WILL BE A CORRER.

The Greenaburg-Wheeling Foot Ball Game Promises an Exciting Contest, and It will be Witnessed by an immouse Crowd-liow the Teams will Like Up.

The big foot ball game between the Greensburg Athletic Association and the Wheeling Athletic Club ogpurs this afternoon, at the Island ball park, at the upper end of the Island, and the good weather promised by the weather man meets with the approval of a farge proportion of the population. Ideal foot ball weather will be the order of the day, and there's nothing late for the enjoyment of the occasion to be supplied, unless it be a victory for Wheel-

There is considerable speculation as to the score to be run up. General A. H. Beach stated last night that Greensburg would have to be contented with 12 to 0, while other admirers of the local team were afsaid of a higher score, local team were afsaid of a higher score, yet there is quite a number of the opinion that Greensburg with have its hands full from start to finish. But that the game will be exciting at all stages is conceded, and the locals need all the encouragement possible, for they have a big contract on their hands. They will strain every herve to beat the famous

Jimison, of the Carlisis Indians, is another high-salaried player. He plays half. The other backs are MacAndrews, of Dartmouth college, at full, and at quarter, Capt. "Jack" Flowers, of W. & J.'s great 1897 team.

Arthur McFarland, of St. Clairsville,
with the Wheelins Tigers part of last
year, is now completing two essaons
with Greensburg. He is counted the
best tackle in Western Pennsylvanis, best tackie in western remnyature, and in all his games he has opened gaps in his opponent's line big enough to pass a wgson through. "Mac" as he is known in Wheeling, is a favorite also in Greensburg, where he is known as "Tigen." The rooters won't forget him to-day.

"Tiger." The rooters won't, forget him to-day.

The other tackle is McDermoft, scrub on Princeton's team last year, and the "Big Four" boans of none better.

The Wheeling players are too well known to require much individual ancitics. New players this year are Thomas, Smith and the Mathis boys. Curtis, the Bethany full back, has a fame extending over three states. The Edwards boys, the ploneers in football, have no superiors in the game, a fact that will be demonstrated to-day. Football in Wheeling owes them a lasting debt, especially the modest, gentlemanly Capt. "Bob."

Curtis, of Bethaup, says crowds are coming from his home, and Welisburg, and St. Clairsville will send a big degation to see McFarland, with the visitors, and Burrett, of W. A. The Y. M. C. A. has generously pinced to baths and swimming pool at the disposal of Greensburg, and the visiting players as well as W. A. C. will vote secretary Lyrch and Director E. J. St. 17 200 of thanks. Greensburg ar-

move a rock. In football the victory is too often credited to the man who makes the covered touch-down, but the giory is just as much the part of the men in the line, who like the eight of the base ball e, support the pitcher. Therefore, plaudits of to-day's multitude ould not all be poured into the ears abould not all be poured into the eary of Burclay, Jimison, or the Wheeling backs who cross the enemy's line. The game is one for cleven men, and with few exceptions the better team always wins. That it will be Wheeling is the wish of many and many a one.

To-day's line-up of both teams will be as follows:

Wheeling. Positions. Greensburg.

How the Wilson-Gorman and Dingley Tariff Acts Affected the Sheep and Wool Interests of this Section-Figures Given for Eastern Ohio.

Hon. J. C. Giover, of Harrison county, O., has been delving into official figures as to the wool industry in the over-the-river congressional district and an a splendid article in this week's Cadis Republican he gives these figures for the various counties of this district, showing what the enactment of the Wilson-Gorman law brought about, also what the Dingley tariff act did: what the Dingley tariff act did: Total Value of Net Loss in Sheep and Sheep and Wool.

on wool and sheep alone was over \$3,900,900. In his own county of Harrison he figures that the loss was more than \$41 for each man, woman and child in that county. Then he proceeds to show that the recovery and improvement in two years is unparalelled and adds:

By making an examination of the table of the Sixteenth congressional district you will see that there was a net loss to the wool growers from 1891 to 1896 of the enormous sum of \$2,850,113, and that there was a net gain in value from 1896 to 1896 of \$76,226. Such a recovery of wealth scattered among so many people is but one instance. The evidences are seen in every industry throughout the Ohio valley.
