SLY GOV. ALTGELD.

The Free Silver "Enemy of the Money Power" Connected with the Globe Bank Scandal - Charged with Transferring Property to Keep it From Creditors.

CHICAGO, April 12.-Additional charges are made in regard to the alleged mismanagement of the affairs of the Globe Savings Bank in an amended bill filed to-day by Charles E. Churchill, cashier of the defunct bank.

President Spaulding's connection with the bank is dealt with extensively in the amended bill. It is averred Spaulding induced H. C. Haley to make three promissory notes, aggregating upwards of \$15,000 payable to the order of Spaulding.

Another section of the amended bill says that Spaulding, Edward Hayes, Charles J. Ford and John W. Lanehart (deceased), the latter either for himself or ex-Governor John P. Altgeld, purchased a tract of land of eighty acres in Cook county, and Spaulding, it is alleged, paid for its share of the property out of funds of the Globe Savings bank.

The murder of Dougherty, he says was the result of a fight over a game of cards. Dougherty accused Shepard of cheating and shooting followed, Dougherty being killed with the second shot.

Requisition papers from the Governor of Illinois for the return of Shepard are here and officers are expected in the morning to take him to Chicago.

SENATE PROCEEDINGS.

Mr. Morgan on the Cuban Question-Mr. Cokrell's Remarks.

WASHINGTON, D. C., April 12.-Senator Morgan, of Alabama, to-day concluded his long speech on the resolution declaring that a state of war exists in Cuba. He did not ask for a vote on the resolution, but announced that he hoped to secure a final vote at an early day.

The bankruptcy bill was taken up at 3 o'clock, Mr. Lindsay, of Kentucky, defending the measure against criticisms made against it.

In the course of the presentation of memorial of Costrell, of Missouri, annexed that he held in his hand "one of the stereotyped printed petitions from that distinguished Indianapolis conference in which they desire Congress to surrender to them the right of legislation." He asked that it be referred to the finance committee, with the understanding that he did not endorse it.

Mr. Morgan, (Dem., Ala.), then entered upon the fourth day of his speech on the resolution declaring that a state of war exists in Cuba. He said Spain stood indicted of reckless violation of every treaty obligation. At the present time, he said, we were furnishing the Spanish army and navy with all their supplies and at the same time were arming every one who attempted to send supplies to Cuban forces.

Mr. Morgan read numerous letters, including one from the Cuban government, of the province of Oriente, to show the complete establishment of a civil government by the Cubans.

Tariff Amendments.

WASHINGTON, April 12.-Senator Nelson to-day gave notice of several amendments to the tariff bill. One of these abrogates after one year the Hawaiian reciprocity treaty. Another declares trusts or combinations for the restraint of trade or to enhance the market price of imports or manufactures by two or more persons, either one of whom is an importer to be "against public policy, illegal and void."

HOT SHOT FROM FOSTER.

The London Times' Ignorance of the Bering Sea Question.

WASHINGTON, April 12.-The London Times commenting upon the appointment of Mr. Foster to take charge of the fur seal matters expresses surprise and disappointment at what it terms the reopening of the Bering sea question. Mr. Foster, on his attention being called to the Times editorial, said he reciprocated surprise that a responsible journal should, upon such an unsubstantiated basis, attempt to impeach the Paris award, and strike a blow at the principle of arbitration.

GENERAL SATISFACTION

With the President's Appointment of the Bimetallic Commission.

WASHINGTON, D. C., April 12.-The naming of three commissioners by President McKinley under the act of the last Congress to promote bi-metallicism, was the subject of considerable discussion about the capitol to-day. Almost without exception the selections were commended. Senators, regardless of party, were pleased with the selection of ex-Vice President Stevenson. It appears that this selection was the President's own, no one appearing to urge his appointment.

President McKinley desired that the subject of international bi-metallicism should be lifted above party politics and that the men selected should be those who would work in harmony toward the execution of an agreement. It was also believed by the President that the name of Mr. Stevenson would give the commission great weight abroad.

Opposition to the scheme for international bi-metallicism has developed from an unexpected source. Morton Frewen, of attention to the subject and who has visited this country several times in the interest of silver, is now opposing an international agreement, and declares that the money question is one which one nation must settle for itself.

Senator Wolcott said that there appears to be a mistaken impression that the commission is appointed with the purpose in view of having it represent the United States at a conference only. While the commission might be utilized in that way if a conference should be held, its first work is to be of a purely diplomatic character, looking entirely to securing European co-operation.

The commission expect to leave this country about the middle of May and immediately upon their arrival in Europe will set themselves to talk. Whether there shall be any advances of the commissioners are received by the principal powers. The appointments inspired little comment among the members of the house who were at the capitol to-day.

Chairman Dingley, of the ways and means committee, said that the appointments were all good men. This verdict was endorsed by all of the Republicans.

THE CUBAN WAR.

Active Campaign Against the Insurgents According to "Official Reports."

HAVANA, April 13.-Senator Fontanolas, the public prosecutor, who is to push the trial of the government officials arrested at Cienfuegos by order of Captain General Weyler at Cienfuegos, has arrived there.

A dispatch from Camajuani announces the arrest there of a police inspector and twelve gamblers.

It is officially stated that great activity prevails among the troops operating against the insurgents in the province of Santa Clara. Captain General Weyler, on arriving at Sancti Spiritus, learned that Quintin Bandera, the well known insurgent leader, had passed the military line across the province of Puerto Principe. The captain general has ordered the Alva and Vizay batallions to pursue the enemy.

The Barcelona battalion has killed fifteen men in a skirmish and it is believed that the latter formed part of Bandera's band or of dispersed groups formerly belonging to the forces commanded by General Maximiano Gomez.

Smallpox is raging at Guines, a village of 8,000 inhabitants. During the last week there have been 150 deaths.

The Garelano battalion while near Siguanaca came upon three women who were carrying a wounded insurgent. The Spaniards killed the insurgent and brought the women to Siguanaca. Guerrillas killed ten insurgents at Pedros, Matanzas, stripping the dead of their arms. There have been other skirmishes in that locality recently.

BOSTON WOOL MARKET.

So Far this Year the Trade Above the Normal-Domestic Prices Rising.

BOSTON, Mass., April 12.-There is considerable wool being sold, the business for the past week footing up in excess of 6,000,000 pounds, about equally divided between domestic and foreign. Since January 1, the sales reported have been about 110,000,000 pounds, showing an increase in business of nearly 75,000,000 pounds over the same period last year.

This year is far beyond the normal, and of course, is all due to the special conditions which have prevailed thus far this year, owing to the tariff prospects. Manufacturers have loaded themselves with the raw material to about their full capacity, while during the past few weeks speculation among dealers has been quite a factor in the sale.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this is inflamed, it swells and you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which, unless removed, will result in deafness.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
