as possible and went to the assistance of his conductor. At Bridgeport a physician was summoned, and it was ascertained that Hinkle had burst a blood vessel in his head, causing congestion. Everything possible to save his life was done, after he had been taken to his home in Kirkwood, but without avail—he died at 10:30 o'clock last night. Hinkle was a young man of about thirty years. His family consisted of his wife and a young child. The coroner will hold an inquest over the remains this morning.

## THE PROGRAMMES

For To-morrow's Great Western Band Concerts at Mozart Park. To-morrow is the day set for the two grand sacred concerts to be given by the celebrated Great Western band of Pittsburgh, and the indications are that one of the largest crowds that ever attended a place of public amusement in Wheeling will go to Mozart park and listen to both the afternoon and evening concerts. The tickets are going off with a rush at Hinkle's music store, and those who desire to avoid the rush would do well to secure them some time to-day or this evening. The concerts will take place in the large pavilion, and there will be plenty of seats for all who attend. The street cars will offer special service during the day and evening, and Manager Wright says he will run all his cars until after the night concert. Special cars will also be run to Martin's Ferry, Bridgeport and Benwood until midnight. The programmes for the two concerts are as follows:

AFTERNOON CONCERT.  
March—Randal.....  
B. Wels  
Overture—Das Glocken Des  
Müllart  
Friedrich's Nahen.....  
Eilenberg  
Potpourri—Musikalische.....  
Tauschnig  
Fest.....  
Sobrelner  
Waltz—Deutsche Grasse.....  
Fahrbach  
Overture—William Tell.....  
Rossini  
Fantasia—Tant for Happiness.....  
The Colored Walters' Ball.....  
Laurendeau  
Pavement No. 2.....  
Meyerbeer  
Descriptive Overture—"A Hunting  
Scene".....  
Beethoven

EVENING CONCERT.  
March—"Grand Festival".....  
Bach  
Overture—"Fra Diavolo".....  
Auber  
Selections from Operas.....  
Offenbach  
Medley—"The Great Western Band  
Paraphrase—Loreley.....  
Nesraba  
Overture—Franz Liszt.....  
Keller Bella  
Waltz—"Don't You Cross".....  
Follet  
Salustuck—Del Blon Ichon.....  
Eilenberg  
Gems of St. C. H. B.....  
Tobani  
Galop—"S. C. H. B.".....  
D. Miller

A glance at the above elegant programmes will show the class of music that will be rendered at both concerts. They contain some of the most difficult and classic selections ever attempted by any musical organization, and as rendered by so excellent a band as the Great Western, the result is not hard to imagine. The afternoon concert will begin promptly at half-past 2 o'clock and the evening concert at 8 o'clock. The tickets are 25 cents and they entitle the holder to admission and the round trip on the incline. The Baltimore & Ohio railroad will run a special train back to Pittsburgh after the night concert for the accommodation of those who come down from the "Smoky City" and Washington.

THE POTTERY OUTLOOK  
Is Very Bright, Says Mr. Franzheim—A New Kiln.  
The work of laying the stone foundation for the new kiln at the Wheeling pottery, on the South Side, was begun yesterday and the work will be steadily kept up until the new kiln is completed, which will probably be in about three or four weeks. An Intelligencer reporter saw General Manager Charles W. Franzheim yesterday and learned from him that the new kiln would increase their capacity about twenty-five per cent in the "C. C." and

"sanitary" ware, and will increase the number of employes correspondingly. Mr. Franzheim further stated that the business of the company was greatly improved over last year and is improving right along. They are running full time in every department and have been since the Christmas shut down. The orders are coming in thick and fast, so fast in fact that it is all they can do to keep up with them. Mr. Franzheim expressed himself as feeling satisfied that business would pick up in all branches of trade, probably not so much during the summer as it will in the fall. The outlook is very bright and you may say that the Wheeling pottery is turning out a larger quantity and better quality of ware than ever before in its history.

Change at the La Belle.  
The LaBelle iron works is running full time and turning out lots of iron. The department had to shut down yesterday morning on account of running out of iron, and will probably start up again Monday morning. Several changes have taken place at the LaBelle in the past week or so. Charles Hallway, formerly manager of the mill, resigned, and Mr. Ed Jones was appointed to succeed him. The whole plant is under the supervision of Capt. W. H. Travis. Mr. Harry Travis has been given full charge of the turning of the rolls and his service is giving the best of satisfaction. The "spur wheel" in the muok mill broke down yesterday morning about 10 o'clock and necessarily threw that part of the works off. It will be ready to resume in about a week.
