REFLECTIONS OF A BACHELOR.

Love is a disease and marriage is generally its best anti-toxin.

Application is the ability to do work; genius is the ability not to.

When a girl is twenty she writes love with an exclamation point; when she's thirty she uses a question mark.

A girl may assert that she has never been kissed, but she will never admit that no man ever tried to.

When a woman says something mean about a man, she always says: "I like him, you know; and if I didn't like him so well I wouldn't say that."

If a man doesn't kiss his wife when he leaves her in the morning she thinks he doesn't love her; if he does, she thinks he feels good to be getting away.—New York Press.

FREE CURE FOR MEN.

A Michigan Man Offers to Send His Discovery Free—Claims to be a Benefactor to Weakened Mankind.

There is always more or less suspicion attached to anything that is offered free but sometimes a man so overflows with generosity that he cannot rest until his discovery is known to the world, in order that his fellow men may profit by what he has discovered. It is upon this principle that a resident of Kalamazoo, Mich., desires to send free to mankind a prescription which will cure them of any form of nervous debility; relieves them of all the doubt and uncertainty which such men are peculiarly liable to and restores the organs to natural size and vigor. As it costs nothing to try the experiment it would seem that any man, suffering with the nervous troubles that usually attack men who never stopped to realize what might be the final result, ought to be deeply interested in a remedy which will restore them to health, strength and vigor, without which they continue to live an existence of untold misery. As the remedy in question was the result of many years research as to what combination would be peculiarly effective in restoring to men the strength they need, it would seem that all men suffering with any form of nervous weakness ought to write for such a remedy at once. A request to H. C. Olds, Box 1766, Kalamazoo, Mich., stating that you are not sending for the prescription out of idle curiosity, but that you wish to make use of the medicine by giving it a trial, will be answered promptly and without evidence as to where information came from.

The prescription is sent free and although some may wonder how Mr. Olds can afford to give away his discovery, there is no doubt about the offer being genuine. Cut this out and send to Mr. Olds so that he may know how you came to write to him.

Rheumatism Cured in a Day.

"Mystic Cure" for Rheumatism and Nuralgia radically cures in one to three days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits.

T. F. Anthony, ex-postmaster of Promise City, Iowa, says: "I bought one bottle of 'Mystic Cure' for Rheumatism, and two doses of it did me more good than any medicine I ever took."

Sold by R. H. List, 1010 Main street, Charles Menkemeller, corner Market and Twenty-second streets, druggists, Wheeling.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

NEW YORK, Jan. 25.—Money on call easy at 1½@2 per cent; last loan 1¾ per cent; closed offered at 1½@2 per cent. Prime mercantile paper 3½@4 per cent. Sterling exchange weak, with actual business in bankers' bills at $4 86¼@4 86¾ for demand and $4 84¼@4 84½ for 60 days. Posted rates $4 85@4 85½ and $4 87½@4 88½. Commercial bills $4 83. Silver certificates 65½c. Bar silver 64⅝c.

One of the lowest records of business recently established was made to-day in the stock market. There were two divergent movements in prices and the anthracite coal stocks exerted a decided unfavorable sympathetic influence upon the general list. The market opened weak and lower, under the laws of unsatisfactory London prices for American securities. Soon after the opening the market had a general advance. The anthracite coalers had been heavy but also figures in the rally, particularly Delaware & Hudson and New Jersey Central which gained 1⅛ and 1 per cent respectively. Business was in small volume, however, and confined to the leading properties. Trading after the first hour became intensely dull and prices showed a disposition to sag. The expectation of more favorable comparisons of railroad earnings had previously strengthened the railway list and St. Paul improved a fraction despite a decrease for the third week of $48,864, and sales by the arbitrage houses. Later bear operations against the anthracite coalers increased forcibly. Delaware & Hudson dropped 2⅜ and Lackawanna 2½ per cent, while New Jersey Central suffered to the extent of 2¾ per cent. The continued unfavorable conditions in the anthracite coal trade and popular outlook for business facilitated the work of the traders in depressing prices. The closing was weak at general fractional net losses.

Railway bonds quiet and firm.

Governments strong.

The total sales of stocks to-day were 122,875 shares.

Evening Post's London financial cablegram:

The stock markets were quiet and featureless to-day. Consols were easier, which, considering the ease in money was rather a surprise. The decline in New York exchange, however, is said to have affected them. Japan continues to absorb gold.

American bonds were steadily bought, but shares were neglected and the changes were based entirely on the New York market. The Paris bourse was unsettled, the copper mine and Peruvian corporation shares furnishing the only active market. The Berlin market was firm.

Breadstuffs and Provisions.

CHICAGO—The opening of the wheat market to-day was at a slight advance, the close at ⅛c decline since Saturday. The loss would perhaps have been somewhat greater if it had not been that some of the traders at almost the last moment decided it unwise to leave the floor short with a government report to be encountered to-morrow. Other markets were dull and heavy, but show only the shifting changes in prices.
